

National Counter Disinformation Strategy

Subgroup Membership

The Working Group tasked with developing the National Counter Disinformation Strategy first met in February 2023 and regular meetings have taken place since then. The Working Group established three subgroups tasked with examining key subject areas pertinent to disinformation. The three subgroups cover:

1. The mapping of existing initiatives
2. The examination of the current and emerging regulatory environment
3. The support of free independent high-quality journalism and the protection of public interest information.

Each subgroup was tasked with producing a report on their subject area. These reports will inform the Strategy development. The Subgroup membership list is outlined below:

Representative organisations

ADAPT Centre, TCD
