6. Materials & Training budgets. There is a dashboard showing the current information on your Materials & Training budgets within the Claim:

![Dashboard showing Materials & Training budgets]

Please note the amounts available and the annual budget of both, before submitting a funding request to the Department so as to ensure you remain within your annual budget.

It is recommended that where you are claiming for multiple items together that you claim these on one funding request using the ‘add line item’ functionality.

You can add several line items within a Materials/Training funding request. You do not need to create a new request each time. If you have several small amounts to be added you can create the funding request as normal:

And then use the ‘Add line item’ button to give you several line items:

Your funding request can then contain several small items:
The process is the same for Training requests. You can add several line items to one funding request if the amounts are small:

**For QQI awards please ensure the award level and course code are completed within the ILP activity**

7. **Refresh to view changes.** It may take several minutes for some updates/edits that you have entered to be visible in Welfare Partners. Refreshing the system may help with this. To refresh the information you can click on the Welfare Partners logo:

Or click on the ‘Services’ tab and then choose ‘Community Employment’:

8. **Screenshots.** If you are contacting the helpdesk cebomi@welfare.ie it can speed up our response to you if you have included screenshots of what you can see on your screen. To do so, you can hold the ‘Ctrl’ button and the ‘Print Screen’ button (top right of the keyboard) at the same time. Alternatively, you can take a snip of your screen by clicking on the start button (4 coloured squares) and then type ‘snip’ in the searchbar. The snipping tool (scissors symbol) will then appear.
9. **3 Year Applications & Renewals.** The option to begin a renewal (rollover) or 3 year Application will appear in WP for you automatically. They look like this:

- **'New Application'** will begin a 3 year Application which will go forward to the Monitoring Committee. This card should appear when you are in a Claim year 3.

- **'Renew Application'** will begin a rollover to the next Claim year. This card should appear at Cycle 9 of your current Claim. If you feel either of these cards have appeared at the wrong time then please contact your DSP Officer.

10. **Christmas Bonus.** The Christmas Bonus will now be treated as a ‘Bonus’ payment and will not appear with the other AWS in Welfare Partners. You will receive a paper version of the Christmas Bonus which can be filled in manually and returned to your DSP Officer. The payment will be paid into your bank account and you will receive a remittance for the payment but the payment itself will not be viewable in WP. Your DSP Officer will be able to view it on the Departments system. **Further details on the Christmas Bonus will issue closer to the time.**
