Subject: Fwd: Seaweed harvesting License

Hi [REDACTED]

I have read and understood the observations made related to my application for seaweed harvesting. I accept all observations and will fully comply with all observations.

With reference to the observations by the Dept of Agriculture, Food and Marine I have contacted the Directors of The Tralee Bay Oyster Society to inform them of our intentions and to establish if they have any objections. I have included below their written response stating that they have no objections.

Kind Regards,

[REDACTED]

Íon Organics.
