Dear Larry,

I refer to CAAS reports which were sent to Mr. John Martin, Principal Officer, Head of Flood Project Management, OPW by Mr. Brian O'Malley, Principal Officer, Central Expenditure Policy Division on the 6th November 2020.

In response to the Request for Supplementary Environmental Information (SEI) made by the Department of Public Expenditure and Reform on 6th November 2020, please find enclosed:

1. Environmental Impact Assessment Report (EIAR) Addendum
2. Natura Impact Statement (NIS) Addendum

We believe the above addenda provides the Minister for Public Expenditure & Reform with the information needed to assist the decision-making process. It is worth noting that there has been no significant change to the conclusions of both the EIAR and NIS.

Should there be anything else you require please feel free to contact me.

Yours sincerely,

Barry Williams
Associate
