

APPROPRIATE ASSESSMENT CONCLUSION STATEMENT

Project reference: FS006970 Cork County Council – for the dredging at the pier in Glengarriff, Co. Cork.

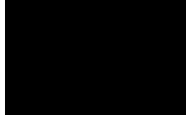

The Appropriate Assessment Screening process determined that likely significant effects could not be ruled out with respect to disturbance to the European site, Glengarriff Harbour and Woodlands SAC [IE000090].

In accordance with Regulation 42(6) of the European Communities (Birds and Natural Habitats) Regulations 2011 SI 477 as amended, the Department of Housing, Local Government and Heritage made a determination following screening that an Appropriate Assessment was required as the project, individually or in combination with other plans or projects, is likely to have a significant effect the integrity of European sites, in view of the said sites' conservation objectives.

Measures to mitigate against the likely significant effect are identified in the Natura Impact Statement (December, 2020). The adherence to these measures is considered appropriate mitigation to avoid significant effects on conservation objectives of any European site.

It is therefore determined that the proposed project, either alone or in-combination with other projects, will not adversely affect the integrity of any European Site.
