

10th October 2023

Circular 22/2023

To all Registered Foresters

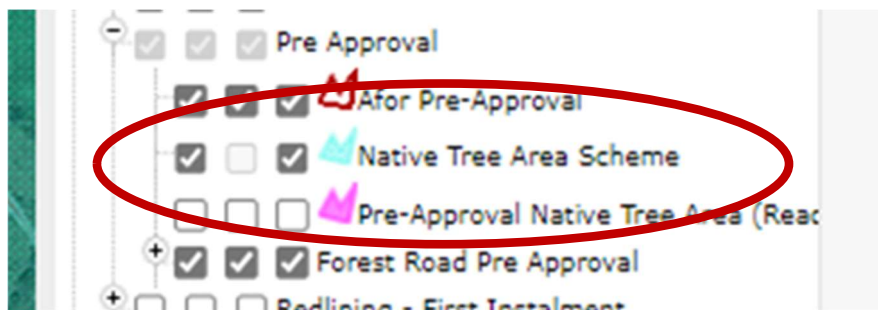

Re: Applications for the NTAS

Further to Circular 20/2023 regarding the opening of the Native Tree Area Scheme (NTAS), applications are now invited from landowners in conjunction with their registered forester.

Please note that digitising of NTAS Applications is permitted only within the extent of the **Native Tree Area Scheme** layer (see screenshots below).

The **Native Tree Area Scheme** layer should be activated during plot digitising for NTAS submissions.

The **Native Tree Area Scheme** layer is available from within the **Pre Approval** group layer from the iNET map viewer layer control.

Example below showing highlighted areas eligible under the NTAS

Joanne Adams
Asst. Principal Officer
Forestry Division
