Contd.

FS006970 – Dredging at Glengarriff Pier

- With regards to timing of the works, no seasonal constraints were identified in the NIS. The timing is dependent on finalising of required permits. Once dates are confirmed for commencement of the works the local IFI office will be informed with contact details for the site supervisor.
- We note the IFI recommendation for the use of soft-start and ramp-up procedures for the dredging to be undertaken, both on a day-to-day basis and on re-start after any stoppages during the day. This will be included as a requirement in the Works Contract.
- All refuelling of machines and equipment will take place well away from the shoreline. All fuels, lubricants and hydraulic fluids must be kept in secure bunded areas away from the shoreline. Dredging will be undertaken in a manner that reduces the volumes of sedimentation in the water column. Dredging will be undertaken in a manner that reduces the volumes of sedimentation in the water column.
- The location and method of disposal along with control measures will be forwarded to the local IFI environmental officers in advance of works.
- The council will inform local angling clubs in advance of the commencing of the dredging works.

Yours sincerely,

For Malachy Walsh and Partners

**Re: Response to Comments from the Marine Institute on Foreshore Licence Applications [REDACTED]
FS006970, [REDACTED]**

In response to comments from the Marine Institute we would like to confirm the following:

- The Council will use that part of the Foreshore the subject matter of this licence for the purposes as outlined in the application and for no other purposes whatsoever.
- The Council will ensure that the works are carried out and completed in accordance with the plans and particulars lodged with the application.

Yours sincerely,

[REDACTED]

Re: Response to Marine Survey Office Comments on Foreshore Licence Applications [REDACTED] FS006970

In response to comments from the Marine Survey Office we would like to confirm the following:

- It is understood that any ship which will be engaged in the dredging project is required to comply with the national legislation. An application for survey will be made via the Mercantile Marine Office for each vessel to ensure compliance if required.

Yours sincerely,

[REDACTED]

Subject: RE: 19505-West Cork Dredging - File ref. FS 006969,70,71 Update

[REDACTED]

We don't have any comments on the DAFM response.

We don't have any comments on the UAU and Development Applications Unit response.

Is there anything further that we need to do at this stage?

Best regards,

[REDACTED]
