

## Change in number of confirmed COVID-19 cases reported on CIDR as of 07/05/2020 at 11:15

### Data provided by HPSC

This report displays changes in confirmed COVID-19 cases in the past 24 hours

**Table 1: Number of confirmed COVID-19 events notified in Ireland**

| Number of events on CIDR as of: | 07/05/2020 at 11:15 | 06/05/2020 at 11:15 | Difference |
|---------------------------------|---------------------|---------------------|------------|
| COVID-19                        | 22385               | 22248               | 137        |
| Number hospitalised             | 2913                | 2897                | 16         |
| Number admitted to ICU          | 377                 | 376                 | 1          |
| Number of deaths                | 1161                | 1141*               | 20         |

\* Data amended to reflect validations in the past 24hr

Daily totals reflect actual counts reported up to 11:15 am on 07/05/2020. Each day there may be updates to previously reported figures. This means that previously published daily counts will not necessarily sum to the latest cumulative figure. It also means that today's cumulative count may not match the sum of the previous day's cumulative count and today's daily count. This is due to ongoing data validation and data quality checks

**Table 2: Number of confirmed COVID-19 events notified in Ireland by gender**

| Number of events by gender on CIDR as of: | 07/05/2020 at 11:15 | 06/05/2020 at 11:15 | Difference |
|---|---------------------|---------------------|------------|
| Male                                      | 9505                | 9447                | 58         |
| Female                                    | 12816               | 12732               | 84         |
| Unknown                                   | 64                  | 61                  | 3          |
| Not Specified                             | 0                   | 8                   | -8         |

**Table 3: Number of confirmed COVID-19 events notified in Ireland by HSE area**

| Number of events by HSE area on CIDR as of: | 07/05/2020 at 11:15 | 06/05/2020 at 11:15 | Difference |
|---|---------------------|---------------------|------------|
| ERHA  | 12877               | 12834               | 43         |
| MHB   | 1495                | 1474                | 21         |
| MWHB  | 1270                | 1256                | 14         |
| NEHB  | 2609                | 2575                | 34         |
| NWHB  | 663                 | 662                 | 1          |
| SEHB  | 837                 | 832                 | 5          |
| SHB   | 1503                | 1501                | 2          |
| WHB   | 1131                | 1114                | 17         |

**Table 4: Number of confirmed COVID-19 events notified in Ireland by age group**

| Number of events by age on CIDR as of: | 07/05/2020 at 11:15 | 06/05/2020 at 11:15 | Difference |
|--|---------------------|---------------------|------------|
| <1 yrs                                 | 40                  | 40                  | 0          |
| 1-4 yrs                                | 77                  | 77                  | 0          |
| 5-9 yrs                                | 103                 | 103                 | 0          |
| 10-14 yrs                              | 140                 | 138                 | 2          |
| 15-19 yrs                              | 349                 | 345                 | 4          |
| 20-24 yrs                              | 1202                | 1193                | 9          |
| 25-34 yrs                              | 3651                | 3622                | 29         |
| 35-44 yrs                              | 3869                | 3839                | 30         |
| 45-54 yrs                              | 4083                | 4053                | 30         |
| 55-64 yrs                              | 2923                | 2903                | 20         |
| 65+ yrs                                | 5922                | 5910                | 12         |
| Unknown                                | 26                  | 25                  | 1          |

**Table 5: Number of confirmed COVID-19 events notified in Ireland by patient type<sup>^</sup>**

| Number of events by patient type on CIDR as of: | 07/05/2020 at 11:15 | 06/05/2020 at 11:15 | Difference |
|---|---------------------|---------------------|------------|
| GP Patient                                      | 5702                | 5593                | 109        |
| A&E Patient                                     | 450                 | 447                 | 3          |
| Hospital Outpatient                             | 961                 | 954                 | 7          |
| Hospital Day Patient                            | 35                  | 33                  | 2          |
| Hospital Inpatient                              | 2913                | 2897                | 16         |
| Other   | 9598                | 9533                | 65         |
| Unknown   | 887                 | 878                 | 9          |
| Not Specified                                   | 1839                | 1913                | -74        |

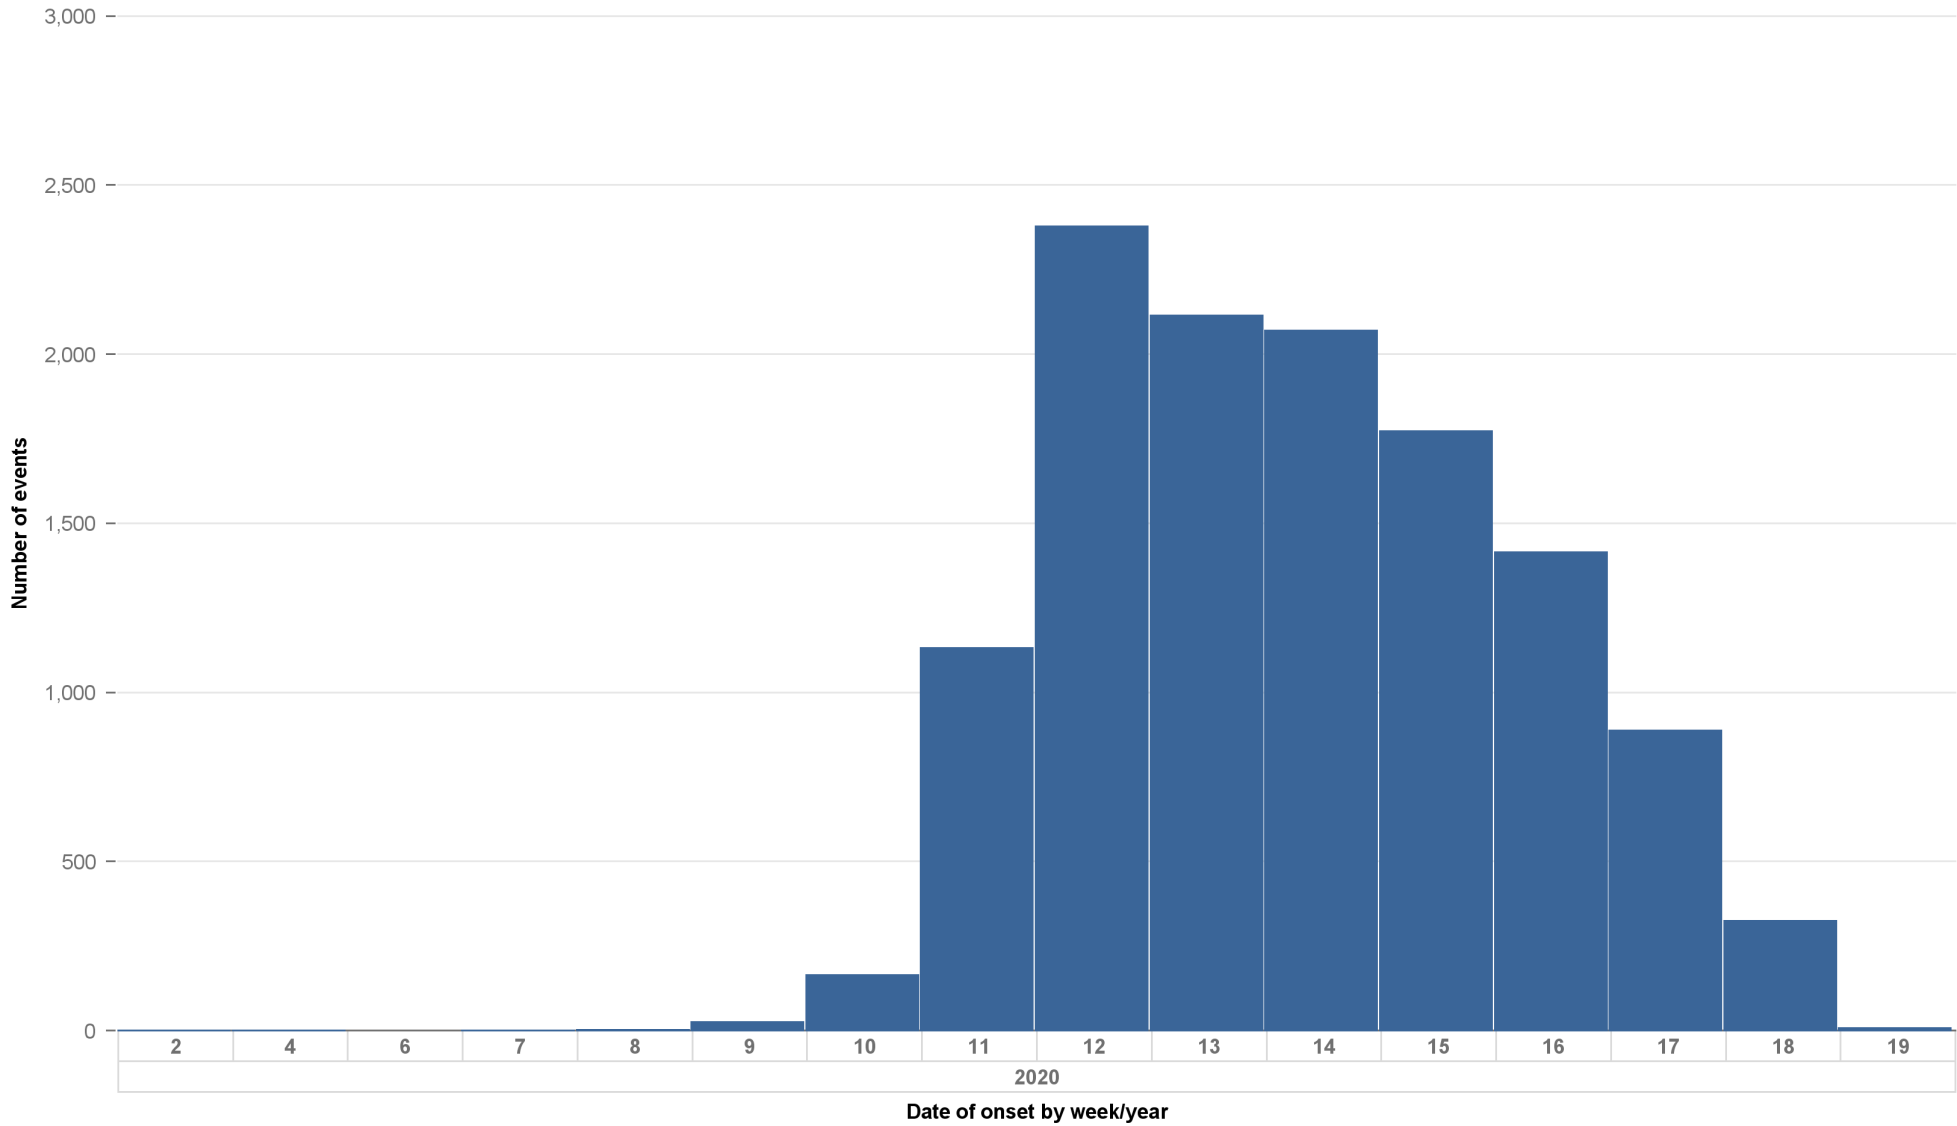

<sup>^</sup>Patient type in this context refers to latest patient type and may not reflect initial patient type

Daily Sit Rep on CONFIRMED cases of COVID-19 reported on CIDR as of 07/05/2020 at 11:12

Confidential - not for wider circulation

Figure 4: Epi curve of confirmed COVID-19 events notified in Ireland by ONSET DATE (n=12,297) as of 07/05/2020 at 11:12

\*One case with date of onset 25th December, 2019, is not displayed
