

Circular 28 of 2023

23rd November 2023

Agri-Climate Rural Environment Scheme (ACRES)

ACRES Co-operation Project (CP) Non-Productive Investments (NPIs)

Application System Open

To ACRES Advisor

The system for Non-Productive Investments (NPIs) for participants in the Co-operation approach of the Agri-Climate Rural Environment Scheme (ACRES CP) is now open to submit applications.

These actions are available to ACRES CP participants to help address environmental issues on the farm, more information may be found here [gov.ie - Agri-Climate Rural Environment Scheme \(ACRES\) \(www.gov.ie\)](https://www.gov.ie/en/agriculture/rural-environment-scheme-acres/).

Advisors may now complete and submit a NPI Annual Works Plans (AWP). Functionality to facilitate this work has been made available and may be accessed through NPI-AWP on GLAM ACRES, accessed through your Agfood account.

Please note that the NPI-AWP and application may be only amended at draft stage. Once submitted, it will not be possible to amend further. Only one NPI-AWP may be submitted for an ACRES CP participant in this application window. Further application windows will be available throughout the lifetime of the Scheme.

The application system will remain open until 17.30 on 6th December 2023.

Yours sincerely

ACRES Team
