

**Strategic Environmental Assessment (SEA) Screening Determination Report  
For The  
Statutory Climate Change Adaptation Plan  
For The Transport Sector**

A Screening Determination has been made by The Minister for Transport, Tourism and Sport on the need for a Strategic Environmental Assessment of the statutory climate change adaption plan for the transport sector. This determination has been reached in accordance with the provisions of:

- Articles 2 and 3(1) of the EU Directive (2001/42/EC) on the Assessment of Effects of Certain Plans and Programmes on the Environment (hereafter referred to as the SEA Directive)
- The administrative provisions criteria stipulated in Article 9(1) of S.I. 435 of 2004 and S.I. No. 200/2011 – European Communities (Environmental Assessment of Certain Plans and Programmes) (Amendment) Regulations 2011.

Screening of the Plan established that the Plan does not fall into any of the sectors covered by the Directive; it will not significantly affect a Natura 2000 site/European site, nor does it provide a framework for development consent.

Therefore it is determined that SEA is not required for the statutory climate change adaptation plan for the transport sector.
