(<sup>1</sup>) and/or [II.5.4.2.3. an agent identification test(<sup>4</sup>) carried out on blood samples collected at commencement and conclusion of, and at least every 7 days (virus isolation test) or at least every 28 days, if carried out as PCR, during collection for this consignment of semen.]]

II.6. The semen to be exported was collected after the date on which the centre was approved by the competent national authorities of the exporting country.

II.7. The semen to be exported was processed, stored and transported under conditions which satisfy the terms of Directive 88/407/EEC.

**Notes**

(\*) Those countries subject to the transitional import arrangements include: an EU member State; Liechtenstein; Norway and Switzerland.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

**Part I:**

Box I.6: Person responsible for the load in Great Britain: this box is to be filled in only if it is a certificate for transit commodity.

Box I.11: Place of origin shall correspond to the semen collection centre listed in accordance with Article 9(2) of Directive 88/407/EEC and where the semen was collected.

Box I.16: Do not use this box until the end of the transitional staging period.

Box I.22: Number of packages shall correspond to the number of containers.

Box I.23: Identification of container and seal number shall be indicated.

Box I.26: Fill in according to whether it is a transit or an import certificate.

Box I.27: Fill in according to whether it is a transit or an import certificate.

Box I.28: Species: select amongst 'Bos taurus', 'Bison bison' or 'Bubalus bubalis' as appropriate.

Donor identity shall correspond to the official identification of the animal.

Date of collection shall be indicated in the following format: dd/mm/yyyy.

Quantity shall correspond to the number of straws of semen collected on a particular date from an identified donor bull complying with particular conditions for bluetongue and EHD.
