March 2010**

ACCEPTED CATTLE MATS

This list details all the companies that are accepted as producing cattle mats for grant-aid. The mats will still be subject to a final inspection before grant-aid is paid.

If a manufacturer is not included on this list, then initial approval for grant aid shall not be given unless the applicant arranges for the Departmental acceptance of the chosen system.

If a cattle mat manufacturing company which is not on this list wishes to be included, it should send detailed specifications of their units to: Specialist Unit, Specialist Farm Services Environment and Evaluation Division, Pavilion A, Grattan Business Centre, Dublin Road, Portlaoise, Co. Laois.

Notes:

- 1) It was intended that only mats that have passed the DLG Sigma test would be accepted after 31/5/2009. However, it has been decided for logistical reason to postpone this date of implementation. No new date has yet been set.
- 2) **Under no circumstances shall mats be fixed to slats with screws or anchor bolts.** All slat mats shall be designed so that they remain secure for their entire working life without requiring to be attached to slats with screws or anchor bolts.
- 3) Under no circumstances shall mats be grant-aided in buildings with internal agitation points.
- 4) All relevant health and safety requirements under the Health, Safety and Welfare at Work Act, 2005 shall be complied with during the installation of the mats.
