To whom it may concern,

Harris was elected in count 15 and this government is not a viable government,

I'm writing about proposals to reform university governance and highlight how useless was Harris in reforming the health sector.

The universities were built built by Protestants; God fearing men and women delivering the promises of God.

My life and the lives of many others have been ruined by the government the past few years. Overarching regulations is the hallmark sign of Masonic Canaanization. There's laws to protect people against such an invasion.

The epidemic is the wrath of God, written in scripture, and curses will continue and get worse until you repent. It would be one thing if the government upheld the values of the harp brought by King David and the shamrock (father, son, holy spirit), Instead they are brainwashed by their smartphones and intent on destroying the general population. Just look around to see the destruction and heartbreak. The abomination of desolation and ruin is staring us in the face.

These regulations will cause further division in society and lead to more impoverishment. Literally NGOs are attacking the population.

Even though I have a high point degree I would not attend the university and would not like my child brainwashed in the institution. We enjoy our free minds at home.

It has only been four years since Catholic was removed from centre of society and the hell that has ensued shows why government should have no say in higher institution direction. Literally you all are trying to kill us and you are also unelected. You removed Yahweh like he was some trivial and unimportant figure.

To flourish the universities should be based on the rock, the Word. The people graduating now are infected zombies destroying society and this will only get worse.

The over-reaching government apparatus created by someone elected on count 15 is an act of aggression against the Irish. Only so long peace will be maintained with a government intent on undermining the biblical basis of society and thus genociding the Irish people.

Your days are numbered in government and you all will be remembered as the anti-Christ's who brought mass death and hell to Ireland.
