Social Housing Construction Projects

Status Report Q1 2022

Prepared by the Department of Housing, Local Government and Heritage
[gov.ie/housing](https://www.gov.ie/housing)

Quarter 1 of 2022: Social Housing Construction Status Report

Social Housing Construction Status Report

The Social Housing Construction Status Report (CSR) provides a breakdown of local authority and approved housing body social housing new-build activity. The Report includes scheme level details on the completion of social housing new builds, as well as information on each construction scheme as it progresses through the design and tender processes.

Social Housing

New build social housing delivery is supported through a number of funding streams and is delivered via local authorities and Approved Housing Bodies. The number of new build social homes completed and in the pipeline has been increasing, with new construction projects being added to the pipeline regularly.

The Construction Status Report shows that 616 new social homes were completed in Q1 2022.

An additional 23 local authority Part V units were also completed in Q1 2022 which are not reflected in the CSR.

Construction Status Report

The latest Construction Status Report shows that 8,776 social homes are currently onsite with an additional 11,551 homes at design and tender stage. In Quarter 1 2022, 109 new construction schemes, (1,733 homes) were added to the pipeline. In total the Construction Status Report provides details on 25,743 new build social homes across 1,455 schemes.

Tracking Progress in advancing the Construction Agenda- the Construction Status Report

The Social Housing Construction Status Report for Quarter 1 2022 has now been finalised and the attached Appendices set out

progress made to date in advancing the construction pipeline.

Appendix 1 sets out the current status of schemes, as of the end of Q1 2022.

Appendix 2 sets out the various funding programmes for the 25,743 homes delivered or in the pipeline.

Appendix 3 sets out explanatory notes on terms used in the report.

It should be noted that the Social Housing Construction Status Report does not reflect the totality of the overall Build Programme. In addition to the homes reflected in the Report, local authority Part Vs are being delivered and these are reflected in the overall statistics published by the Department.

Part V is a very important contributor to new build social housing delivery. This delivery stream is not generally reflected in the CSR; however, some AHB Part V being delivered as part of larger schemes may be included. In Q1 2022, 94 Part V homes were delivered including 23 local authority Part V homes and 71 AHB Part V homes. A full breakdown by LA of Part V output is available on the statistics page of the Departments website.

Appendix 1 – Status of Schemes

	<u>Q2 of 2021</u>		<u>Q3 of 2021</u>		<u>Q4 of 2021</u>		<u>Q1 of 2022</u>	
<u>Approval Status</u>	<u>Schemes*</u>	<u>Homes</u>	<u>Schemes*</u>	<u>Homes</u>	<u>Schemes*</u>	<u>Homes</u>	<u>Schemes*</u>	<u>Homes</u>
Stage 1 - Capital Appraisal	121	3,004	125	2,997	136	3,299	154	3,288
Stage 2 - Pre-planning	132	2,527	105	1,989	116	2,575	108	2,589
Stage 3 - Pre-Tender design	45	931	63	1,399	59	1,143	57	1,194
Stage 4 - Tender Report or Final Turnkey/CALF approval	184	2,666	204	3,174	224	3,438	267	4,480
Site Start	465	8,755	506	9,476	446	8,749	455	8,776
Site Finish **	1,624	18,511	1,673	19,139	1,815	21,020	414	5,416
Totals**	2,571	36,394	2,676	38,174	2,796	40,224	1,455	25,743

* Some schemes are being delivered in phases and this is reflected in the number in the table, when we say 1,455 schemes, this includes schemes being delivered in phases.

** Site Finish, ie. Completed units, from 2016 to end 2020 have been removed from the CSR meaning the “Site Finish” and “Totals” values for Q1 2022 are less than Q4 2021.

Note: The data above for Q2 2021, Q3 2021 and Q4 2021 includes the details of units completed in 2016 to 2020 and are in line with previous published versions. Previous versions of the CSR are available on <https://www.gov.ie/en/collection/cb885-social-housing-construction-projects-status-reports/> and [data.gov.ie](https://www.gov.ie).

Appendix 2 – Breakdown of Funding Programme

Funding Programme	Q2 of 2021		Q3 of 2021		Q4 of 2021		Q1 of 2022	
	Schemes*	Homes	Schemes*	Homes	Schemes*	Homes	Schemes*	Homes
CALF Construction	54	1,539	60	1,558	62	1,611	30	1,002
CALF Construction Turnkey	831	13,117	902	14,440	937	15,205	440	8,977
CAS Construction	195	1,938	199	1,960	207	1,961	142	1,472
Regeneration	52	1,115	55	1,434	57	1,724	21	1,156
SHIP Construction	712	9,549	720	9,468	803	10,682	508	8,160
SHIP Construction Rapid	64	1,957	66	2,060	68	2,132	41	1,503
SHIP Construction Turnkey	641	6,180	652	6,255	634	5,424	252	2,372
PPP	22	999	22	999	28	1,485	21	1,101
Totals	2,571	36,394	2,676	38,174	2,796	40,224	1,455	25,743

* Some schemes are being delivered in phases and this is reflected in the number in the table, when we say 1,455 schemes, this includes schemes being delivered in phases.

** Completed units, from 2016 to end 2020 have been removed from the CSR meaning the values for Q1 2022 are less than Q4 2021.

Note: The data above for Q2 2021, Q3 2021 and Q4 2021 includes the details of units completed in 2016 to 2020 and are in line with previous published versions. Previous versions of the CSR are available on <https://www.gov.ie/en/collection/cb885-social-housing-construction-projects-status-reports/> and data.gov.ie.

Appendix 3- Explanatory notes

The Construction Status report is a full compendium of live LA and AHB social housing new-build activity. The following schemes are represented in the Construction Status Report:

- Social housing Capital Investment Programme (SHCIP)
- Capital Assistance Scheme (CAS)
- Capital Advance Leasing Facility (CALF)
- Public Private Partnership (PPP)

Previous versions of the CSR included schemes which completed in prior reporting periods to provide a more detailed profile of activity. The Q4 2021 CSR contained data on over 40,000 homes across almost 2,800 schemes/phases of schemes. To streamline the publication of the CSR, social homes completed in 2016 to 2020 are no longer included in the CSR. Previous versions of the CSR are available on the Department's website at gov.ie - [Social Housing Construction Projects - Status Reports \(www.gov.ie\)](http://www.gov.ie) and data.gov.ie and include the relevant data on completed social homes.

The Report is published every quarter in open format on the data.gov.ie website, which allows the user to filter and analyse data.

The Social Housing Capital Investment Programme (SHCIP) provides funding to local authorities for the provision of social housing by means of construction and acquisition.

The Capital Assistance Scheme provides essential funding to AHBs for the provision of accommodation for persons with specific categories of housing need such as Homeless and Older Persons, People with Disabilities, Returning Emigrants and Victims of Domestic Violence.

4-Stage Approval Process

The funding approval process for social housing projects supported by the Department under the SHCIP and CAS schemes outlined above is in line with the Government's Capital Works Management Framework (CWMF), the same approach used for other publicly-funded Capital construction projects. While there are nine points of review within the CWMF, the Department has combined these to just four for capital-funded social housing construction projects.

The Departmental approvals represent a small proportion of the time taken in advancing a build project onto site. The approach we follow means that local authorities forward design proposals and costings to the Department sequentially, as the local authorities advance the projects through their own planning work. Check lists, guidance and templates have been issued to the local authorities to assist them in this process.

What are the 4 stages?

The four stages are as follows: -

Stage 1 – Capital Appraisal to verify the business case and basic project suitability – this is a light presentation of information; no design and only indicative costs are required at this initial stage.

Stage 2 –Pre-planning outline design and cost check –following site investigations, this involves the level of designs that are required for the Part 8 planning process and a completed QS cost plan; detailed tender drawings and resulting costs are not needed at this stage until planning permission is obtained. Stage 3 – Pre-tender costs check – the more detailed designs and cost estimates have been prepared by the local authority design team at this stage and a cost check submitted before going to tender, but if costs are consistent with the earlier stages, then this review will be swift. Unless there have been changes to the design following Part 8/planning, or conditions to be met, the design is not reviewed.

Stage 4 – Tender approval from Department – the tenders have been received and assessed by the local authority and again, if costs are consistent with the earlier stages, this review will be swift.

There is now a Target Programme for advancing social housing capital-funded projects through design, planning and approval. This overall programme sets a target of 59 weeks from stage 1 submission by the local authority, to contract award for the construction. It establishes target turnaround times for the Department to carry out the review process and for the local authority to carry out the design of the scheme, the planning process and the procurement of a builder. While the aim of the programme is to create a realistic but ambitious target programme, it is acknowledged that external factors can affect construction projects; for example, delays can arise at planning, where the views of Councillors and communities are taken into account, but these can be minimised by early engagement. Site condition difficulties should not arise if appropriate site investigations are carried out at the beginning of the process.

The single-stage approval process

A revised single-stage approval process for social housing projects less than €6m has been implemented. The main change from the previous single-stage approach is that in the event that the approved budget is not maintained, a second application for a budget revision will be facilitated on receipt of tenders. This will be facilitated where certain circumstances have caused the costs to rise – for example, tender inflation - and where such an adjustment will not increase the overall budget requirement beyond the €6m level.

Capital Advance Leasing Facility (CALF):

The Department offers financial support to Approved Housing Bodies (AHBs) in the form of a long term loan under the Capital Advance Leasing Facility (CALF) to assist with the financing of the construction or acquisition of homes that will be provided for social housing use. This loan facility can support up to 30% of the eligible capital cost of the project, where the homes will be provided under long-term lease arrangements to local authorities for social housing use. Funding is provided to AHBs through local authorities.

CALF approvals do not follow the same approval process as the SHCIP 4-Stage process. The assessment process includes a full financial evaluation which is carried out in conjunction with the Housing Agency. The funding approval may be provided at various stages of project development, including pre-planning for example, in which case the funding approval will be subject to planning. Where a project changes post-approval, a revised application is submitted and a revised approval issues following normal assessment procedures.

Public Private Partnership (PPP):

Social Housing Public Private Partnerships (PPPs) is a delivery structure whereby social housing homes remain in State ownership throughout. Social Housing PPPs are being delivered in partnership with the National Development Finance Agency.

Homes delivered through PPP use an 'availability-based PPP model'. A private sector company designs, builds, finances and maintains the social housing homes. In return, it receives payments which are spread over 25 years.

As the model is 'availability-based', the private sector partner is responsible for ensuring that homes are available for occupation. The local authority is responsible for allocating tenants. The private sector partner provides maintenance and upkeep services for 25 years. After this time, the homes are returned to the State in good condition, subject to reasonable wear and tear.

Bundles are added to the Construction Status Report at tender stage.

Part V data on the CSR:

The Construction Status Report does not contain data on Part V schemes funded under the SHCIP scheme or delivered by LAs without DHPLG funding. It does contain a small number of AHB Part Vs which are advancing as part of larger schemes approved under the Capital Advance Leasing Facility. The full Part V output is published on the statistics page of the Department's website.

Disclaimer:

While every effort is made to ensure that the data in the report is accurate at the time of publication, the report covers 25,743 homes across 1,455 schemes/phases of schemes and is reliant on the provision and processing of scheme updates and delivery data from 31 local authorities. Where errors arise, these will be corrected in the next version published. The most recent published version therefore should always be referred to.
