

ACRES Circular No. 14/2022

8th December 2022

Agri-Climate Rural Environment Scheme (ACRES)
Points to note following closing date for applications for ACRES

Dear Advisor

As you know, the deadline for submission of applications for Tranche 1 of the Agri-Climate Rural Environment Scheme (ACRES) was 23.59 on 7th December 2022.

As that deadline has now passed, the Department wishes to draw your attention to the following:

- While the Generic Land Management System (GLAM) remains open, any Farm Sustainability Plans created on GLAM after the above closing date will **not** be accepted.
- In relation to outstanding issues which the Department had committed heretofore to rectify to facilitate submission of applications, as and when those issues are rectified, the relevant advisors will be notified to undertake the required steps to finalise the application concerned. Given the volume of work, it was not possible to rectify all issues in advance of the closing date but it is stressed that this facility **only** applies where the Department had previously specifically advised that the issue concerned would be rectified.
