

REAP Circular No. 8

3<sup>rd</sup> February 2022

**Results Based Environment Agri Pilot Project (REAP)  
Correcting Balance Payrun**

Dear Advisor

In REAP Circular No 7, dated 17<sup>th</sup> December 2021, we had advised that we had identified a rounding issue in the payment calculation formula applied in the first REAP payrun and that the issue had resulted in a number of participants receiving a lower environmental payment.

REAP has now arranged for a Corrective Balance Payrun to issue this week in relation to those affected by this issue and this will bring their environmental payment up to the full value. Payments should reach relevant bank accounts within the next few days.

Of the 2,995 payments that issued in the 1<sup>st</sup> payrun, this issue had effected 2,279 cases and they are being corrected in this payrun. It is important to note that not all those paid on the 1<sup>st</sup> payrun are due a corrective balance payrun, as a number of cases were paid correctly initially.
