19/014	15/03/2019	Interest Group	According to reports in the Connacht Tribune, one report in August 2018 states that BIM had leased a desalination plant for Marine Harvest Ireland and Killary Salmon Company to be used on the Foreshore on the Connemara side of Killary Harbour to desalinate salt water so that the salmon farm companies could treat their diseased salmon for Amoebic Gill Disease. Another report in today's (14 March) Connacht Tribune states that the salmon farm company Bradán Beo Teo has now purchased a Desalination Plant for similar use on the Foreshore of Kilkieran Bay SAC Connemara. Questions, (1) Is a Foreshore Licence required by the salmon farm companies to operate their Desalination Plants on the above mentioned Foreshores? (2) Is an Appropriate Assessment/EIS also required to be carried out before these plants can operate as damage may be caused to the marine environment/SAC where they are operating from?	Grant
19/015	19/03/2019	Other	I would like to request to be registered as a user for viewing access to the relevant environmental layers of the IFORIS database.	Refused
