

Level 5 Stay at Home

COVID-19 infection rates are at an all-time high across all age groups, including the most vulnerable. We must act now to protect our loved ones as well as the health service and front line staff.

We must reduce the rate of transmission.

Please – Stay at home unless it is essential that you go out.

Do not have visitors to your home outside of your support bubble.

Additional measures to combat the spread of COVID-19 have been introduced:

Schools are currently closed for all students, with remote learning in place.

Childcare services will remain closed except for services for vulnerable children and children of essential workers.

Construction will close except for health related and social housing projects, repair and maintenance of critical infrastructure and other essential projects.

Click and collect services are no longer available for non-essential retail. Click and deliver services will continue.
