Shannon Flood Risk State Agency Co-ordination Working Group

Template to Develop Shannon Flood Risk Work Programme, 2016.

Name of State Agency	
Date of return	
Authorised Person (and their role) making the return	
Contact details of person in relation to this return (telephone and email)	

Question	Statutory and Administrative Roles/Responsibilities	From your Agency's 2016 Work Programme, describe the activities that relate to or impact flooding, flood risk or flood risk management of the Shannon Catchment	Where on the Shannon Catchment will this activity occur	When will this activity occur	External Factor(s) necessary to complete this Activity	Details of the Expected Output from this Activity. This will be the Output KPI for this activity.	Details of the Expected Outcome from this Activity.
Guide to question	**Please state <u>EACH statutory and administrative</u> role and/or responsibility that relates to, impacts on or benefits, flooding, flood risk or flood risk management in the Shannon catchment. Please state also at the end of these roles and responsibilities any future roles and responsibilities expected during 2016, making clear that they are future/expected (and not current) roles and responsibilities**	**For <u>EACH</u> Role/Responsibility - please describe <u>EACH</u> of the activities under the following three areas, that may relate to, impact on or benefit flooding, flood risk or flood risk management <u>and</u> their purpose.**	**Please provide a brief description of the location or extent of <u>EACH</u> activity, and also digital data (in GIS files) to identify precise locations and extents, with associated metadata for each location, extent or layer**	**Please describe when <u>EACH</u> activity will occur, including typical / approximate start and end dates (if not continuous) and / or duration, and the frequency of the activity**	**e.g. licences, permits, you need to allow the delivery of your work item**	**Please state <u>Output</u> KPI for <u>EACH</u> Activity and how this can be measured e.g. km of channel, number of structures, conditions or restrictions on licences/permits, maintaining water levels etc.**	**Please describe the <u>Outcome</u> or effect of <u>EACH</u> activity in terms of the impact on flooding and/or flood risk and also how this can be measured. Please be specific, and provide quantitative information where possible, including no of properties, levels of reduction etc.**

Legal Role/Responsibility, State legislative basis	Administrative Role/Responsibility	Physical works such as channel cleaning/dredging; work to or operation of structures, weirs, bridges, removal of obstructions to flows vegetation etc.	Permits or licences to other bodies/organisations to permit and/or set conditions for their proposed activities	Assets that support <u>your</u> role/responsibility and which might impact flooding, flood risk or flood risk management.
