

Lead Applicant	County	Region	Connected Hubs Funding	Description
Carlow County Council	Carlow	Southern	€ 103,320.00	Project will develop and upgrade 6 BCP locations in Co. Carlow to enhance the remote/hybrid working function of all 6.
Cavan County Council	Cavan	NWR	€ 225,000.00	Project aims to allow 10 BCPs in Cavan to run a range of digital activities and enhance remote working spaces for all members of the community. The locations in Cavan of these BCPs are Cornafean, Templeport, Bumoe, Mullahoran, Drumavaddy, Castlerhan, Killenker, Kildallan, Drumgoon, Swarlinbar. The 10 communities aim to develop flexible working solutions by developing and enhancing digital workspaces and to develop these BCPs into digital hubs. Proposal for funding includes additional switches and access points, IOT equipment, PV solar panels, electric car charging points & privacy booths. Also sought as a part of this investment will be relevant office furniture, perspex screens and security systems.
Cavan Digital Hub	Cavan	NWR	€ 11,016.00	The purpose of this project is to strengthen the hubs recovery strategy as the economy opens fully and to support new digitally focused start ups and businesses in their growth within the area. Installation of additional technology enabled systems such as a remote access system will improve the hubs service current offerings.
Clare County Council	Clare	Southern	€ 209,700.00	This project will upgrade existing hubs and BCPs in Ennis, Ennistymon, Kilsrush, Flagmount and Feakle. Through this proposal Clare plan to enhance remote working space for all members in local communities by introducing additional hot desk facilities in each location, upgrade internal and external signage and upgrading internet access.
Avondhu Blackwater Partnership CLG	Cork	Southern	€ 23,580.00	This project will add 8 remote working spaces to this BCP. It will also provide for the upgrade of meeting facilities and greatly improve the overall remote working offering of this location.
Bantry E-Centre	Cork	Southern	€ 75,000.00	Bantry E-Centre is a 12 desk remote working facility owned by Cork County Council. Funds are sought to undertake an energy upgrade (heating and lighting to be made more energy efficient), a broadband connectivity upgrade (improve to 1GB) and extra capacity (9 additional desks for remote learning and own-door office).
Benchspace Cork	Cork	Southern	€ 16,843.70	The Pitch Perfect Project will enhance Benchspace's offering to users of the hub and can also act as a regional resource hub for creatives. This will see an upgrade to the audio visual facilities by installing a Pitch Booth in the existing space. The Pitch Booth will be equipped with conference equipment, a workstation, visualisers, cameras, lighting and backdrops. Benchspace users will be able to leverage this new facility to capture their work by camera or video to reach customers and buyers in Europe and Internationally.
Fermoy E-Centre	Cork	Southern	€ 75,000.00	Extensive proposal that seeks to use funding to add 14 extra desks (7 hot desks and 3 cellular office spaces), increasing the economic benefit to the locality by approx. €820,000 in salaries income. Other works proposed include energy upgrades, connectivity upgrades and additional mobility infrastructure.
gTeic Béal Atha an Ghoarthaigh - Údarás	Cork	Southern	€ 30,906.00	Project seeks investment to upgrade the facility so to be optimised as a critical local source to enhance remote working, online learning and new start-ups. This proposal will add value to and extend the range and impact of the infrastructure and services which the Hub will offer to local enterprises, start-ups, remote workers and to individuals and local community enterprises who are committed to developing new and enhanced skills and qualifications. Project consists of installing an improved video conference system, a networking upgrade, energy efficiency improvements & an access control system.
Macroom Enterprise Centre	Cork	Southern	€ 68,370.30	This project will improve the experience of hub users, which include businesses, remote workers and students / trainees through the upgrading of audio visual equipment, accessibility and meeting room facilities in this existing hub in Macroom.
Republic of Work	Cork	Southern	€ 75,000.00	Republic of Work is based in the heart of Cork City. This proposal will see the installation of a broadcasting suite, meeting room upgrades, installation of privacy booths and upgrade of disability access.
The Ludgate Hub	Cork	Southern	€ 60,756.33	The Ludgate Hub is located in Skibbereen, Co.Cork. Ludgate wishes to add additional capacity to their existing remote working infrastructure through the development and enhancement of their digital technology framework and enhancement of their current facilities and space. This proposal will see the upgrade of their current IT systems, install energy efficient upgrades and privacy phone booths.
Cowork Plus An Tearmann	Donegal	NWR	€ 45,000.00	Project will enhance remote working infrastructure at existing hub through the addition of three office spaces and large shared spaces. Funding provided will also allow for a new central air system and the requisite upgrade to facilities to allow for this.
Donegal County Council	Donegal	NWR	€ 250,000.00	This project will extend the capacity and the sustainability of the BCP Network in Malinbeg, Loughowey, Ray, Carrigart, Tory Island and Croaglin. The investment will enhance the value of the hub to both the local economy and the local community and will make a significant contribution to the region for a place to live, work and invest in. This proposal will range from building refurbishments works to ICT hardware and furniture to maximise the use of the high speed BCPs.
gTeic @ Cill Charthaigh	Donegal	NWR	€ 15,142.50	This proposal will improve the quality and effectiveness of the existing hub offering by improving the remote working offering in the building. The proposal will completely change the existing room, to remove 4 of the bulky long-term desks and replace them with two privacy pods and 6 co-working desks. This increases the capacity of the area while also providing two privacy booths (one booth which will host 2 two-person meeting and another booth which accommodates 1 person). It is also planned to change the entrance door to the room to a full glass door with a full window panel in the frame to make the space open and visible and attractive to passing users. The area will also be brightened up to become a more creative space with new flooring, modern furniture and brighter colours.
Mevagh Family Resource Centre	Donegal	NWR	€ 24,080.43	Facility has offered hot-desking service since 2006. The proposed works will update and brighten the space, making it a more professional work space and more comfortable to work in. Proposal includes upgrades to lighting, furniture and dividers, ventilation and sound proof booth.
Spraogus Spórt	Donegal	NWR	€ 75,000.00	This project aims to modernise the current co-working space and double the co-working capacity. Works planned include energy upgrades, door upgrades, flooring, ventilation, room reconfiguration and office furniture.
The BASE Enterprise Centre	Donegal	NWR	€ 67,100.68	The BASE Enterprise Centre is applying for funding to extend and upgrade the range of facilities and services they offer and bring them in line with the expectations of remote workers with the aim of supporting the goal of Balanced Regional Development. This proposal will expand existing remote working infrastructure, IT Network upgrades, Signage upgrades and access control systems.
The Business Hub	Donegal	NWR	€ 75,000.00	This project will expand capacity by fitting out unit (291 sq m) to add 3 large offices, 3 small offices, meeting room, and other supporting utilities and amenities, storage room, canteen, toilets, tea/coffee station and printing station. By doing this, it can help keep people in the community, who would otherwise be travelling to the larger cities to work.
Ace Enterprise Park, Bawnogue	Dublin	EMR	€ 48,215.00	Ace Enterprise Bawnogue comprises of 28,000sqm across a variety of buildings, built back in 2000. It is currently home to approx. 120 clients, from Community Groups to small Start Ups, the split being 65:35 Community. Their aim is to convert the ground floor into a CO-Working space, with collision areas around a coffee dock, new accessible bathrooms, and a digital suite. This floor will be able to accommodate up to 12 people with social distancing and will have soundproofed pods installed. The Digital Suite will be a room that is soundproofed, and set up with a green screen, lighting and acoustics, suitable for the Start Up to make videos, create webinars, produce podcasts and take images for their business website. The 1st floor will be converted into 5 suitable 2 man office spaces, and the top floor into an Audio Visual Meeting room ideal for those virtual meetings and collaborating with the remote team.
Applewood Community Centre	Dublin	EMR	€ 10,000.00	Project will see the addition of remote working equipment including a wall mounted screen, fold away desks and desk dividers (Perspex screens), office chairs, security key pad and a modular meeting pod.
Base Enterprise Centre	Dublin	EMR	€ 75,000.00	The proposal will address the environmental impact of the Base Remote Working and Enterprise Hub, improve energy efficiency and accessibility of the Hub, enhance, and modernise the facilities offered by the Hub and upgrade the IT and Audio-Visual infrastructure within the Hub.
Carmichael Centre	Dublin	EMR	€ 28,342.80	Investment will support balanced regional development & contribute to achievement of goals outlined in both Our Rural Future & Making Remote Work. Installation of 2 IT Screens to facilitate hybrid meetings. Installation of 4 privacy booths. Energy efficient upgrades.
CoCreate North	Dublin	EMR	€ 23,292.00	Investment will add 10 remote working spaces and two privacy booths to the existing hub.
CoCreate South	Dublin	EMR	€ 23,292.00	This application is seeking funds to improve the existing hub, specifically through the addition of door access technology, addition of two phone booths, conferencing facilities and general refurbishment.
DigitalHQ	Dublin	EMR	€ 30,481.00	Project will see the upgrade of the existing meeting room to a virtual classroom, upgrade of audio visual equipment in event space, and addition of a privacy booth. The facility already is very connected to the hub network and will provide substantial services into the network.
Dogpatch Labs	Dublin	EMR	€ 75,000.00	The project will upgrade the hubs facilities management process to better manage capacity, install soundproof phone booths, new bicycle racks and improve the hub's access control and security systems. All work will be compatible with the Baseworks platform.
Fingal Liam Rodgers Community Centre	Dublin	EMR	€ 10,000.00	Project will enhance remote working infrastructure at existing BCP. This project will provide a space for local businessmen and women, students, entrepreneurs to work remotely within their locality in a safe friendly welcoming environment. The aim of this project is to provide 6 workstations in the meeting room, socially distanced and Perspex screens where necessary. These workstations will be available each day for regular booking or as a hot desk. The meeting pods or telephone booths will also be available separately in the centre for the community to have more private meetings or phone conversations in the centre.
Luttrellstown Community Centre	Dublin	EMR	€ 10,000.00	Project will enhance remote working infrastructure at existing BCP. Installation of 6 workstations in the meeting room with Perspex screens. Upgrade of access control system for the meeting room. Creation of modular phone booth / meeting pod.
M-Space Malahide	Dublin	EMR	€ 38,952.00	The project will install privacy booths, convert open plan space into a modular office, and install screens between desks, which will allow the hub to operate at 100% capacity.
The Glasshouse GH2	Dublin	EMR	€ 62,772.42	This project is aimed to reduce the number of HotDesks with the expansion of own-door offices within the Glasshouse GH2. Addition of Privacy and Phone booths to areas within the building as well as the addition of Audio Visual equipment to provide members with facilities to enhance video conferencing. Implementation of energy efficient measures such as touchscreen signage.
Tyrellstown Community Centre (BCP)	Dublin	EMR	€ 10,000.00	Project will enhance remote working infrastructure at existing BCP. Installations of 4 workstations and Perspex screens in the meeting room. Installation of a key code pad on the door for security. Connectivity and technology upgrades – additional access points, printer, firewall. Installation of a wall mounted monitor to help with presentations and and/or meetings.
Glenasmole Community Centre BCP	Dublin	EMR	€ 30,650.92	BCP application that will be used to install a new flooring system, including under floor heating, and the replacement of one window.
Guinness Enterprise Centre	Dublin	EMR	€ 63,000.00	Funding is sought for the development of two dedicated remote worker rooms. The upgrade will include an IT upgrade, sustainable storage heaters, installation of energy efficient lighting and windows.
Terenure Enterprise Centre	Dublin	EMR	€ 36,283.50	The idea for this funding for Terenure Enterprise Centre is to provide a new airy, bright, modern, socially distanced 12 seat self-service canteen for our business members, remote workers and community groups. This will include a modern kitchenette area fully equipped with appliances and refreshment facilities. The area will also include Wi-Fi, USB charging sockets and safety screens between seats.
The Glasshouse GH1	Dublin	EMR	€ 20,394.10	This project aims to provide Privacy and Phone booths to areas within the building. Addition of Audio Visual equipment to provide members with facilities to enhance video conferencing and the addition of Power Socket in the Courtyard as a Charging point for eBikes.
Innovate Communities (IC) - Liberties Hub	Dublin City	EMR	€ 75,000.00	Funding is sought for the design and building of bespoke booths for their remote workers and a security access system, providing access out with 9-5 working hours, enabling increased flexibility for remote workers and reducing the requirement of having a staff member to cover out of hours working.
Ballinasloe Enterprise Hub	Galway	NWR	€ 63,405.00	The facility currently supports approximately 30 businesses (employing 180 people) as well as the wider Ballinasloe community. The application for funding proposed works that improve the energy usage of the facility in order to improve the working environment as well as reduce the energy cost of running the facility.
Blue I Hub	Galway	NWR	€ 75,000.00	Blue I Hub is located in Miltown, Co.Galway. Their aim is to add additional capacity to our existing facility, this would increase capacity from 3 work stations to 6 work stations, and 6 hot desks to 12 hot desks.
Ceantra na nOileán Innovation	Galway	EMR	€ 75,000.00	Proposed extensive upgrade and renovation to an additional Hub space including: 2 new hot desking rooms with privacy booths, 2 private offices, 2 meeting rooms with AV facilities, video conferencing, 24/7 access, security update.
Galway County Council	Galway	NWR	€ 239,095.00	Project will develop or upgrade the remote working facilities of 8 BCPs in Galway County. These BCPs are located in Letterunfinn, Inis Oirr, Inisbofin, Glenmaddy, Lackagh, Ballyglunin, Tuam, Clonberne. This funding would enable eight BCPs in county Galway to offer more supports to their communities by increasing remote working spaces. Three locations will see an increase to the current service offering to their communities, with the addition of 14 remote working spaces across the three areas, allowing them to offer remote working for the first time. Five locations have asked for support to build on their previous success in offering either additional or upgraded remote working facilities. In total, across the eight BCPs this application will enable the BCPs to offer up to 51 remote workspaces (covid restrictions dependant).
GMIT Innovation Hubs	Galway	NWR	€ 13,688.50	The GMIT iHub at Galway offers incubation space and supports to high potential entrepreneurs and innovative business start-ups & scale ups with specific focus on Medtech, Digital Technology and Marine technology companies. This funding will see energy upgrades and AV upgrades with Video Conferencing capabilities.
Killmore Data Hub	Galway	NWR	€ 29,177.64	Although a small offering compared to other applications, this is an example of how remote working which is already in place albeit on a small scale will be up scaled and developed in a rural area. Key elements include: Installation of Data Access Control to allow for extended opening hours; Installation of security system; Audio visual facilities; Energy efficiency upgrade; Disability access upgrade; Upgrade of meeting rooms; Upgrade of external signage.
Portershead	Galway	NWR	€ 75,000.00	This project will see the upgrade of existing facilities currently being offered in Portershead.
SCCU Enterprises CLG	Galway	NWR	€ 45,700.00	This project will extend the capacity and the sustainability of the hub. The investment will enhance the value of the hub to both the local economy and the local community. This project will make a significant contribution to the region for a place to live, work and invest in.
Westside Resource Centre	Galway	NWR	€ 38,144.70	Westside Resource Centre provides meeting rooms and work spaces to a wide variety of organisations, groups and agencies. The Connected Hubs funding will help to make major improvements and upgrades to their facilities, and will allow them to use the spaces that they have more flexibly and creatively and increase the number of people using the Hub. This application proposes to convert two individual small meeting rooms into one larger space with the use of a partitioning screen. This will allow bookings for larger events / meetings / conferences.
gTeic@Corca Dhuibhne - Údarás	Kerry	Southern	€ 14,967.00	Project will enable an upgrade of meeting and video conferencing facilities for this existing hub in addition to small scale energy efficiency upgrades.
HQ CoWorking Space	Kerry	Southern	€ 65,517.30	This project will deliver additional hot-desking capacity in Tralee. The funding will enable the upgrading of existing pods with improved soundproofing, 4 new privacy booths and dedicated video conferencing facilities.
Island Point	Kerry	Southern	€ 74,976.00	Facility is at full occupancy with its current layout. This proposal will facilitate a further 40+ customers through the development of new training rooms, meeting rooms and stand-alone office space.
Kenmare CoWorking Hub	Kerry	Southern	€ 71,000.00	Investment will support balanced regional development & contribute to achievement of goals outlined in both Our Rural Future & Making Remote Work.
Kerry Innovation Centre	Kerry	Southern	€ 71,872.65	This proposal will see 15 additional remote working spaces created in this BCP. Meeting facilities will also be expanded and upgraded in an effort to attract more customers to this location.
Killarney Technology Innovation Ltd	Kerry	Southern	€ 67,122.00	Project will enhance remote working infrastructure at existing hub.
Mol Teic (Dingle Hub)	Kerry	Southern	€ 68,000.00	Project will enhance existing offering (including new podcast room, refitting office, privacy booths) and existing infrastructure.
Office Light	Kerry	Southern	€ 40,473.00	This proposal will see the installation of enhanced meeting facilities and privacy booths to enhance the overall offering of this hub.
RDI Hub	Kerry	Southern	€ 66,626.11	The RDI Hub is a major change initiative located in the Southwest (SW), with national impact and global reach. This proposal will see this upgrade of external signage to promote the hub, privacy features and Audio Visual upgrades.

Sneem Digital Hub	Kerry	Southern	€	71,250.00	This projects aim is to meet the demand of current and new clients in the needs for remote working, it aims to make significant space for more private offices, more privacy for clients, reduce energy costs and additional co working space. This project will see 3 private offices installed, 10 additional co-working spaces, 2 additional privacy booths and upgrades to external signage.
South Kerry Development Partnership CLG	Kerry	Southern	€	67,805.00	Multi-hub proposal for the addition of remote working infrastructure in the BCP network in Kerry. 5 BCP's will benefit from this investment including: Valentia, Foimere, Inch, Barraclough & Borane. This will support remote working for local communities and visitors to these tourist areas during the season.
The Box CoWork	Kerry	Southern	€	66,482.00	This application is seeking funds to subdivide a second site into remote office facilities incorporating natural break out and huddle spaces, create a ground floor disabled access office / presentation / seminar room, upgrade the access control system and improve technology to support virtual meetings and training services.
Allerlow Community Development Association (ACDAL)	Kildare	EMR	€	30,286.00	The facility currently has 16 Remote Working spaces, open door offices, training and conference room. Funding for this project is sought to renovate the food preparation and dining facilities in line with the modernisation of the rest of the facility. Converting two existing separate rooms into one larger space. Installing energy efficient heating and lighting, installing safety flooring, a small number of kitchen units and appliances.
County Kildare Chamber of Commerce	Kildare	EMR	€	34,353.36	This project will deliver additional hot-desking capacity in the centre of Naas town. The site is part of the county-wide K-Hub initiative (similar to the NHH) and is owned and managed by the Kildare Chamber. The funding will enable the installation of a further 4 hot desks, 2 enclosed privacy booths and 2 x 60" interactive touchscreens. 3 month marketing and advertising campaign to promote the hub.
Osprey Business Centre	Kildare	EMR	€	75,000.00	Funding will be used towards expansion of existing own door hub to include: Creation of a dedicated open plan Co-working area to accommodate 26 pax, Installation of privacy booths within Co-working area, Additional meeting room facilities
The Hub @ Market Square	Kildare	EMR	€	75,000.00	The Hub at Market Square Ballymore Eustace Co Kildare is on the East Kildare/West Wicklow border. The Hub will be a flexible Co-Working Hub. The funding application will upgrade current office furniture and equipment, external signage upgrade and an access control system.
Venture House	Kildare	EMR	€	48,934.00	This hub is part of the K-Hub Collective, which was formed almost a year ago to link all Work Hubs and Innovation centres across the county of Kildare. The following work will be completed; Transformation of the Conference Room into a "Virtual Showroom" & Selling Space by adding a modern Screens & a Camera system that allows the members to seamlessly sell and promote products to potential new clients, adding capacity for 10 new desk spaces, along with the soundproofing of 3 existing meeting rooms with a potential to hold 10 people and the creation of two new single phone booths, to allow for Video Calls and Private Meetings when needed. The division of a larger existing office will add two more private, two - three person offices, create a large breakout area for break times, lunches and casual networking with other members. 3-4 additional access points to ensure a strong broadband signal throughout the building, along with an increase in capacity and speed from our current provider. These changes will almost double the hub's capacity.
Abbey Business Centre	Kilkenny	Southern	€	64,350.00	The project will involve the addition of a further 9 workstations, adding to those currently under development. This will give us a total of 18 co-working spaces which along with the 10 remaining private offices (each with capacity of 2-3 persons) will be available for booking on the National Hub Network and will offer significant additional remote working with options of very high quality in the Kilkenny area.
Kilkenny County Council	Kilkenny	Southern	€	96,088.00	Investment will see delivery of 24 remote working spaces across the BCP network in Co.Kilkenny in the following locations; 1. The Community Centre, Clorinka, Muckalee 2. Ballyoukhill Community Centre, Attanagh, Co. Kilkenny 3. Galmoy Community Centre, Galmoy, Co. Kilkenny. 4. Crosspatrick Community Centre, Crosspatrick, via Thurles, Co. Kilkenny. 5. Connolly's of Dunbell, Dunbell, Co. Kilkenny. 6. Glenmore Community Centre, Robinstown, Glenmore, Co. Kilkenny. Meeting room facilities, printing and audio visual facilities will also be provided within each BCP. The Proposal includes delivery of the Kilkenny BCP Remote Work Project". Access controls will be provided and external and internal signage/branding will be developed alongside a standard marketing and promotion plan to be developed as a co-ordinated approach for BCPs in the County promoting each as part of the National Hub Network.
KOSL Hub	Kilkenny	Southern	€	75,000.00	This project will bring their existing facilities up to date to cater for the needs of the business and community in Kilkenny with remote working and collaboration supports being vital. This proposal comprises of video conferencing facilities, upgrade access control systems and the installation of privacy phone booths.
BloomHQ	Laos	EMR	€	25,426.00	Originally a Convent, and now converted into the BloomHQ Co-working enterprise centre, which boasts gigabit broadband. This funding will provide the space for a community education programme that will start at second level through a community grants scheme and develops into a mentorship programme for third level. By renovating a meeting space which will expand our meeting room capabilities, this project will allow us to provide additional meeting space for our current groups.
P.E.C Innovation Hub	Laos	EMR	€	67,500.00	This project will extend the capacity and the sustainability of the hub. The investment will enhance the value of the hub to both the local economy and the local community. This project will make a significant contribution to the region for a place to live, work and invest in. Implementation of a multi functional technical space which involves a suite of laptops and headsets and a 70" interactive screen. Upgrade of kitchenette area. Installation of an access control system. Upgrade to external signage. Marketing campaign. Energy efficient upgrades.
Portlaoise Enterprise Centre	Laos	EMR	€	55,000.00	Investment will support balanced regional development & contribute to achievement of goals outlined in both Our Rural Future & Making Remote Work. Upgrade to lighting and existing windows. Installation of LED external signage and energy efficiency measures.
Shanganaghmore BCP Barrowhoney Community	Laos	EMR	€	17,290.00	This BCP project will see the purchase of office furniture and IT equipment including laptops, projector, screens, as well as a coded door entry system. They also plan to develop a new webpage and create a booking tool
Vicarstown Community Centre	Laos	EMR	€	34,470.00	Investment will represent addition in remote working capacity for the region. Procurement of IT equipment such as laptops, projector and screen. Gantry/Cage for IT storage and safe removal.
Leitrim County Council	Leitrim	NWR	€	248,368.35	This application represents a project on behalf of 4 hubs (Mohill Enterprise Centre; Kinlough Hub; The Hive; Ballinamore Enterprise Centre) and 7 BCPs (New Ballagh Centre; Leitrim Gaels Community Facility; Killarney Community Centre; Gortletteragh Community Centre; Aughawillan GAA Clubrooms; Askill Community Centre; Aghlish Community Centre). The project will enhance the existing facilities at each of the location through the addition of a variety of measures, including increased capacity, providing wheelchair accessible facilities, implementing changes to assist with management of COVID-19 contact tracing or improving security measures.
W8 Hub	Leitrim	NWR	€	75,000.00	Funding is sought to add significant additional capacity (140 m2) to the existing facility. This will involve an internal refit, IT systems, energy controls and phone booths.
Galbally GAA BCP	Limerick	Southern	€	24,840.00	Proposal will see 2 rooms upgraded in the BCP in order to provide remote working infrastructure which will be available to the local community. Privacy booths will also be installed in both rooms as a part of this proposal.
Hartnett Enterprise Acceleration Centre	Limerick	Southern	€	67,497.88	The proposed work to the Hartnett Enterprise Acceleration Centre (HEAC) will comprise of four elements to enhance the usability of building and its facilities for both existing resident-clients and external clients from enterprise centres in the National Hubs Network. These works will enable the remote booking of spaces in HEAC, provide secure controlled access to the building; and booking of video-conferencing equipment.
Innovate Limerick	Limerick	Southern	€	230,450.00	This Multi-Hub application will expand on and improve remote working facilities in 6 existing hubs in Limerick City and County including; Innovate Limerick - Limerick City, The Yard Workspace - Newswest West, Limerick Enterprise Development Park - Limerick City (LEDP), Innovation Hub - Roxboro, Croom Enterprise Centre - Croom, The Development Centre - Kiltinane, Co Limerick implementation will be overseen by Innovate Limerick.
Limerick County Council	Limerick	Southern	€	81,900.00	This application will provide upgrades to 13 BCPs in County Limerick. Askeaton, Caherline, Cappamore, Ardagh, Carrowbane Beg, Spittle, Abyeafelley, Barrysfarm, Kildimo, Patrickswell, Rathkeale, Shanagolden and Glenmore East. Although a small offering compared to other applications, this is an example of how remote working which is already in place albeit on a small scale will be up scaled and developed in a rural area. Key elements include: Installation of Data Access Control to allow for extended opening hours; Installation of security system; Audio visual facilities; Energy efficiency upgrade; Disability access upgrade; Upgrade of meeting rooms; Upgrade of external signage.
Longford County Council	Longford	EMR	€	234,677.84	Investment will see upgrade of 5 BCPs through the county to offer remote working to local communities. The works proposed will include upgrade works to the existing BCPs, as well as providing privacy booths and screens, additional desks/chairs and equipment to bring additional capacity to the offering, e.g. podcasting, etc. This work will enhance the attractiveness of the BCPs as a place to work and will create new opportunities for the local community to live and work locally.
Creative Spark	Louth	EMR	€	39,658.00	The application for funds will deliver necessary infrastructural upgrades to the existing Creative Spark facility to maximise usage of existing under-utilised circulation spaces which will allow for increased occupancy within socially distanced and safe conditions; re-design of the current layout of atrium space, circulation space, meeting room configuration; upgrade access control systems to include co-working areas; upgrade existing firewalls; and upgrade to communications cabinet capacity to allow for increased ports to be deployed throughout the existing centre.
St.Fechins GAA and Community Centre	Louth	EMR	€	22,050.00	The Project is to improve the current remote working hub facilities provided at St. Fechin's, Community Centre. This project will see the upgrade of their current meeting rooms with up to date video conferencing facilities, provide additional privacy booths and upgrade their office furniture to make best use of the space they have available.
The Mill Enterprise Hub	Louth	EMR	€	67,500.00	Upgrade of hub facilities will allow this location to attract more customers and encourage remote working in the region. Integration of access control system across buildings. Marketing campaign. Energy efficient upgrades. Installation of new Ventilation System. Temporary conversion of training room into a remote work space. Implementation of extra meeting room cubicle. Upgrade of IT systems.
Cairn Enterprise Hub	Mayo	NWR	€	75,000.00	This project proposal aims to build on the considerable success to date and enhance spaces this hub has created and to make them more usable in a post COVID context for remote workers. The proposed works include 2 Privacy booths, 4 individual hot desk offices, enhancing signage and an access control system.
Knockmore Resource Centre	Mayo	NWR	€	32,233.36	Upgrade of hub facilities will allow this location to attract more customers and encourage remote working in the region. Installation of integrated Access Control, Security and Fire Alarm Systems. Upgrade of the existing reception area to create new informal meeting area/ coffee dock. External Signage to promote the Remote Working Hub.
Leeson Enterprise Centre	Mayo	NWR	€	16,434.00	The Leeson Enterprise Centre is located in the centre of Westport town, they propose an expansion of current facilities to improve the experience of their existing clients. This proposal will fund energy efficient upgrades, provide bike shelters and upgrade current shower facilities.
Mayo County Council	Mayo	NWR	€	195,475.00	Application seeks to develop 11 BCPs in Mayo including the islands for remote working purposes, these BCPs are located in Belladerry; Bofenuagh; Clare Island; Cushlogh; Keel; Kilmore; Belmullet; Aghamore; Ardagh; Clogher; Insturk. These locations will provide existing meeting rooms, provide efficient energy upgrades, convert existing open plan spaces to modular offices and disability access upgrades.
The Courthouse	Mayo	NWR	€	18,000.00	Application seeks funding for an enhancement to the building and marketing campaign to promote the use of the building. Specifically, the installation of door access control system to enable 24/7 access, a marketing campaign to increase awareness of the new larger space, and an energy efficiency upgrade.
Meath County Council	Meath	EMR	€	222,354.00	Upgrade of BCP facilities will allow this location to attract more customers and encourage remote working in 15 BCPs across Co. Meath. funding being sought will be used to provide desks, chairs, audio and visual equipment, Covid safety measures, access control systems and storage units. Some sites also need investment to improve the comfort levels in the buildings requiring improved heating systems or insulation.
