AgriSnap

Geotagged Photo Application

Stephen Carberry
Integrated Controls Division
Portlaoise

What is AgriSnap?

AgriSnap is a smartphone application (app) developed by the Department of Agriculture, Food and the Marine (DAFM), the Walton Institute and Teagasc under the NIVA project

AgriSnap enables farmers & advisors to take accurate geotagged photographs using their smartphone and to submit them securely and conveniently to DAFM through the app

Download AgriSnap at

What is an AgriSnap Photo for?

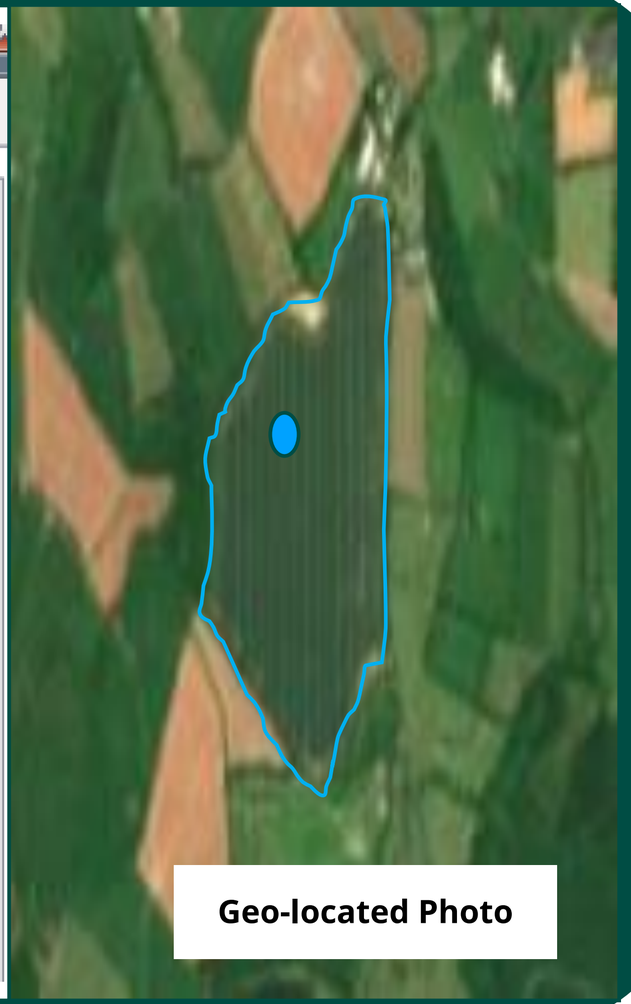
AgriSnap EXIF data



Geo-located Photo

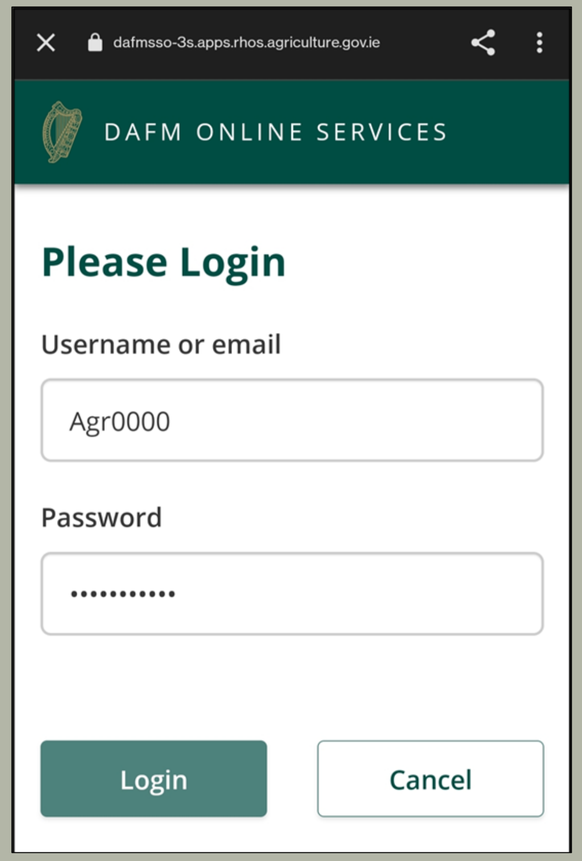
What will AgriSnap be used for?

In 2023 AgriSnap will be the geotag photo app used to support the Area Monitoring System (AMS) and ACRES

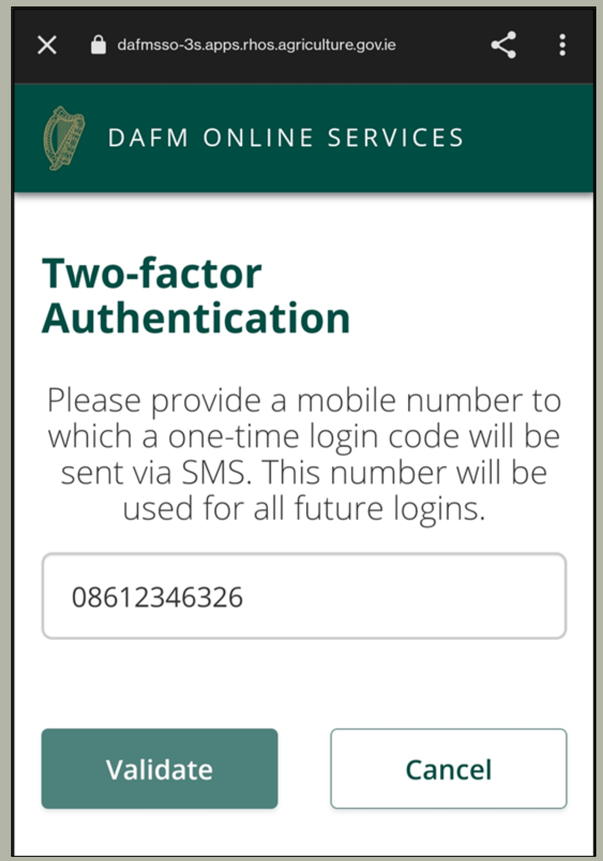
Farmers and their advisors will receive AgriSnap requests in connection to their application from the DAFM through the app. Therefore it is important to download and become familiar with logging into the AgriSnap app

Other schemes will be included and details will be included in the Terms & Conditions of the relevant schemes

Login to AgriSnap

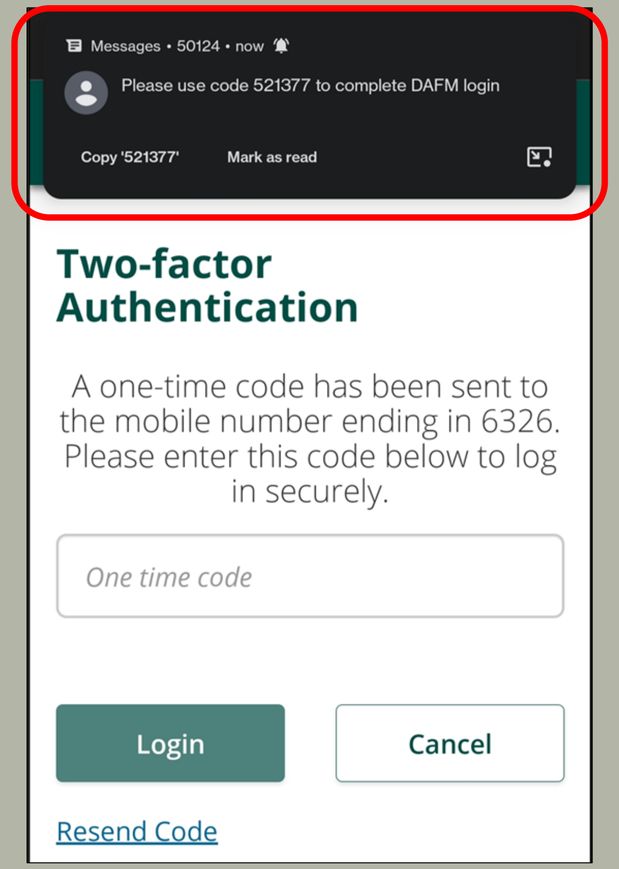


Login with SSO/AgFood Username

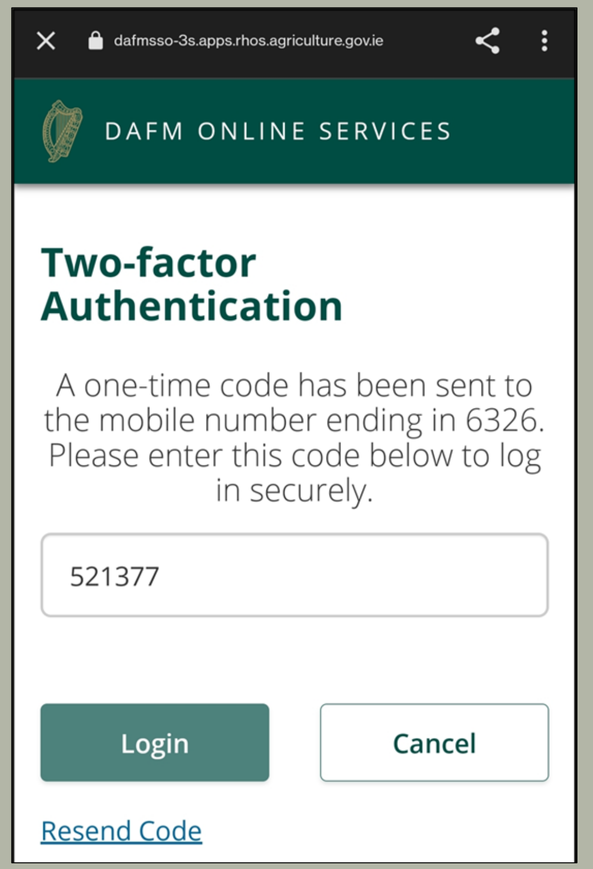


Add mobile number to receive SMS code

Login to AgriSnap



SMS text message received with SMS code



Enter code from SMS And press Login

Important Points

Once you have validated a mobile phone number it is linked to your AgriSnap account. This number will receive the SMS each time you login

Agents and advisors must log into AgriSnap using their agent and advisor login details when conducting any work on behalf of a client

If experiencing an issue with AgriSnap DO NOT uninstall the app, as photos cannot be retrieved if the app is uninstalled. Contact Agrisnap@agriculture.gov.ie

AgriSnap Use Advice

Log into the AgriSnap App before leaving home or the office. AgriSnap will remain active on the phone for over 24 hours once logged in and will work offline if connection is lost

Ensure your phone is adequately charged

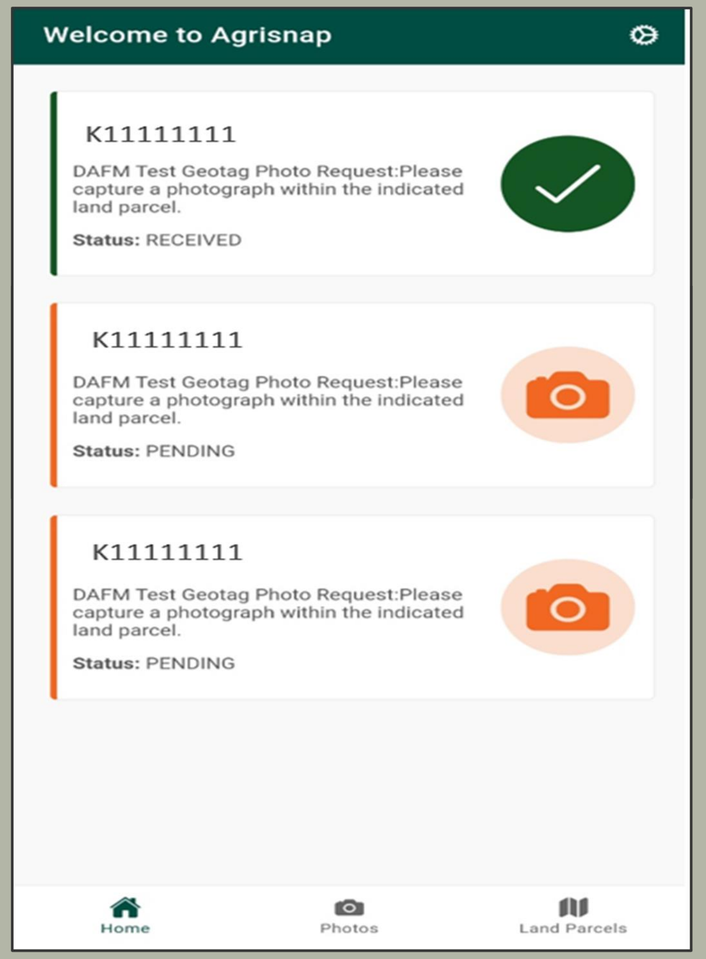
Take photos in open spaces. Heavy cover such as trees will affect the GPS accuracy

AgriSnap Photo Request

How to take an AgriSnap Photo

Log into AgriSnap on your phone and view your request's in the Home page

Select the pending request by touching it



AgriSnap homepage displays your photo requests from DAFM

AgriSnap Photo Request

How to take an AgriSnap Photo
