## **Department of the Taoiseach**

### **Child Safeguarding Statement**

#### **1. Background**

The [Children's First Act 2015](#), requires organisations that are providers of 'relevant services' under the Act, to publish a Child Safeguarding Statement. This Statement details the relevant services provided by staff of the Department of the Taoiseach to children, as well as the principles and procedures in place to safeguard children from harm while availing of these services.

#### **2. Introduction**

The purpose of the Department of the Taoiseach, as set out in its Statement of Strategy 2017-2020), is to implement the Government's Programme, help the Taoiseach and the Government to develop a sustainable economy and a successful society, to pursue Ireland's interests abroad and to build a better future for Ireland and its citizens.

#### **3. Relevant services**

Within the Department itself, interaction with children by staff is limited. A review of all functions and activities across the Department was carried out in the context of the Children First Act. It found that at a corporate level, the only relevant service that the Department provides within the meaning of the Act is the periodic provision of work experience placements to Transition Year students and or third-level students under the age of 18 [*specifically paragraph 5(a) of Schedule 1 in relation to the provision of training opportunities to children*].

The employment of any Temporary Clerical Officers (TCOs), under the age of 18, by the Department would also be a relevant service. While the Department does not currently employ TCOs, the risks to underage TCOs are considered to be identical to those applying to Transition Year students. Therefore, the risks identified and mitigating procedures outlined below will be adapted as appropriate to any TCOs under the age of 18.

There is only one body under the aegis of the Department - the National Economic and Social Development Office (NESDO). The Department has confirmed that it is not a provider of a 'relevant service' under the legislation.

#### **4. Commitment to safeguard children from harm**

The Department is committed to maintaining the highest standards of child safeguarding, in line with all relevant legislation including the Children First Act 2015 and informed by best practice including [Children First National Guidance for the Protection and Welfare of Children](#) as well as [Tusla's Child Safeguarding: A Guide for Policy Procedure and Practice](#).

#### **5. Obligations under the Children First Act 2015 in relation to relevant services**

As the placement of students under the age of 18 in the Department is considered to be a relevant service to children under the Act, the following principles and obligations apply:

- a) To keep the child safe from harm while receiving the service, [i.e. on the placement];
- b) To assess the risks; and

c) To address those risks, as required by the Act, in the Department's Child Safeguarding Statement.

## 6. Relevant Persons

The Department does not have any "mandated persons" as defined in Schedule 2 of the Children First Act 2015.

The Department has appointed a Designated Liaison Person (DLP) who is the Personnel Officer and Deputy Designated Liaison Person (Deputy DLP), Administrative Officer in the HR Unit, as relevant persons for the purposes of the Children First Act and in line with best practice in child safeguarding. The DLP is Ms. Stephanie Harris and the deputy DLP is Ms. Lynda Harte – contact details in Section 8.

They are the resource persons for any child protection concerns within the Department; they are responsible for ensuring that reporting procedures within the organisation are followed; and they will act as a point of contact with outside agencies as required, to ensure that all child welfare protection concerns are addressed, dealt with and referred promptly to Tusla where appropriate. The Department has developed a Children's First Reporting Protocol for staff for the reporting of child welfare and protection concerns.

Recruitment to the Department is managed by the Public Appointment Service. It is the practice that all staff recruited through this process are Garda vetted prior to assignment. Garda vetting is also required for temporary assignments under contract.
