

Submission on Senad Eireann Reform
for Citizens Best Service.

From Tom Horrigan

Address

Dear Sir/Madam

- (a) I would wish to see a reformed Senad Eireann have greater influence on policy making whereby any legislation made by Government would be proof read by Senad before it was passed into law.
- (B) I would wish to see serious questions asked of this Government on the way State Security has been eroded with Garda Stations closure whereby Garda Intelligence gathering in the Community is effected and where people are left in fear in their homes around our Country.
- (c) I would wish to see Ex Members of an Garda Siochanna(Ret) also Ex Army Members play a greater role as part of a Standing Committee on Advice to the Minister for Justice on Tougher Sentencing laws to see same introduced.
- (D) The question of gender balance. Can it be of greater benefit to our State or could it prove maybe some way not best serving?

(e) That all elected politicians clrs, senators and all to's on election to office be obliged to take the oath of allegiance to the Citizens and State, and Incorporated in such oath would be that no elected representatives to office would have any contacts whatsoever with any Subversive Elements in Society OR be part of any Such organisation.

(f) No political party Should join in Governance with Any other political party/s who have not given or is speaking with the truth to state Citizens.

(g) I would like to see something introduced into the Sentencing System that has up to now not been worked into laws on sentencing. I would wish to see a prison Sentence introduced as a deterrent against a Common assault where injury has been caused.

(h) It is my long held belief that we would see longer Sentencing laws been introduced if this was done we would see less Crime in Ireland would be a Safer place. so for deterrent Sentence 3 years, Murder/homicide or both 40 years imprisonment people Trafficking 40 years, Sale and Supply of Drugs 40 years and with regard to Prostitution 40 years, prostitution the procurement of clients 40 years etc. all prison Services would be penal servitude.

(i) Drugs are Rampant in our Country the Minister for Justice should be getting tough with

doing pushed, again if those Criminals See a 10 year prison sentence facing them they would think twice about Crime involvement

(J) The Capping of TD's Salaries should be Ninety thousand gross take, 'Vouched' expenses.

(K) I would wish to see greater input from all elected County clrs with their party TDs and their party leader, and TDs and clrs (NP) should also have to issue Government with Annual Progress Report on How all performed for State Citizens

(L) People elected to Senate Should Represent the business Side of Affairs. Expertise in their chosen field would be a requirement for Senate appointment

(M) Administration over food in Government departments must be looked at, so greater input is accorded accorded the public Sector in Health etc we need Regular Hours for Doctors and Nurses caring for patients in Hospitals and Home Care, etc

Note I favour a more streamline and more accountable Senate which governs legislation is proof road, and where Senate is Neutral of any party on the Decision they take for Citizens best interest. If Govt legislation is not fully in line with these standards Senate will not pass it into law
