## EXPLANATORY NOTE ON THE INTERNATIONAL STANDARD CLASSIFICATION OF EDUCATION

In order to facilitate international use of this publication, data on student enrolment are provided according to ISCED97 (The International Standard Classification of Education) as well as by traditional national categories. ISCED was designed by the United Nations Educational, Scientific and Cultural Organisation (UNESCO) in the early 1970s to serve as an instrument suitable for assembling, compiling and presenting statistics of education within individual countries and internationally. It has also been accepted by EUROSTAT (Statistical Office of the European Union) and the OECD (Organisation for Economic Co-Operation and Development). ISCED was revised in 1997 and the following represents the new categorisations decided upon under ISCED97.

There are seven levels in ISCED, coded as follows:

### **ISCED 0 (Pre-Primary Education)**

Programmes at level 0 comprise pupils aged 3-6 years in non-aided Private Primary Schools.

### **ISCED 1 (Primary Education)**

Programmes at level 1 comprise pupils enrolled in all standards in National Schools (Inc. Junior and Senior Infants) and in Special Schools.

### **ISCED 2 (Lower Secondary Education)**

Programmes at level 2 comprise students enrolled in the Junior Cycle of second level.

### **ISCED 3 (Upper Secondary Education)**

Programmes at level 3 comprise students enrolled in the Senior Cycle of second level including Transition Year.

### **ISCED 4 (Post-Secondary, Non Tertiary Education)**

Programmes at level 4 comprise students enrolled on Post-Leaving Certificate (P.L.C.), Teagasc and Secretarial courses.

### **ISCED 5 (First Stages of Tertiary Education)**

#### **ISCED 5B**

Programmes at level 5B lead to an award not equivalent to a primary university degree (for example NCEA National Certificate or National Diploma courses).

#### **ISCED 5A**

Programmes at level 5A lead to a Primary University Degree, a Post-Graduate Diploma or Master's Degree.

### **ISCED 6 (Second Stage of Tertiary Education)**

Programmes at level 6 lead to an advanced research qualification i.e. a Doctorate (Ph.D.).

<b>TOTAL .. .. .</b>	<b>2,192</b>	<b>2,229</b>	<b>13,155</b>	<b>17,576</b>

## NOTE:

The sex category of a school is defined according to data on enrolment of boys and girls in a school and not according to the official designation of the school.

Mixed schools are defined as schools which enrol boys and girls with the exception of schools which enrol both boys and girls in classes below third standard but enrol only boys or else only girls above second standard. For example, a school which enrolls 400 boys and one girl is classified as a mixed school provided that the girl is not enrolled in second standard or below.

Single sex schools are schools which enrol boys only or else enrol girls only in all standards including infant grades years.

Single sex schools with mixed junior standards are schools which enrol only boys or else only girls in third standard or higher grade but which enrol both girls and boys in some or all grades up to second standard. For the purposes of this table, junior standards are defined to include all grade years from junior infants up to and including second standard. A school enrolling 300 girls and one boy is classified as a single sex school with mixed junior standards if the boy is enrolled in second standard or below. It should be noted that in the vast majority of single sex schools with mixed junior standards, the enrolment of both boys and girls does not occur after first standard.

## **SECTION 4**

### **DETAILED ANALYSIS OF SUBJECT PROVISION AND TAKE UP IN SECOND LEVEL SCHOOLS**

#### INTRODUCTORY NOTE ON TABLES IN SECTION 4

The sex category of a school for a particular programme (Junior Certificate or Leaving Certificate) is determined by the de-facto enrolment in the school for this programme. So, for example, a school enrolling 250 girls and one boy in the Junior Certificate programme is classified as a mixed school at Junior Certificate. However, if the same school enrolled all girls and no boys in the Leaving Certificate programme, the school would be classified as single-sex for the Leaving Certificate programme.

The tables in this section are based on returns showing the number of subjects being taken by each pupil in the school. Hence a school which offers a subject but whose pupils do not take up that offer is not included under that subject. A mixed school which offers a subject to both sexes, but in which no boy decides to take the subject is therefore classified as a school which provides the subject to girls only.

Caution should be exercised in comparing data in the subject tables with corresponding data in statistical reports prior to 1991/92. This applies in particular to the tables which contain data concerning the number of schools providing the various subjects on the Leaving Certificate programme. The increase in the number of schools providing subjects such as Agricultural Science, Agricultural Economics and Economic History to Leaving Certificate may be partially due to an increase in the number of Second Level Schools involved in co-operation arrangements. A Second Level School which is not in a position to offer a particular subject to pupils in the school may enter into a co-operation arrangement with a neighbouring school where the subject is provided. Under this arrangement, pupils travel from one school to the other in order to study the subject in question while remaining on the rolls of their parent school. Subject data are derived from the Annual Pupil Database Return which is completed by each Second Level School. For technical reasons relating to the manner in which data are stored and processed on the Pupil Database, both schools involved in a co-operation arrangement are classified as schools providing the subject in question. The Pupil Database Return also serves as the official application for entry to the certificate examinations. In order to provide a complete exam entry, a number of schools returned data in respect of pupils who were studying subjects privately outside the regular school system.

10 = 6 + 7 + 8+9	Overall Leaving Certificate candidates	27,716	30,684	58,400

NOTE:

Junior Certificate candidates exclude students taking ab-initio subjects. VTOS candidates are examination candidates sitting the examination as participants in the Vocational Training Opportunities Scheme. These may be either school candidates who have studied in a second level school, or they may be candidates who have studied in special centres outside a second level school.

Leaving Certificate external candidates comprise candidates who have studied outside the second level school system. These exclude VTOS students. In some cases, external candidates have sat only one or two subjects in the Leaving Certificate.

The total of Leaving school candidates in line 6 excludes VTOS candidates. It is not possible to disaggregate the total of VTOS candidates shown in line 9 between school candidates and other types of candidates.

Since 1975, each candidate in the Leaving Certificate or Junior Certificate (Intermediate Certificate prior to 1992) has been awarded a Certificate showing the grades obtained without any overall result corresponding to failure, pass or honours.

In 2002, there were 4,631 public examination centres to which 4,640 superintendents were appointed. There were 5,685 examiners for all Junior Certificate and Leaving Certificate examinations, of which 993 corrected practical and project work at both Leaving Certificate and Junior Certificate and 1,017 were Oral Examiners in the Leaving Certificate Examination.
