

Licence site Specific Conditions

1. The Licensee shall use that part of the foreshore the subject matter of this licence for the purposes as outlined in the application and for no other purposes whatsoever.
2. The Licensee shall ensure that the works are carried out and completed in accordance with the plans and particulars lodged with the application.
3. The Licensee shall to appoint a Fisheries Liaison Officer (FLO) who will consult with the SFPA and relevant fishermen's groups in order that appropriate actions can be taken to avoid or minimise interactions with ongoing fishing activity in the area during the course of the site investigations
4. The Licensee shall notify the Department of Housing, Planning and Local Government at least 14 days in advance of the commencement of the works on the foreshore.
5. During the course of the Site Investigation/survey operations the Licensee shall ensure that all necessary precautions are put in place to protect the public in accordance with relevant Health and Safety Legislation;
6. During the course of the Site Investigation/survey operations the Licensee shall ensure that existing public access arrangements to the general foreshore area shall not be impeded by any vessels, plant or materials used in connection with the site investigations/surveys, and where relevant this access should be made safe and guaranteed by the provision of appropriate signage/notices/barriers etc. to the satisfaction of the Department of Housing Planning and Local Government.
7. During the course of the Site Investigation/survey operations the Licensee shall ensure that procedures are adopted to ensure that the site investigations/survey operations are not injurious to fishing, navigation, adjacent lands or the public interest.
8. All vessels/floating plant shall comply fully with appropriate certification /manning requirements.
9. On completion of the Site Investigation works/surveys the Licensee shall ensure that all equipment and materials are removed and the foreshore is reinstated to its original condition, to the satisfaction of the Department of Housing Planning, and Local Government.
10. Marine notice, lighting and markings shall be carried out in consultation with the Maritime Safety Directorate, Department of Tourism, Transport and

Sport, Leeson Lane, Dublin2. The Licensee shall arrange with the Maritime Safety Directorate (MSD) the publication of a Marine Notice. This marine notice shall give a general description of operations, including locations and approximate dates of commencement and completion of works. In addition a notice to this effect shall be published in a National newspaper

11. All relevant Site Investigations and marine surveys shall comply with the NPWS (2014) "Guidance to Manage the Risk to Marine Mammals from Man-made Sound Sources in Irish Waters" including the employment of a Marine Mammal Observer as appropriate.
12. No refuelling of equipment, machinery or plant shall take place on the foreshore.
13. No storage of machinery or plant shall take place on the foreshore.
14. The proposed geophysical surveys shall be carried out in advance of any geotechnical works. The geophysical data for all proposed geotechnical investigation locations (including the taking of vibro-cores and grab samples) shall be assessed by a suitably qualified archaeologist to ensure that the proposed works do not negatively impact on locations where there is known or potential archaeology and to ensure no samples or cores are taken from an area where a wreck site is located.
15. A report summarising the assessment of the geophysical data shall be forwarded to the National Monuments Service of the Department of Culture, Heritage and the Gaeltacht for review prior to the geotechnical works taking place. Where archaeological material/features are shown to be present, preservation *in situ*, avoidance, preservation by record (archaeological excavation) or archaeological monitoring may be required. The Licensee shall be prepared to be advised by the Department of Culture, Heritage, and the Gaeltacht.
16. The proposed geophysical surveys and archaeological dive surveys shall be licenced under the National Monuments Acts 1930-2014. The dive survey shall be accompanied by a hand-held metal detection survey which shall also be licenced under the National Monuments Acts 1930-2014.
17. The results of the geotechnical investigations should be assessed by a suitably qualified archaeologist and this assessment should form part of the overall archaeological assessment of any proposed windfarm development.
18. During the course of the Site Investigation works the Licensee shall engage with the Irish Coast Guard in order to keep them fully informed of on-going activities
