

Summary of Work

Every Work Report (i.e. for each Prospecting Licence area), must be accompanied by a completed Summary of Work Form. The summary should include all work carried out in the Prospecting Licence area during the period to which the report relates (generally the previous two years).

Please answer for all categories of work. If no work was carried out, enter "None". For these entries, no entry is required for the Cost window. Costs should be entered to the nearest €100.
