Forest Health Registration

If you are a Professional Operator “involved in introducing into, or moving within the Union plants, plant products and other objects...” (say if involved in the importation of controlled forestry plants; wood or wood products on in the movement of forestry plants from a nursery to a planting site or in moving coniferous roundwood with bark from a forest to be processed etc) “ you are required to register with DAFM for forest health.

How do I register for Forest Health?

- Complete the Plant Health Registration Form for Forestry available on this page.
- If you are an importer, complete the relevant CCS Registration Form (Individual or Company) available on this page.
- Return the completed forms to forestprotection@agriculture.gov.ie
- A member of the Forestry Inspectorate will then make contact to process your application.
