

On behalf of Oasis Fellowship Roscrea, we ask for freedom of speech to remain in our country, which is essential to a free ,open & tolerant society...To introduce a new censorship law disguised as a law against hate speech would be very unfair & unjust to the people of this country & we would foresee disastrous consequences for our country ...we ask for this censorship law to be withdrawn & people's right to free speech to continue in our country,

Many thanks,
Yours Sincerely,
Alma Mather
