	Carlow Applications Granted Funding under the Community Climate Action Programme			€423,696.11
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
	Small Projects			
1	Carlow Town Hurling & Camogie Club	Provision of bicycle parking infrastructure to encourage active travel among players, members, and visitors. The project represents a small-scale, low-risk intervention aligned with sustainable transport objectives. Project will be delivered in conjunction with ongoing biodiversity enhancement and Green Club programme.	€498.15	Travel
2	St Patricks GAA Club (Tullow)	Installation of a rainwater harvesting system to support more sustainable water use and circular economy practices at club facilities. The project is low cost, easily deliverable, and demonstrates practical environmental stewardship. Project will be delivered in conjunction with ongoing biodiversity enhancement and Green Club programme.	€1,875.75	Shopping and Recycling
3	Kildavin Clonegal Community GAA Club	Installation of a bicycle repair station to support cycling and active travel within the community. The project is low cost, easily implemented, and complements broader sustainable mobility initiatives. Project will be delivered in conjunction with ongoing biodiversity enhancement and Green Club programme.	€3,313.75	Travel
4	Eire Og GAA	Installation of bicycle parking infrastructure to encourage active travel to and from club facilities. The project is low cost, easily deliverable, and supports behaviour change in line with sustainable mobility objectives. Project will be delivered in conjunction with ongoing Green Club programme.	€3,843.75	Travel
5	O'Hanrahan's GFC	Installation of bicycle parking infrastructure to promote active travel and sustainable access to club facilities. The project offers modest but clear climate benefits and is readily achievable within the proposed budget.	€6,998.70	Travel
6	Rathvilly Tidy Towns	Establishment of a community growing space including polytunnel, soil preparation, rainwater harvesting, and composting infrastructure. The project supports local food production, circular economy practices, and community engagement, delivering good environmental outcomes at an achievable scale.	€14,147.00	Shopping and Recycling, Food and Waste
7	Ballinkillen Lorum Community Centre Club	Provision of bicycle parking facilities to support active travel and reduce car dependency for users of the community centre. The project is simple, cost-effective, and complements wider sustainable transport and community wellbeing goals.	€9,409.15	Travel
8	Palatine GAA Club.	Palatine GAA Club proposes to upgrade their club facilities to increase the energy efficient by installing cavity wall insulation, to increase the comfort of the building and reduce their emissions by reducing their heating consumption.	€2,951.00	Community & Energy
	Medium Projects			
9	Carlow GAA County Board	Installation of Solar PV in line with an independent energy report to reduce energy costs and emissions at a strategically important county-level sports facility. The project is scalable, well governed, and will be complemented by biodiversity actions supported through parallel funding streams. Project will be delivered in conjunction with ongoing biodiversity enhancement programme.	€24,000.00	Community Energy
10	Carlow Senior Citizens Association	Energy efficiency upgrade of a community facility through replacement of external windows and doors and conversion to LED lighting, as identified in an independent energy assessment. The project delivers immediate emissions reductions, improved comfort for users, and strong value for money. Project will be delivered in conjunction with ongoing food bank programme.	€26,790.72	Community Energy
11	St. Mullins GAA Club	Implementation of energy efficiency measures identified in an independent energy report, including insulation and replacement of doors and windows to improve building fabric. The project delivers clear emissions reduction benefits, is readily achievable, and represents good value for money for a rural community facility.	€31,644.00	Community Energy
12	Delta Centre Clg	Installation of Solar PV in accordance with an independent energy audit to increase renewable energy generation and reduce operational emissions at a disability support facility. The project is technically straightforward, cost-effective, and delivers strong social and climate co-benefits. Project will be delivered in conjunction with ongoing biodiversity enhancement programme.	€40,000.00	Community Energy
13	Bagenalstown Area Community Development Group (BACDG)	Establishment of new growing space including perimeter fencing, polytunnel and storage. Construction of covered bike shelter to encourage active travel	€22,489.77	Travel, Food and Waste, Shopping and recycling
14	St. Fiacc's Swimming Pool and Community Hall CLG	Delivery of energy efficiency and renewable energy measures identified in an independent energy audit, including building fabric upgrades and installation of Solar PV. The project also includes bicycle infrastructure to encourage active travel and will leverage complementary biodiversity supports, delivering strong climate impact and multi-theme benefits. Project will be delivered in conjunction with ongoing biodiversity enhancement programme.	€47,020.71	Community Energy, Travel
15	An Gairdin Beo	Integrated climate action project combining Solar PV installation, building fabric improvements, creation of a community growing space, rainwater harvesting, and bicycle storage. The project demonstrates strong innovation, cross-theme integration, and high community impact across energy, food, circular economy, and active travel objectives.	€47,592.90	Travel, Food and Waste, Shopping and recycling, Community Energy, Local Climate & Enviromental Action
16	Bagenalstown Swimming Club CLG	Installation of a low-carbon heat pump system, as recommended in an independent energy assessment, to replace fossil-fuel heating of the outdoor swimming pool. The project delivers significant energy and emissions savings and supports long-term operational sustainability of a key community asset. Project will be delivered in conjunction with ongoing biodiversity enhancement programme.	€45,190.00	Community Energy
17	Tullow Rugby Football Club.	The committee are seeking to upgrade their windows and doors to reduce their energy consumption for heating. They propose to minimise their waste by installing water stations and introduce waste segregation bins.	€42,628.03	Community & Energy
	Large Projects			
18	Tullow Day Care Centre CLG	Energy upgrade project comprising replacement of external windows and installation of Solar PV, as identified in an independent energy report, alongside purchase of composting equipment. The project combines energy efficiency and circular economy actions, delivering moderate impact at a higher capital cost.	€53,302.73	Community Energy, Shopping and recycling

	Cavan Applications Granted Funding under the Community Climate Action Programme		€489,000.00	
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Tullacmongan Resource Centre	Tullacmongan Resource Centre plan to: 1. Install a Bike Shelter	€1,000.00	Travel
2	Cavan Lawn Tennis Club	Project includes: 1. Installing a split system air-to-air heat pump 2. Water Conservation – installing 4 x 210L water butts for rainwater harvesting 3. Waste Reduction: Introducing a tennis ball recycling bank,no cost, to donate used balls to dog shelters	€9,000.00	Community Energy, Shopping and Recycling
3	Killeshandra Leaguers GFC	Killeshandra Leaguers GFC plan to: 1. Upgrade training pitch lighting with LED 2. Install a Bike rack 3. Water Station 4. Storage for Swap Shop 5. Biodiversity measures- Bee hotel, Bat & Bird boxes	€8,000.00	Community Energy, Travel, Local Climate and Environmental Action, Shopping and Recycling
4	Maghera Development Association	This proposed project will be a partnership approach between Maghera Development Association and Maghera Mac Finns GFC. Project includes: 1. Upgrade Pitch Lights to LED 2. Installation of motion sensors in clubhouse 3. Biodiversity measures to include planting, wildflower seeds and mulch in village and at club grounds 4. Installation of 6 bike racks adjacent to the existing bus shelters in Maghera Village	€19,000.00	Community Energy, Travel, Local Climater and Environmental Action
5	Blacklion Golf Club	Project includes: 1. Installation of a battery storage system to store energy from already installed solar panel system	€4,000.00	Community Energy
Medium projects				
6	Killinkere GFC	Killinkere CLG plan to: 1. Install Solar PV System with battery storage 2. Install water refill station	€24,000.00	Community Energy, Shopping and Recycling
7	Dowra Resource Centre	Dowra Resource Centre CLG plan to: 1. Install a Solar PV & Battery Energy Storage System 2. Community Garden, wildflowers & pollinators	€24,000.00	Community Energy, Local Climate and Environmental Action
8	Cavan Gaels GFC	Cavan Gaels GAA plan to deliver the following project at Terry Coyle Park: 1. Cavity Wall Insulation 2. LED Lighting Upgrades to clubhouse 3. Install Pollinator/Bug Hotel 4. Water Refill Station 5. Bike Rack	€30,000.00	Community Energy, Travel, Local Climate and Environmental Action, Shopping and Recycling

9	Ballinagh GFC and Sport Complex	Ballinagh Gaelic Football Club/ Leisure & Sports Complex (Ballinagh) Trust Ltd plan to: 1. Install Solar PV System with battery storage 2. Install Water Refill Station 3. Replace LED lighting on astra turf and lights in original dressing rooms	€30,000.00	Community Energy, Shopping and Recycling
10	Butlersbridge GAA	Butlersbridge GAA plan to: 1. Install of Solar PV System with battery storage 2. Upgrade LED Floodlights on pitch 3. Install Bike Rack 4. Install Lockers for Swap Shop	€30,000.00	Community Energy, Travel, Shopping and Recycing
11	Cavan County Local Development (O'Raghallaigh Park)	Cavan County Local Development plan to deliver the following elements at O'Raghallaigh Park Community Building & Community Childcare Facility: 1. Solar PV S system with battery storage 2. LED lighting Upgrades to all lights inside and out 3. Hot Water System- 300l of constant on demand hot water to work with solar pv and batteries 4. Wildflower Meadow & Pollinator Planting	€30,000.00	Community Energy
Large projects				
12	Shercock Tidy Towns.	1. Install solar panels at Craig Lynch Centre 2. Install solar panels at St Patrick's Hall	€50,000.00	Community & Energy, Local Climate & Environmental Action
13	Virginia Show Centre	Virginia Show Centre Ltd plan to: 1. Install Solar PV System	€60,000.00	Community Energy
14	Templeport St Aidans GAA Club	Templeport St Aidans GAA Club plan to: 1. Install Solar PV System with battery storage 2. Building fabric upgrade and heat pump. • Pump existing cavity walls • Replacement Windows & Doors • Install demand-controlled ventilation • Install airtightness membrane to underside of rafters/joists • Insulation in attic • Replace existing light fixtures with LED lighting • Install new air-to water heat pump, heating controls and radiators to first floor 3. Bike Rack, Fruit Forest & Pollinator Planting.	€70,000.00	Community Energy, Travel, Local Climate and Environmental Action, Food and Waste
15	Bailieborough Development Association	Bailieborough Development Association plan to: 1. Solar PV System - 52kW system total across all units 2. Wall Cavity Insulation 3. External Doors Replaced x 4 "A" rated double glazed pvc doors 4. Upgrade LED Lights & replace electric heaters	€100,000.00	Community Energy

	Clare County Council Applications Granted Funding under of the Community Climate Action Programme			€649,000.00
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
	Small Projects			
1	Newmarket-on-Fergus Community Centre	Newmarket-on-Fergus Community Centre seeks to encourage all users of the hall to bring a refillable bottle when particpating in the various activities delivered in the Hall. The project will install an Indoor Water Refill Station, reducing single use plastic waste.	€1,000.00	Shopping and Recycling
2	Bodyke GAA & Bodyke Community Together Group.	This project seeks to install a ground mounted solar PV system to reduce the Club's emissions and energy costs. It will also install secure bike stands to encourage sustainable transport, and plant native trees to enhance biodiversity.	€17,000.00	Community & Energy, Travel, Local Climate & Environmental Action
3	Cill Mhuire Community Centre CLG.	This community group will retrofit external doors to improve the energy efficieny of their Centre. Working in partnership with the local Tidy Towns, they will install a bike repair station to support active travel, and a rotating composter next to their polytunnel at the rear of the Centre.	€14,500.00	Community & Energy, Travel, Food & Waste
4	Shannon Community Partnership	This project will provide a secure, easy to use composting unit for leaves, grass cuttings and other green waste generated by households and community groups in the Shannon area, promoting environmental awareness, encouraging sustainable habits within the wider community.	€5,000.00	Food and Waste
5	Querrin Schoolhouse	The Querrin Schoolhouse Community Centre will install both a Bike Shelter and a Bike Repair Station which will be easily accessible to the public. Many cyclists pass through Querrin Village so these installations will enhance the area, whilst also encouraging more locals to travel by bike when using the Community facility.	€8,500.00	Travel
6	Banner GAA	Banner GAA will encourage players and families to cycle to training and matches through the introduction of a Bike Shelter - this requires a dig-out and site-preparation. This installation will help to reduce the Club's carbon footprint and promote active lifestyles among it's members.	€11,000.00	Travel
7	Carrowcore Group Water Scheme	This project will install a solar pv system to support the operation of the Carrowcore Group Water Scheme. The installation at their facility, will generate renewable electricity to offset a portion of the scheme's ongoing energy demand. This will reduce operational electricity costs, enhance the long-term sustainability and resilience of the water supply, and contribute to local climate action by reducing reliance on grid electricity and associated carbon emissions.	€8,000.00	Community Energy
8	Toonagh Community Centre	Toonagh CC will install a Solar PV system to reduce their carbon footprint, generating green energy, reducing their reliance on fossil fuels.	€12,000.00	Community Energy
9	Crusheen Community Centre	Crusheen CC will reduce their reliance on non-renewable energy, by installing Solar PV, which will provide a more energy-efficient and environmentally responsible facility.	€12,000.00	Community Energy
10	Ballyea Development Association	The Ballyea Development Association will install a Solar PV system on the Community Hall in Ballyea, seeking to reduce it's carbon footprint by producing renewable energy.	€12,000.00	Community Energy
11	Cloonanaha Church Restoration	This project focuses on improving the amenities available on site, offering practical support to those who use the area regularly. It will introduce three key enhancements by installing: Bike Rack - a robust, secure bike rack will be installed to accommodate visitors and locals who travel by bike; Water Refill Station - will support public health and environnmental goals by encouraging hydration, reduces single use plastic waste and positions the church grounds as a considerate resting point along local walking and cycling routes; and a Rainwater Harvesting system - will be installed to collect and store rainwater, providing an eco-friendly water source for plants and green areas. Together, this will create a more inclusive, environmentally conscious, and user friendly outdoor space.	€4,500.00	Travel, Shopping and Recycling
12	Ennis Tidy Towns	Ennis Tidy Towns will install a Rainwater Harvesting system in the town centre, which will provide water for public use and support the garden section of Ennis Municipal District. They will also install a public e-bike charging unit, a novel bike parking station that includes pollinator friendly planting, and plant native saplings to create mini pocket forests throughout the town.	€9,500.00	Travel, Shopping and Recycling, Local Climate and Enviromental Action
13	Kilfenora Hall & Tidy Towns	This project will reduce the amount of single use plastic waste locally through the introduction of a Water Refill Station in the village. It will also promote energy efficieny and reduce energy consumption through the retrofitting of lights to LED lights in the Community Hall.	€7,000.00	Community Energy, Shopping and Recycling

14	Lissycasey Community Hall	Lissycasey Community Hall will carry out insulation works to improve the energy efficiency, comfort and overall thermal performance of the building by installing new insulation in the ceiling cavity above the kitchen/meeting rooms/toilets. Multiple groups utilise the hall on a weekly basis, and it is located adjacent to the local GAA pitch, walking track, gym and local shop. The Committee want to encourage active travel when attending any of these amenities, and will carry out site preparation and installation of a Bike Shelter.	€10,000.00	Community Energy, Travel
15	Irish Aerial Creation Centre	This project seeks to reduce energy consumption through insulation works to the roof of the building. With over 300 children and a large number of adults attending aerial dance classes per week, the installation of an indoor Water Refill Station will help to reduce single use plastic waste and promote reusable waterbottles.	€13,000.00	Community Energy, Shopping & Recycling
16	Clarecastle GAA	This project will look to reduce single use plastic waste through the installation of a Water Refill Station; promote energy efficiency through the retrofit of lighting to LED lights; and encourage sustainable transport through the introduction of a Cargo E-Bike Library, whereby Club members and local community organisations will have access and be encouraged to use the resource.	€14,000.00	Shopping & Recycling, Travel, Community Energy
17	Liscannor Community Development Company	This project focuses on energy efficiency, biodiversity enhancement, active travel and long term sustainability. LED lights will replace existing lights in the Licannor Community Centre. A Bike Rack will be installed to encourage more Centre users to travel by bike to activities and events. A Water Refill Station will be installed to reduce single use plastic waste. Planting of existing flowerbeds throughout the village with pollinator plants and a bug hotel, along with planting native coastal saplings at St. Bridget's Well.	€15,500.00	Shopping & Recycling, Travel, Community Energy, Local Climate & Environmental Action
18	Corofin Future Planning Association	This project has 4 key elements which will be implemented through local community partners: A Rainwater Harvesting System will be installed at the Community Centre to reduce reliance on mains water, lower utility costs and promote sustainable water use for non-potable purposes such as toilet flushing, watering plants and cleaning; a biodiversity project to plant an unused bank adjacent to the GAA walkway and Playground; bat boxes and various nests will be installed, along with the planting of mixed native organic saplings; and an orchard of heritage apple trees will be planted.	€17,000.00	Local Climate & Environmental Action, Shopping & Recycling, Community Energy
19	Ruan GAA	Ruan GAA will install a Solar PV system on their Clubhouse, generating renewable energy, lowering the Club's carbon footprint. The project will also install a Bike Shelter to encourage more players and parents to cycle to the facilty, promoting active lifestyles, seeking to reduce a reliance on cars.	€18,500.00	Community Energy, Travel
20	14th Clare Scout Group	The 14th Clare Scout Group will install a Solar PV system to reduce their carbon footprint, reducing their energy bills, with a longterm focus on reducing memebrship fees.The Scout Hall is the restored former Train Station and is a high traffic area for all those commuting by train in Sixmilebridge. A Bike Shelter will be installed to encourage more cycling, and in partnership with the Tidy Towns, a Water Refill Station will also be installed, reducing single use plastic waste.	€19,000.00	Community Energy, Travel, Shopping and Recycling
21	Cloughleigh Residents & Development Group	This project in Cloughleigh Community Centre will retrofit existing internal and external lighting with LED lighting. It will also install a Solar PV system. Both actions will help to reduce their carbon footprint, reducing their energy costs, resulting in increased funds for additional community activities.	€17,500.00	Community Energy
	Medium Projects			
22	Cnoc na Gaoithe Comhaltas Cultural Centre	Cnoc na Gaoithe Comhaltas Cultural Centre have carried out a range of measures in recent years to make their facility more energy efficient, and the introduction of a solar pv system will further help them to achieve their ambition.	€20,000.00	Community Energy
23	Quin Village Tidy Towns Group	This group will install a solar pv system and roof insulation on Quin Community Hall, reducing energy use and improving the efficieny of the building. A rainwater harversting system will support community projects and help to lower mains water use. The introduction of additional accessible raised beds will provide further opportunity for those with mobility issues to grow food locally; and the installion of a water refill station will reduce single use plastic waste.	€21,000.00	Community Energy, Food & Waste, Local Climate & Environmental Action

24	Scariff GAA Club.	Scariff GAA will install a Solar PV system on their Clubhouse, seeking to reduce their carbon footprint by producing renewable energy. The Committee will also install a Bike Shelter as they want to encourage active travel amongst their members.	€21,000.00	Community & Energy, Travel, Shopping & Recycling, Local Climate & Environmental Action
25	Ennis Golf Club.	Ennis Golf Club are seeking to upgrade the thermal fabric of their budiling and reduce the level of fossil fuel usage through attic and wall insulation works. To reduce the use of single use plastic, they will also install water refill station.	€24,500.00	Community & Energy
26	Cratloe Community Council	Cratloe Community Council will retrofit their windows and carry out air tightness work to the stage area to increase the energy efficiency of the Community Hall. A water refill station will be installed to encourage the use of reusable bottles and reduce single use plastic waste.	€22,500.00	Community Energy
27	Killanena GAA	To enhance their facilities, and reduce their carbon foot print, Killanena GAA will retrofit the walkway lights to LED lights and install a solar pv system. The introduction of a water refill station will help to reduce single use plastic waste.	€24,000.00	Community Energy
28	St. Joseph's Doora Barefield GAA	This project comprises of three core elements designed to reduce energy consumption, lower carbon emissions and minimise waste. St. Joseph's Doora Barefield GAA will install a solar pv system, retrofit sports hall lights to LED fittings, and install a water refill station to encourage the use of reusable bottles.	€25,000.00	Community Energy
29	Éire Óg GAA	Éire Óg GAA Club will retrofit windows and doors to improve the energy efficieny of the clubhouse; replace astro lights with more efficient LED lights; install a Bike Shelter to encourage members to cycle and reduce car usage; put in place a Hurl Recycling Box in conjunction with Ennis Tidy Towns, so that old unwanted hurls can be given out to those in need and to new members of the Club.	€25,000.00	Community Energy, Travel
30	Tulla GAA	Tulla GAA aims to enhance the sustainability, climate resilience, and community value of their facility through: insulating their Clubhouse, which will improve energy efficiency, reduce winter heating costs, and allow greater year-round use of the facility, particularly the gym; installing a bike rack to encourage active travel to the facility, reducing car usage; and native planting to help enhance biodiversity in the area.	€25,000.00	Community Energy, Travel, Local Climate & Environmental Action
31	Kilballyowen Development CLG	Kilballyowen Development CLG, based within Clare's Decarbonising Zone will install a solar pv system on both the Cross Digital Hub and the Loop Head Cottage, reducing their carbon emissions. To increase recycling behaviours and reduce contaminants, waste segregation bins will be provided at 3 facilities, with a tumbling composter introduced at Loop Head Cottage. Working with Cross Tidy Towns, pollinator and native planting will take palce in Cross village.	€25,500.00	Community Energy, Food & Waste, Local Climate & Environmental Action,
32	Clarecare CLG	Clarecare will install wheelchair accessible raised beds to engage older adults and in particular, those with mobility issues in the community, to encourage sustainable food practices and nature-based solutions. A Bike Rack will be introduced to encourage more staff and service users to cycle to and from the facility; and a solar pv system will be installed to produce clean, renewable energy onsite.	€27,500.00	Community Energy, Travel, Local Climate & Environmental Action
33	Clonlara Leisure Athletic & Sports Society CLG	This Clonlara group will deliver across all themes: installing solar pv on their facility to reduce carbon emissons; introducing a water refill station to reduce single use platsic waste; encouraging a change in behaviour in relation to travelling to and from the facility by introducing a bike shelter; providing a book sharing shelf to promote circular economy; installing a composter to reduce brown waste and planting a small number of native trees.	€30,500.00	Community Energy, Travel, Food & Waste, Local Climate & Environmental Action

34	Common Knowledge Centre for Sustainable Living CLG	This project will reduce emissions, strengthen climate resilience and build community capacity, through: the retrofit of windows and attic insulation works, which will reduce heat loss and associated emissions, and enable year-round use of two high-use community spaces; food and waste reduction will be supported through a new composting system for the organic learning gardens; a circular economy element will be delivered through a shared Tool Library, giving community members access to professional-grade cutting and joinery equipment; local climate and environmental action will be strengthened through the planting of 1,000 native trees across the site; geotextile paths using waste sheep's wool and gravel will improve access while protecting habitats and demonstrating reuse of natural materials. Sustainable transport will be supported through the introduction of an e-bike, reducing reliance on car and motor use across the site.	€39,000.00	Community Energy, Travel, Food & Waste, Local Climate & Environmental Action
35	Ballina Killaloe Sports & Community Facilities Development Company CLG	This project will install a solar pv system and retrofit the pitch lighting to LED lights, reducing the organisation's overall emissions by 70%. The installation of: a bike repair station will help to promote cycling to the facility; a water harvesting system will remove the need to use mains water to wash machinery. The removal of invasive species and the planting of native trees will enhance biodiversity in the area.	€44,000.00	Community Energy, Travel, Local Climate & Environmental Action
36	St. Kieran's Community Centre CLG	St. Kieran's Community Centre CLG have renovated the Long Aisle section of their building. To make it more energy efficient, they will remove the current radiators which are powered by a kerosene condenser boiler and replace these with electric heaters. A solar pv system will be installed producing green energy to power the radiators.	€28,000.00	Community Energy

Cork County Council: Applications Recommended for Funding under the Community Climate Action Programme				€1,394,574.92
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
	Small Projects			
1	Glanworth GAA / Harbour Rovers GAA Club	Installation of a water refilling station.	€5,535.00	Shopping and Recycling
2	Cobh GAA Club	Installation of a water refill station.	€5,639.55	Shopping and Recycling
3	Clyda Rovers GAA - Cork	Installation of an outdoor hydration station.	€5,781.00	Shopping and Recycling
4	Ilen Rovers GAA Club	Installation of two water refilling stations.	€7,103.25	Shopping and Recycling
5	Myross Rowing Club	Insulation upgrades and infrared heating panels.	€11,798.44	Community Energy
6	Carrigaline Union of Parishes	Solar installation at St Mary's church hall.	€13,133.00	Community Energy
7	Garnish GAA	Installation of Solar PV system.	€13,350.00	Community Energy
8	Timoleague Community Association Company Limited by Guarantee	Installation of Solar PV and battery storage system.	€13,611.50	Community Energy
9	Fermoy AFC (Soccer Club)	Solar PV and battery storage installation.	€17,116.00	Community Energy
10	Tullylease Community Development (CLG)	Installation of Solar PV system and battery storage, and internal LED lighting upgrades.	€19,952.00	Community Energy
11	Ballymartle GAA	Installation of new bike racks, and the provision of a public water refill station.	€5,358.77	Travel, Shopping & Recycling
12	Midleton GAA Club	Wall insulation, Bicycle parking and a water refilling station.	€7,264.96	Community Energy, Travel, Shopping & Recycling
13	St. Oliver Plunketts GAA Club	Upgrade of lighting to LED, and the installation of bike racks and a water refilling station.	€11,493.10	Community Energy, Travel, Shopping & Recycling
14	Charleville Golf Club	Solar PV and battery storage installation, and a water refilling station.	€19,417.97	Community Energy, Shopping & Recycling
15	Kiskeam GAA	Installation of Solar PV and battery storage and pollinator measures.	€19,500.00	Community Energy, Local Climate & Environmental Action
16	Conna Community Council.	Instalation of bike shelter	€4,649.00	Travel
17	Walterstown Group Water Scheme	Installation of Solar PV and Battery storage for Group Water Scheme.	€19,996.43	Community Energy
	Medium Projects			
17	Killeagh Community Centre	Upgrading doors at Killeagh Community Centre.	€21,000.00	Community Energy
18	Aghada GAA	Installation of a Solar PV and battery storage system.	€21,693.51	Community Energy
19	Kanturk GAA.	Installation of new high-performance insulated roof	€35,491.45	Community Energy
20	Dromtarriffe GAA.	Electrical upgrade of lights in club house and car park, occupancy sensors in all rooms	€25,974.47	Community Energy
21	Killavullen GAA Club	Installation of a solar PV system and supporting infrastructure to upgrade the heating system.	€21,897.55	Community Energy
22	Macroom FC	Installation of Solar PV and battery storage system.	€29,479.92	Community Energy
23	Millstreet Community Council CLG	Installation of Solar PV system.	€35,910.39	Community Energy
24	Ballymacoda Hall Committee	Installation of Solar PV, battery storage and EV charger.	€27,729.00	Community Energy, Travel
25	Gabriel Rangers GAA Club	Installation of solar PV, native tree and pollinator planting and a water refill station.	€29,424.40	Community Energy, Local Climate & Environmental Action, Shopping & Recycling
26	St. Colum's GAA Club	Installation of a Solar PV System and the development of a a Biodiversity Zone.	€31,150.00	Community Energy, Local Climate & Environmental Action
27	Argideen Rangers GAA Club	Solar PV installation alongside the replacement of existing lighting with energy-efficient LED bulbs. An on-site EV charging point and the installation of a water filling station.	€36,553.00	Community Energy, Travel, Local Climate & Environmental Action

28	Crosshaven Community Association Ltd	Installation of a solar panel system with battery storage and electric vehicle charger on the community hall in Crosshaven.	€41,703.69	Community Energy , Travel
29	Dungourney GAA Club	Installation of PV Solar Panels and battery storage, Bike Racks, and Rainwater Harvesting at GAA premises.	€46,886.50	Community Energy, Travel, Local Climate & Environmental Action
30	Whitechurch and Waterloo Community Association (WWCA)	Installation of solar panels with battery storage, LED walkway lighting upgrade, a reusable party kit, water refilling stations and the creation of wildflower meadows with native hedgerows, “bug hotel” and both bat and barn owl boxes.	€47,069.75	Community Energy, Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
31	Lismire GAA Club	Installation of Solar PV Panels and battery storage, insulation works and the development of a biodiversity haven.	€49,032.00	Community Energy, Local Climate & Environmental Action
32	Milford GAA Club	Installation of Solar panels, battery storage and EV charging at GAA premises.	€37,209.49	Community Energy
	Large Projects			
31	Ballinhassig GAA Club	Installation of Solar PV and battery storage on two GAA premises, and the installation of an air to water heat pump.	€53,728.95	Community Energy
	Freemount Community Development Association.	Heating and insulation upgrades, development of rainwater harvesting system, LED pitch floodlight upgrade	€87,460.00	Community Energy, Local Climate & Environmental Action
32	Kilcorney Community Development Association CLG	Installation of solar PV panels and upgraded high-efficiency PVC windows and doors.	€61,006.25	Community Energy
33	Macroom Castle Demesne	Removal of invasive species and restoration planting at Castle Demesne.	€79,335.00	Community Energy
34	Ballineen and Enniskeane Development Association (BEDA)	Cavity-wall and internal insulation, external door upgrade, and the installation of an EV charger.	€51,460.91	Community Energy, Travel
35	Macroom Community Leisure Centre	Installation of solar PV system with battery storage, retrofit (airtightness, cavity wall insulation) and the installation of a wall-mounted bottle filling station.	€70,478.08	Community Energy, Shopping & Recycling
36	Fermoy Community Resource Centre	Installation of Solar PV and battery storage, and rainwater harvesting.	€79,168.06	Community Energy, Local Climate & Environmental Action
37	St. James GAA	Installation of Solar PV system with battery storage, upgraded walkway lighting to LED, EV chargers and heating upgrades at GAA premises.	€88,576.09	Community Energy, Travel
38	Castlehaven GAA Club	Installation of Solar PV system, Insulation, and new windows and doors for GAA premises.	€84,456.49	Community Energy

Cork City Council Applications Granted Funding under the Community Climate Action Programme				€967,058.00
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Mahon Tidy Towns	Urban Greening project	€2,539.00	Local Climate and Environmental Action
2	Irish Bee Conservation Project	Installation of evidenced based Bee posts for solitary bees	€12,222.00	Local Climate and Environmental Action
3	Friends of Beaumont Quarry	Reduce and control invasive species, and enrich biodiversity site.	€12,847.00	Local Climate and Environmental Action
4	Shandon Area Renewal	Small community garden upgrade with micro pond installation	€911.00	Food & Waste, Local Climate & Environmental Action
5	Saint Lukes	Urban Greening/Growning project	€3,000.00	Food & Waste, Local Climate & Environmental Action
6	Togher Tidy Towns	Meadows Examplar Installation with other local environmental upgrades.	€4,563.00	Food & Waste, Local Climate & Environmental Action
7	Ballyphehane Community Centre	Ridan Composting System	€7,745.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
8	Churchfield Allotment Gardens	Ridan Composting System	€10,689.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
9	Mercy Foundation	Urban Greening/Growning project	€17,000.00	Food & Waste, Local Climate & Environmental Action
10	24th Scouts	Small LED Upgrade	€4,232.00	Community Energy, Local Climate & Environmental Action
11	Douglas Lawn Tennis Club	Solar Renewables	€8,880.00	Community Energy, Local Climate & Environmental Action
12	Samaritans	Small Fabric Upgrade	€9,724.00	Community Energy, Local Climate & Environmental Action
13	Graffiti Theatre Company CLG	Small LED Upgrade	€9,974.00	Community Energy, Local Climate & Environmental Action
	Medium Projects			
14	Neptune	Installation of Solar at the right time in energy journey	€24,160.00	Community Energy, Local Climate & Environmental Action
15	Brothers of Charity	Installation of Pool Cover	€24,258.00	Community Energy, Local Climate & Environmental Action
16	Niche Health Project Cork CLG	Community Garden Upgrade with biodigester, composter, and renewables.	€29,888.00	Community Energy,Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
17	Glen Community Garden (The)	Creation of Food Scarcity Amelioration Hub	€33,873.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
18	Brian Dillons GAA	Installation of Heat Pump	€35,634.00	Community Energy, Local Climate & Environmental Action
19	Arts at Civic Trust House CLG	Heritage Compliant Insulation Upgrade	€37,200.00	Community Energy, Local Climate & Environmental Action
20	Ballincollig GAA	Fabric First Upgrade	€49,299.00	Community Energy, Local Climate & Environmental Action

21	South Parish Community Centre	Heritage Compliant Insulation Upgrade	€49,459.00	Community Energy, Local Climate & Environmental Action
	Large Projects			
22	Wandesford Quay CLG	Arts Specific LED Upgrade	€51,340.00	Community Energy, Local Climate & Environmental Action
23	Ballyvolane Community Garden	Establishment of Community Garden	€53,000.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
24	Barrack Street Band	Fabric-First Upgrade	€70,000.00	Community Energy, Local Climate & Environmental Action
25	Glenamoy Lawn Community Garden	Establishment of Community Garden	€70,621.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
26	Ballincollig Senior Citizens Club (t/a Westgate Foundation)	Fabric-First Upgrade	€84,000.00	Community Energy, Local Climate & Environmental Action
27	Bruac Good Shephard	Fabric-First Upgrade with Heatpump	€100,000.00	Community Energy, Local Climate & Environmental Action
28	Glanmire GAA.	LED Upgrade	€50,000.00	Community Energy, Local Climate & Environmental Action
29	Blackrock GAA.	Heatpumps and contribution to Solar	€100,000.00	Community Energy, Local Climate & Environmental Action

Donegal County Council - Applications Granted Funding under the Community Climate Action Programme			€778,400.00	
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Ceolan Community Group	Solar PV System with battery	€15,000.00	Community Energy
2	Gweedore Celtic FC	Solar PV System with battery	€16,000.00	Community Energy
3	Inishowen Rugby Club	Solar PV System with battery	€17,000.00	Community Energy
4	Barrack Hill Town Park	Wetland planting, Birdhide	€4,000.00	Local Climate and Environmental Action
5	Wild Inishowen	Native tree and Fruit Trees	€5,000.00	Local Climate and Environmental Action
6	Coiste Forbartha Dhobhair Teo	Food Bank Container	€4,500.00	Food and Waste
7	Dunfanaghy Family Resource Centre	Community Garden Planting	€5,000.00	Local Climate and Environmental Action
8	Carndonagh Traders Assn.	Water Refill Station, Bike Stand	€7,000.00	Travel, Shopping & Recycling
9	Forbairt na Rosann	Community Kitchen Appliance upgrades, Bird & Bat Boxes	€10,000.00	Community Energy, Food and Waste, Local Climate and Environmental Action
10	Rathmullan The Way Forward	Water Refill Station, Community Garden Rainwater Harvesting System	€10,000.00	Food & Waste, Shopping & Recycling
11	Finn Valley Family Resource Centre CLG	Community Garden, Polytunnel, Rainwater Harvesting	€16,000.00	Food and Waste
Medium Projects				
12	Naomh Padraig Leifear CLG	Solar PV & Battery, LED Lighting Upgrade	€29,000.00	Community Energy
13	Forbairt Fhánada CTR	Solar PV, Bike Stand, Bike Repair Station, Nest Boxes	€33,000.00	Community Energy,Travel, Local Climate & Environmental Action
14	Donegal Family Rescource Centre CLG	Solar PV & Battery, EV Chargers	€34,500.00	Community Energy,Travel
15	Glenswilly GAA Club	Solar PV, Bike Shelter	€36,000.00	Community Energy,Travel
16	Ray Community Group	Solar PV & Battery, Greenhouse, Composter	€23,000.00	Community Energy,Food and Waste
17	Rockfield Community Co-Op	Solar PV, Bike Stand, Fruit Trees, Native Hedge	€24,000.00	Community Energy, Travel, Food & Waste, Local Climate & Environmental Action
18	Na Cealla Beaga GAA	Solar PV, LED Lighting Upgrade, Biodiversity Planting, Water Refill Station	€50,000.00	Community Energy, Local Climate & Environmental Action, Shopping & Recycling
19	Letterkenny Community Centre	Solar PV & Battery, LED Lighting Upgrade	€20,850.00	Community Energy
20	Grúpa Chósta Fhánada	Coastal Erosion Fencing, Posts & Marram Grass	€35,000.00	Local Climate and Environmental Action
Large Projects				
21	Spraoi agus Sport	Solar PV, LED Lighting Upgrade, Insulation, Windows & Doors	€60,300.00	Community Energy
22	Crossroads and Killygordon Enterprise CLG	Heat Pumps, Windows & Doors, LED Lighting Upgrade, Tool Library - Garden, Household & Sewing Equipment, Biodiversity Planting	€85,000.00	Community Energy, Local Climate & Environmental Action, Shopping & Recycling
23	Dungloe Amateur Boxing Club	Internal Insulation, Windows & Doors, Solar PV, LED Lighting Upgrade, Bike Shelter, Polytunnel, Water Refill Station, Invasive Species Control	€85,000.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling

24	Cill Ulta	Solar PV, Composter, Bike Shelter, Nest Boxes, Polytunnel Covering, Insulation, LED Upgrades, Bike Repair Station, Water Refill Stations	€80,000.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
24	Naomh Conaill GAA Club.	Solar PV, EV Charging Points, LED Lighting, Water Refill Station	€73,250.00	Community & Energy, Travel, Food and Waste, Local Climate & Environmental Action

	Dublin City Council - Applications Granted Funding under the Community Climate Action Programme			€2,177,296.00
	Lead Partner	**Project Overview**	**Funding allocation**	Theme(s)
	Small Projects			
1	St. Annes Physic Garden	Greenhouse, irrigation, seed stratification equipment	€13,000.00	Local Climate and Environmental Action
2	Iveagh Gardens' Residents' Association	2 cargo bikes and equipment, sheffield stand	€13,447.00	Travel
3	An Taisce DLR-Dublin	Winter heliotrope treatment, tree surgery, tree purchase, pond restoration, wildlife boxes	€14,400.00	Local Climate and Environmental Action
4	Hail Tenant's Forum Garden Project	10 raised flower beds	€1,845.00	Food and Waste, Local Climate and Environmental Action
5	Greenview Community Garden	Composter, bird feeders, mulch, vegetables, soil, plants	€3,345.00	Food and Waste, Local Climate and Environmental Action
6	Greenfield Park RA	Composter, mulch, vegetables, soil, plants	€6,556.00	Food and Waste, Local Climate and Environmental Action
7	Tog Hackerspace	Expand repair cafe in a box	€7,962.00	Food and Waste, Shopping & Recycling
8	Kingfisher Project	Dispersed community garden, rainwater harvester, local climate actions	€9,108.00	Food and Waste, Local Climate and Environmental Action
9	Change Clothes	Circular economy - clothes and a cargo bike (€5499)	€10,387.00	Travel, Shopping & Recycling
10	Northside Partnership	Polytunnel, hydroponics system, composter, water tanks	€11,662.00	Food and Waste, Local Climate and Environmental Action
11	Larkview Football Club	Equipment storage lockers, bike stand, bike repair	€15,430.00	Travel, Shopping & Recycling
12	Richmond Cottages and District Community	Restore garden, remove paving (supported by area office), plants, planters, bike racks, water butts	€17,236.00	Travel, Local Climate and Environmental Action
13	Bloomin' Crumlin	Dispersed orchard, repair cafe, sewing machines, hot box,	€18,021.00	Food and Waste, Local Climate and Environmental Action, Shopping & Recycling
14	Raheny Tidy Village Group	Solar PV, apple press, irrigation system, sheffield bike rack	€12,672.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
15	Saint Anne's Allotment & Community Garden	Offgrid solar, repair workshop, water harvesting, hot bin, wormery,	€19,952.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
16	Stratford Lawn Tennis Club	Solar PV	€19,996.00	Community Energy
	Medium Projects			
17	Clontarf Lawn Tennis Club	Solar PV system with visual display	€24,714.00	Community Energy
18	St. Matthews Parish Centre	Solar PV and visual display unit and LED lighting	€24,725.00	Community Energy
19	Dublin City Farm & Ecology Centre	2 doors for cabin, off-grid solar, raised beds, sheep wool equipment, recycled plastic mud grids	€22,042.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
20	Mercer Houses Residence Association	Bike shed, covered washing line	€23,000.00	Community Energy,Travel
21	Terenure Enterprise Centre	Battery storage for existing solar PV system and EV Charger	€26,000.00	Community Energy,Travel
22	St. Malachy's AFC	Solar PV system with visual displaym water hydration station	€29,000.00	Community Energy, Food & Waste
23	Matt Talbot Community Trust	Bicycle repair and bike parking, polytunnel, rain harvesting, sedem roof	€32,500.00	Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
24	Donnybrook Lawn Tennis Club	Double glazed windows, water hydration station	€34,400.00	Community Energy, Food & Waste
25	St. Brendan's GAA	Solar PV and visual display, EV charger, 2 windows, 2 LED floodlights, bike repair, Sheffield bike racks, composter, locker for swapshop, trees	€34,573.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
26	Zion Parish	Solar PV and visual display system, pollinator planting, birdbath, rainwater harvesting, composters and Wormery, repair hub sewing machines	€43,000.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
27	Flanagan's Fields Community Garden	Solar PV, shed repair, cooling system and heater for dome greenhouse	€44,812.00	Community Energy, Food & Waste
28	Le Chéile Donnycarney Community & Youth C	Solar PV and visual display system, biodiversity garden	€45,000.00	Community Energy, Local Climate & Environmental Action

29	Harold's Cross Youth Football Club	Solar PV and visual display system, water attenuation actions	€46,500.00	Community Energy, Local Climate & Environmental Action
30	Whitehall Colmcille GAA Club	Solar PV, battery and visual display, water hydration station, bike repair, rainwater harvesting barrels	€46,500.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
31	The Bike Hub CLG	Cargo bikes library, bike repair tool kit	€49,000.00	Travel, Shopping & Recycling
32	Finglas Addiction Support Team	Solar PV system with visual display, LED lights, polytunnel, raised beds and assorted gardening equpment	€49,256.00	Community Energy, Food & Waste,
33	Saint Laurence O'Toole GAA Club	Solar PV and visual display, 2 porch doors, water refill, bike repair station, 3 x bike lockers	€49,700.00	Community Energy,Travel, Food & Waste, Shopping & Recycling
34	Cherry Orchard Equine Centre	Solar PV and visual display, replacement windows, 50m hedge, bike repair hub, LED lighting, waste infrastructure	€49,999.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
35	Sophia Housing	Solar PV plus visual display, sheepwool insulation, LED lighting, pond, orchard, composter	€49,999.00	Community Energy, Food & Waste, Local Climate & Environmental Action
36	Dublin Central Mission CLG	Solar PV system with visual display	€31,155.00	Community Energy
37	St. Anthony's House	Solar PV system and visual display unit	€34,053.00	Community Energy
	Large Projects			
38	Artane Coolock FRC	Insulation wrap of building, increase solar PV system	€54,598.00	Community Energy
39	ARC Cancer Support Centres	Solar PV system with visual display, heat pump	€58,007.00	Community Energy
40	Tolka Rovers AFC	Insullation and Heating system	€72,383.00	Community Energy
41	Dublin South City Partnership	Solar PV with visual display unit, LED lighting, bike storage	€60,874.00	Community Energy,Travel
42	Raheny GAA	Solar PV with battery and visual display, LED lights, wall mounted radiators with radiator valves, ceiling tiles for insulation, water hydration station, trolly for swapshop, bike repair station, water irrigation for flower beds	€68,373.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
43	Railway Union Sports Club	Shed for repair facility, water attenutaion tanks, water storage tanks, pumps for water tanks, bore holes, community water attenuation project	€70,000.00	Local Climate & Environmental Action, Shopping & Recycling
44	Naomh Fionnbarra GAA Club	Solar PV system with visual display, LED pitch and internal lighting, water refill station, bike parking, scooter parking, bike repair station, rainwater planter	€83,719.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
45	Clontarf GAA Club	Led Sport Lights, WECO W4K5 Ultra 5.1KwH battery x 2 for existing sytem, bike rack shelter, replacement windows, set of double doors with adjoining windows and 1 PVC door	€87,079.00	Community Energy,Travel
46	Setanta (Cumann Báire)	Solar PV and battery with visual display system, LED lighting,rainwater harvesting, bike repair station, water hydration station	€87,200.00	Community Energy,Travel, Food & Waste, Shopping & Recycling
47	CLG Na Fianna	Roof insulation, LED lighting on astro pitch, eCargo bike, bike storage, dry urinals, pollinator and food gardens	€96,589.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
48	One Family	Replacement windows, LED lighting, Solar PV, battery and visual display, rainwater planters	€99,917.00	Community Energy,Local Climate & Environmental Action
49	Coolock Development Council	Double glazed windows, Solar PV and visual display, butterfly garden and bike lockers	€100,000.00	Community Energy,Travel, Local Climate & Environmental Action,
50	St. John the Evangelist.	Attic (13k), Wall (10.2k), Solar (16k), battery (6.3k), Windowns (19.2), Doors (11.2)	€76,000.00	Community & Energy
51	45th Mount Argus Scouts Group.	Heat pump 12kW (27k), Solar PV 7.2 kW (17k+VAT), lighting upgrade, bike rack	€55,810.00	Community & Energy, Travel
52	Cherry Orchard Football Club.	36 kW Solar PV and battery and visual display 41-45k, EV chargers 12.8, bike shelter 13.7k, repair station 4.3k	€71,800.00	Community & Energy, Travel
53	Grange Woodbine Residents Association.	Water dispenser , Solar PV, car charger and LED's	€50,000.00	Community & Energy, Travel, Shopping & Recycling, Food and Waste

Dún Laoghaire-Rathdown County Council: Applications Granted Funding under the Community Climate Action Programme			€993,011.00	
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Sandyford Downs Residents Association - Community Garden Group	Supply and installation of rainwater harvesting system for community garden.	€14,910.00	Local Climate and Enviromental Action
2	Shanganagh Community Garden	Installation of wildlife, biodiversity pond in community garden.	€15,000.00	Local Climate and Enviromental Action
3	Ballinteer Men's Shed	Supply and install of solar PV system on men's shed buildings.	€13,085.00	Community Energy
4	Shankill Bowling Club	Supply and install of solar PV system on clubhouse.	€17,380.00	Community Energy
5	Cabinteely GAA & Camogie	Supply and install of solar PV system on clubhouse.	€18,105.00	Community Energy
6	Rockfield Community Garden	Tools and waterbutts for community garden.	€1,300.00	Local Climate & Environmental Action, Shopping & Recycling
7	Monkstown Farm Residents Association	Planting of fruit orchard.	€3,300.00	Food & Waste, Local Climate & Environmental Action
8	Sandycove and Glasthule Residents' Association (SAGRA)	Materials for community garden. Supply and planting of native trees and fruit trees.	€11,891.00	Food & Waste, Local Climate & Environmental Action
9	St. Fintan's Green Action	Leaf mould cages, water butts, supply and installation of planting for pollinator garden.	€14,235.00	Food & Waste, Local Climate & Environmental Action
10	Kill o'the Grange Parish and Community Centre	Supply and install of solar PV system on parish centre building.	€18,855.00	Community Energy
11	Kilternan Parish, Church of Ireland	Replacement of floodlighting in community tennis courts with LED lighting.	€20,000.00	Community Energy
Medium Projects				
12	Wayside Celtic Football Club CLG	Installation of solar PV system on sports club.	€25,850.00	Community Energy
13	DLR Mill Theatre	Supply and installation of new LED stage lighting	€25,877.00	Community Energy
14	Shankill Tennis Club	Installation of solar PV system on clubhouse, installation of water refill station, installation of bike rack.	€32,075.00	Community Energy,Travel,Shopping & Recycling
15	Kilmacud Crokes CLG	Installation of LED lighting in clubhouse. Insulation of clubhouse. Replace shower heads and controls in clubhouse.	€44,040.00	Community Energy, Food & Waste
16	St. Laurence's Parish Centre	Installation of solar PV system on parish centre building. Installation of LED lighting in parish centre building. Installation of leaf mould composter and water butts on parish centre grounds. Pollinator friendly planting on parish centre grounds.	€45,100.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
17	Sailing in Dublin (SID)	Replace petrol outboard engines with electric alternatives and install solar and wind-generation systems on club's sailboats. The project also includes upgrading to long-life lithium batteries and adding solar-charged backup batteries at the storage area.	€45,827.00	Community Energy,Travel
18	Mount Merrion Parish Community Centre	Installation of LED lighting with motion sensors in parish centre building. Insulation of sports hall and coffee dock area in parish centre building. Upgrade of external doors in parish centre building.	€27,280.00	Community Energy
19	Bridge Enterprise Centres CLG.	Installation of solar PV system on Enterprise Centre building.	€41,000.00	Community Energy
20	St. Matthias' Church	Insulation of parish centre building. Installation of solar PV system on parish centre building. Replacement of lighting with LED lighting in parish centre building.	€44,390.00	Community Energy

Large Projects				
21	Dun Laoghaire Motor Yacht Club	Replacement of single glazed windows in DLMYC community building with energy efficient double glazed windows.	€63,000.00	Community Energy
22	Parish of Taney.	Installation of solar PV system on parish centre. Replacement of sky lights in parish centre. Replacement of entrance door in parish centre.	€82,511.00	Community Energy
23	Ballinteer Saint John's GAA Club.	Installation of solar PV system on clubhouse. Upgrade lighting in clubhouse to LED. Wall and roof insulation of clubhouse.	€100,000.00	Community Energy
24	Loughlinstown Community Rooms CLG	Heating Upgrades in community building. Replace doors in community building. Install Solar PV System in community building. Replace inefficient storage heaters in community building. Cavity wall and attic insulation in community building. Installation of water font and composter Bike Rack	€100,000.00	Community Energy,Travel, Food & Waste, Shopping & Recycling
25	Loughlinstown Estate Management	Materials for community garden to include a shed with rainwater harvesting, a polytunnel, compost, tools, seeds, and plants, along with solar PV system on the shed. Installation of bat and bird boxes, leaf mould cages, fencing, and bulbs in park. Supply and planting of native Irish trees, fruit & nut trees, fruit bushes & hedgerow species in park.	€100,000.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
26	De La Salle Palmerston FC.	Supply and install of solar PV system on clubhouse	€68,000.00	Community Energy

Fingal Applications Granted Funding under the Community Climate Action Programme				€1,303,699.85
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Castleknock Scouts	Bat boxes, tools + gloves, trees, folding cart, composter	€1,650.00	Local Climate and Environmental Action
2	Baldoyle Tidy Towns	Cargo Bike	€4,000.00	Travel
3	Clonsilla TT	Cargo Bike	€6,002.40	Travel
4	Castleknock TT	Biker Locker, ECargo bike	€8,341.00	Travel
5	Donabate Portrane Tennis Club	Solar PV	€11,977.00	Community Energy
6	Portmarnock Pitch and Putt	LED's	€9,128.63	Community Energy
7	Balbriggan Skerries Fishing Club	Off-Grid Solar Panels, Brackets	€9,888.00	Community Energy
8	Fingallians GAA	Solar Battery	€10,000.00	Community Energy
9	Brackenstown Scout Den	Solar PV & Battery	€10,000.00	Community Energy
10	Rush Sailing Club	Solar PV	€10,000.00	Community Energy
11	Ring Commons Sports Centre Naul	Windows and Doors	€12,000.00	Community Energy
12	Balbriggan Cricket Club	Windows, Doors	€12,100.00	Community Energy
13	Wild Geese GAA	Windows, Doors	€12,768.75	Community Energy
14	Parslickstown House	LEDs (indoor)	€12,939.00	Community Energy
15	Sutton Lawn Tennis Club, 176 Howth Road	LED Lighting	€16,818.75	Community Energy
16	Naomh Bearóg GAA club	Solar PV	€17,459.60	Community Energy
17	Oldtown Community Council CLG & Oldtown Tidy Towns	Water butts, greenhouse, veg growing kits, solar lighting, bat boxes	€3,555.70	Community Energy, Local Climate & Environmental Action
18	Rush Tidy Towns	powerbank generator, garden tools, hedging	€4,677.00	Community Energy, Local Climate & Environmental Action
19	Huntstown Community Centre	Heating, Veg Trugs, bike repair stn	€8,129.45	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
20	Skerries Mens Shed	Solar PV, composter, Water butt, plants	€8,314.54	Community Energy, Food & Waste, Local Climate & Environmental Action
21	Trackside Lawn Tennis Club Seagrange	Attic Insulation, Doors, water font	€11,272.03	Community Energy, Local Climate & Environmental Action
22	Ballyboughal Community Council	Solar PV, Automatic Handryers, Water butt	€11,349.42	Community Energy, Local Climate & Environmental Action
23	Skerries 98th Scouts	Bike Maintenance Station, Heat pump,vertical gardens,	€17,503.99	Community Energy,Travel, Local Climate & Environmental Action
24	Portmarnock Sports & Leisure Centre	Solar PV	€20,000.00	Community Energy
25	Swords Manor FC.	Batteries for lights, Storage, cups	€1,059.03	Community Energy
26	Turvey Allotments.	Solar PV	€6,278.00	Community Energy
27	Fingal Ravens Rolestown	Solar PV	€20,000.00	Community Energy
28	Sutton Golf Club	Solar PV	€20,000.00	Community Energy
29	Corduff Sports Centre	Reusable Kitchenware	€311.70	Shopping and Recycling
Medium Projects				
28	Hills Cricket Club Skerries	Attic insulation, windows + door upgrade	€20,024.67	Community Energy
29	Malahide Golf Club	Water fountains x 2, LED Lighting	€24,406.00	Local Climate and Environmental Action
30	Swords Celtic FC	Solar PV, Bike Racks	€20,210.00	Community Energy, Local Climate & Environmental Action

31	Balbriggan FC	Solar PV, bike shelter	€20,473.00	Community Energy,Travel
32	Round Towers GAA Lusk	energy efficient doors, Bike repair station	€21,964.12	Community Energy,Travel
33	North County Cricket Club	Solar PV, Water bottle filler	€23,495.00	Community Energy, Local Climate & Environmental Action
34	Baldoyle UTD FC	Solar PV, Bike Shed , Bug Hotel, Water Butt, Composter	€23,509.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
35	Castleknock Community Centre	Solar PV, LEDs, Bike Repair	€24,217.00	Community Energy,Travel
36	Skerries Community Centre	LEDs, water efficiency upgrade	€24,286.05	Community Energy, Local Climate & Environmental Action
37	Skerries Allotments	Solar PV, Compost bins	€26,924.00	Community Energy, Food & Waste
38	Donabate Golf Club	Solar PV, creating habitat	€29,348.83	Community Energy, Local Climate & Environmental Action
39	Neamh Mearnóg.	Windows	€49,525.00	Community Energy
40	Malahide Rugby Club.	Solar PV	€20,000.00	Community Energy
41	Clann Mhuire GAA, Naul	Doors, LEDs Hedging Compost, Polytunnel	€29,911.00	Community Energy, Local Climate & Environmental Action
42	Ballyboughal GAA & Tidy Towns	bird box, compost, LEDs water station	€32,054.33	Community Energy, Local Climate & Environmental Action
43	Skerries Golf Club	Insulation, Biodiversity	€41,011.80	Community Energy, Local Climate & Environmental Action
44	Rush Golf Club	Solar PV, Windows, Rainwater Harvesting	€41,879.40	Community Energy, Local Climate & Environmental Action
45	Skerries Town FC	Energy Upgrade, Bike Shed, Water Refill Station	€45,530.36	Community Energy, Travel, Local Climate & Environmental Action
46	Donabate Sea Scouts	Insulation, Bike stand and tools for repair	€49,537.00	Community Energy,Travel
47	St Colmcilles GAA	Windows and Doors	€46,000.00	Community Energy
48	Skerries Harps GAA and Camogie club	LEDs	€50,000.00	Community Energy
Large Projects				
49	Ballyboughal Boxing Club	Insulation, swap shop rail, swap shop sign	€51,178.96	Community Energy
50	Balbriggan RFC	LED Lights Pitch 1	€56,466.00	Community Energy
51	St Sylvesters GAA Malahide	LED Flood Lights	€83,536.00	Community Energy
52	Blanchardstown Neighbourhood Youth Project NYP	Insulation, external insulation , Composter	€50,688.34	Community Energy, Food & Waste
53	Rivervalley Community Centre & St. Finian's GAA.	Solar PVs, LEDs replacement, (RVCC + St. Finians), light bulbs, segregated bin systems, club water. bottles, clothes boxes, pitch light replacement, hanger stacker, peg hangers, clothes rails X2, recycled planters x4, reusable coffee cups, gazebo for gear swap events, hybrid generator,	€100,000.00	Community Energy, Local Climate & Environmental Action, Shopping & Recycling

Galway County Council: Applications Recommended for Funding under the Community Climate Action Programme				€858,575.72
	Group Name	**Overview**	**Funding Recommendation**	Theme(s)
	Small Projects			
1	Oranmore Park Committee	I Outdoor and 1 indoor Water Refill station Segretated Bins	€8,609.00	Shopping and Recycling
2	Abbey Muintir na Tire - (Abbey Community Centre).	1. 26 No Jinko 455 W Panels with Invertor and Changeover Kit Plus accessories	€18,445.00	Community Energy
3	Brigit's Garden	Heat pump to make dual system	€17,350.00	Community Energy
4	Ballinderreen Community Centre	Grounds development for walkway.	€7,377.00	Travel
5	Brooklodge Adult Day Service & Social Enterprise (Ability West)	compost for planting x 20	€606.97	Food and Waste
6	Forbairt Chonamara Láir Teo - Meitheal Hallaí Pobail Chonamara Láir	Wall Insulation at Crannóg (Camus) community hall.	€19,904.00	Community Energy
7	Galway Telework Co-Operative	Upgrade insulation to its building ceiling.	€10,605.16	Community Energy
8	Carnmore Community Centre CLG	Cavity Wall Insulation	€10,296.72	Community Energy
9	Tuam Golf Club.	INSULATION - GROUND FLOOR CAVITY WALLS	€17,558.45	Community Energy
10	Athenry Community Council CLG	PV solar panels with batteries and installation for Raheen.	€11,400.00	Community Energy
11	Annaghdown GAA	1 water refill station. 2. Eco /recycling bins	€6,537.00	Shopping and Recycling
12	Kiltullagh Pioneers AFC	1. Outdoor Free standing water refill station & Indoor Surface Mount Unit.	€5,873.25	Shopping and Recycling
13	Castleblakeney Community Development Association Ltd	Bat boxes & bird boxes. Fruit Trees.	€1,400.31	Local Climate and Environmental Action
14	MADRA Dog Rescue- Mutts Anonymous Dog Rescue & Adoption	Fabric printer for upcycling - Singer Sewing Centre Native Irish Planting and wildlife boxes	€5,378.00	Local Climate & Environmental Action, Shopping & Recycling
15	St Brendan's GAA Club Ballygar	Swap Shop (To be made from 2 Existing Recycled Shipping Containers) Live Willow Structures - Willow Woman Quote Planter Benches - Bladebridge Quotation - Biodiversity Nest Boxes (Various) - Quick Crop	€19,485.00	Local Climate & Environmental Action, Shopping & Recycling
16	Oranmore Maree GAA One Club	1. 2 Bicycle Parking Shelters accommodating 24 bicycles. 2. Landscaping scope of works with planting.	€16,000.00	Travel, Local Climate & Environmental Action
17	Killimordaly Hurling Club	1. 2 water filling stations with smart technology to measure the reduction in plastic usage (delivery, installation etc.) 2. Bike shelter (10 cycle curved shelter approx. 3.85m in length with delivery, installation and installation of concrete base)	€18,000.00	Travel,Shopping & Recycling
18	Clonberne Community Centre Co CLG	Hedge Establishment	€19,223.00	Community Energy,Local Climate & Environmental Action
19	Shiven Rovers Community Centre	1. Wall Mounted Water Stations 2. Recycling Labelled Bins 3. Replace Indoor Lighting with LED Lighting	€15,078.80	Community Energy, Shopping & Recycling
20	Gort GAA Club	2. 2 Drinking Water Dispenser Refill 3. 3 bike Cycle Racks	€7,583.70	Travel, Shopping & Recycling

21	St. Gabriels GAA Club	Water Refill Station. Sheltered Bike Rack. Tree Planting.	€8,819.25	Travel,Local Climate & Environmental Action, Shopping & Recycling
22	Mountbellew Community Childcare Centre	1. Full costs for the supply, fitting and installation of Solar PV panel system.	€16,000.00	Community Energy
23	ARC Clifden CLG (Clifden Town Hall)	1. Solar Panels, Battery and Installation. Solgrid: €14,364	€14,364.00	Community Energy
24	Comharchumann Shailearna Teo	2. LED lighiting Sailearna Hall	€13,476.99	Community Energy
25	Moylough Sportsfield Committee	1. Bike Shelter Supply, Installation of Bike Shelter & Supply & Install Concrete Base for Bike Shelter.	€11,914.40	Travel
26	Woodford Parish Development	1. Water Refill Station & Plumbing Costs for water refill station.	€6,781.00	Shopping and Recycling
27	Caherlistrane GAA Club	5. Water refill Station	€7,749.00	Shopping and Recycling
28	Ballinderreen GAA One Club	Water refill Station	€5,334.00	Shopping and Recycling
29	Abbeyknockmoy Hurling Club	1 water refill station	€6,334.50	Shopping and Recycling
30	Ballinasloe and District Tennis Club	indoor and outdoor Water refill station 2 Door Storage cabinet for Swap Shop. Segregated waste container.	€4,634.00	Shopping and Recycling
31	Mullagh GAA Club	Water refill Station.	€1,568.25	Shopping and Recycling
32	Kinvara GAA & Camogie Club	Water Refilling Station Water Harvesting Waste recycling Bins	€2,529.00	Shopping and Recycling
33	Gort Na Carraige Residents Association	1.Native Trees & Planting,	€3,500.00	Local Climate and Environmental Action
34	Centre for Environmental Living & Training	1. Large Growing Polytunnel. Polytunnel Ireland 2. Geodesic Dome. Polytunnels Ireland	€13,010.00	Food and Waste
35	Kilconly Community Recreation Group	Native Planting	€9,000.00	Local Climate and Environmental Action
	Medium Projects			
36	The Mall Theatre & Cinema CLG	Solar panel installation LED theatre lights	€33,660.00	Community Energy
37	Maree Community Centre	1. Solar system and Battery - 88 panels (40.04kw) & 9.04kWh Battery storage	€20,000.00	Community Energy
38	Ballymacward Hall Management Committee	1. Solar Panel Solution including Panels, Inverter, Batteries.	€20,000.00	Community Energy
39	Killannin Community Centre	1. Solar PV installation works	€20,000.00	Community Energy
40	Rehab Group	1. 75.3kW Solar system	€20,000.00	Community Energy
41	Lackagh Museum and Community Development Association	Install Solar panels. Install air-to-air heating/cooling unit Composter for food waste. Native Irish Hedgerow	€24,669.77	Community Energy, Food & Waste, Local Climate & Environmental Action
42	Maree Oranmore FC	Bike Shelter including repair station. Water Refill Stations x2. Maxi 140Ltr Envirobins & Hooded Trimline 25Ltd Bin with Metal Insert - segregated bins X3 Kallax Units for Displaying Boots for Swap Shop. X3 Pax Units for displaying Clothes for Swap Shop.	€20,665.85	Travel, Shopping & Recycling

43	Aughrim & Creagh Union	1. 2000 hedgerow trees, 629 low woodland & apple trees, 65 fruit bushes, pond planting fromFuture Forests. 2. 13 raised beds. Irish Recycled Products 3. 28 mature parkland trees with stakes, 80 stake and tie packs, 5 boxes of chicken pellets from Cullen Nurseries. 4. 13 raised beds from Irish Recycled Plastics 5. Black Paper Mulch for tree planting (1500 metres) - including delivery. Fruit Hill Farm 6. Yellow Rattle seed (2kg), Wildflower seed (650g), Barn Owl Box, Insect Houses (10). Connecting to Nature 7. Bike Shelter	€26,294.00	Travel, Food & Waste, Local Climate & Environmental Action
44	Clarinbridge GAA and Camogie Club.	1. Solar PV Panels,13.3kWp & 10kWh battery 2.2 outdoor Water filling Stations	€26,519.00	Community Energy, Shopping & Recycling
45	Meelick Eyrecourt Gaelic Athletic Association	1. Solar PV - 14 Panel x 435W Incl. Invertor & 10kW Battery Storage. Bike Shelter and Racks 1 - Meelick Eyrecourt GAA. Bike Shelter and Racks 2 - Eyrecourt Hall. Safety Storage Systems Bike Repair Station. Water Bottle Filling Station 3 x Compartment Bins for Segregation of General, Recycling and Compostable Waste Streams.	€29,869.00	Community Energy,Travel, Shopping & Recycling
46	Glinsk Community Development Society Ltd.	PV Installation Planting native Irish trees & plants	€27,000.00	Community Energy, Local Climate & Environmental Action
47	Comharchumann Fuinnimh Oilean Arann Teo (the Aran Islands Energy Co-Op)	1. Triple glazed windows, including supply, fitting, sealing and making good. 2. 300mm attic insulation and 100mm pumped cavity wall insulation. 3. Water Station	€36,108.00	Community Energy, Shopping & Recycling
48	St. Mary's GAA Cub, Athenry	Solar PV Panels Bicycle Shelter and concrete base Push Taps	€30,266.00	Community Energy, Travel, Shopping & Recycling
49	Annaghdown Parish Council	Solar PV Food Production Zones (bedding, bark, mulch) Native Planting - Dangan Nurseries from Furture Forest Topsoil -peat free Food Composter	€21,959.85	Community Energy, Local Climate & Environmental Action, Shopping & Recycling
50	Beagh Community Centre & GAA Club	1. Materials, Labour, etc., related to Installation of 70 Premium Bauer 445W bi facial Solar PV Panels.	€20,000.00	Community Energy
51	Kilconly Development Association	1. Solar Panels for Community Centre	€20,000.00	Community Energy
52	Duniry Community Facilities	1. Solar PV System.	€20,000.00	Community Energy
53	St Brendan's Hurling Club.	Solar panels	€20,000.00	Community Energy
54	Lawrencetown Community Development	Solar panels	€20,000.00	Community Energy
55	Cumann Liathroid Laimhe Inis Oirr.	Solar panels, windows, insulation	€39,838.50	Community Energy

Galway City Applications Granted Funding under the Community Climate Action Programme				€500,550.90
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Áras Pobail Mionloch	Solar panels and Battery	€3,800.00	Community Energy
2	St James GAA Galway	New energy efficient windows and Doors	€16,400.00	Community Energy
3	Salthill Men's Shed	New apple tree Orchard and new tool shed	€4,645.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
4	Link Galway CLG	Roll out of 2GoCups and bowls deposit and return scheme in the café in Ballybane and a new ice machine	€4,798.00	Food & Waste, Shopping & Recycling
5	Horses Connect Enterprises CLG	Wood pellets for manure and a storage shed for the pellets.	€5,765.00	Food & Waste, Shopping & Recycling
6	Ballinfoile Community Garden.	Solar panels and Battery	€5,980.00	Community Energy
7	Galway City Sailing Club.	Solar panels and Battery	€7,633.00	Community Energy
8	Ballinfoile Community Garden	Solar panels and Battery	€6,000.00	Community Energy, Food & Waste, Shopping & Recycling
9	Rahoon Newcastle GAA Club	New Doors, windows and water unit	€17,000.00	Community Energy
10	Galway City Sailing Club	Solar panels and Battery	€6,000.00	Community Energy
Medium Projects				
11	Galway City Partnership CLG	Solar panels & Commercial BER	€23,955.00	Community Energy
12	Cancer Care West	Battery Storage and Building Management System project	€26,625.00	Community Energy
13	1st Port of Galway Sea Scouts CLG	2 x compost toilets	€27,149.00	Local Climate & Environmental Action, Shopping & Recycling
14	Liam Mellows	New windows and doors/LED light upgrade/Water filling station	€27,682.00	Community Energy, Shopping & Recycling
15	Galway Hooker Sailing Club	Solar Panels and Battery Storage/Electric engine and Battery Pack/Heavy Duty Industrial Sewing Machine	€36,169.00	Community Energy, Shopping & Recycling
16	Salthill Knocknacarra GAA	Cavity Wall insulation and batteries	€40,000.00	Community Energy
17	Galway Hooker Sailing Club.	Solar Panels and Battery Storage/Electric engine and Battery Pack/Heavy Duty	€2,793.70	Community Energy
18	1st Port of Galway Sea Scouts CLG.	2 x compost toilets	€11,350.20	Local Climate & Environmental Action
19	Liam Mellows.	New windows and doors/LED light upgrade/Water filling station	€16,794.00	Community Energy
20	Mervue United.	Replacement LED Floodlight Project	€10,000.00	Community Energy
21	Mervue United	Replacement LED Floodlight Project	€40,000.00	Community Energy
Large Projects				
22	SCCUL Enterprises CLG	Retrofit of building including new heaters, windows and doors, roof insulation & PV Solar.	€95,153.00	Community Energy
23	Blue Teapot theatre company	Retrofit of new arts space+ solar PV + Rainwater planter	€64,859.00	Community Energy, Local Climate & Environmental Action

Kerry Applications Granted Funding under the Community Climate Action Programme			€739,226.58	
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Ballybunion Tidy Towns	Ballybunion Tidy Towns works to enhance the town's environmental quality and resilience. The project supports local climate action through practical improvements that benefit biodiversity, public spaces, and community engagement. Project: Installation of a MyGug (compact anaerobic digester) to compost food waste. [100% funded]	€10,332.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
2	Ballyduff Tidy Towns	Ballyduff Tidy Towns is a volunteer-led group focused on environmental improvement and community pride. The proposed actions support climate resilience and sustainability while encouraging local participation and awareness. Project: Upgrade to Community Garden water, storage and composting infrastructure including rainwater harvesting and irrigation system. [100% funded]	€9,400.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
3	Kenmare Tidy Towns	Kenmare Tidy Towns plays a strong role in environmental management and town enhancement. The project contributes to climate and biodiversity goals while supporting a cleaner, more resilient local environment. Project: Supporting a community composting project including purchase of composter and equipment. [100% funded]	€12,473.97	Community Energy, Food & Waste, Local Climate & Environmental Action
4	Wild Mind Fenit	Wild Mind Fenit is a community-based initiative promoting connection with nature and wellbeing. The project supports low-impact, climate activities that strengthen community resilience and environmental awareness. Project: Purchase of a solar generator kit. [Part funded – 51% funded]	€5,740.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
5	Mastergeeha FC, Killarney	Mastergeeha FC is a community football club serving the Killarney area. The project focuses on improving the sustainability of club facilities, reducing energy use and supporting long-term community benefit. Project: Installation of solar PV infrastructure, recycling bins and biodiversity garden. [100% funded]	€18,000.00	Community Energy, Local Climate & Environmental Action
6	Fossa Climate Action Group	Fossa Climate Action Group is dedicated to local responses to climate change. This project supports community-led initiatives that reduce emissions, raise awareness, and build practical climate action capacity at a local level. Project: Installation of infrastructure to promote biodiversity and reduce waste, installation of bike stands. [100% funded]	€4,244.00	Travel, Local Climate & Environmental Action
7	Tralee Tidy Towns	Tralee Tidy Towns is a long-standing community organisation improving the urban environment. This project supports climate-positive actions that enhance public spaces, biodiversity, and community awareness. Project: Installation of covered bike parking and bike repair station. [100% funded]	€11,146.00	Travel, Local Climate & Environmental Action
8	Dingle Hub	Dingle Hub supports innovation, and remote working in West Kerry, with a focus on sustainability and climate action. This project aims to empower communities to take practical climate action by reducing water and energy consumption in home and businesses. The results of the project will be quantifiable and replicable and could be deployed at scale. Project: Water flow monitoring and reduction packs. [100% funded]	€18,000.00	Community Energy, Local Climate & Environmental Action
Medium Projects				
9	Fáilte Isteach Gach Duine	Moyvane Community Hub provides vital social, educational, and integration supports. This project will improve the energy efficiency of the hub, reduce costs and emissions while strengthening a welcoming, low-carbon community space / Hub. Project: Upgrade to community gardens and allotments to include irrigation system, compost areas, gardens for planting, LED solar lighting. [100% funded]	€20,000.00	Community Energy

10	Austin Stacks GAA	Austin Stacks GAA is a cornerstone community organisation in Tralee. The proposed works aim to improve the energy efficiency and environmental performance of club buildings, supporting long-term sustainability and aligning community sport with climate action goals. Project: Solar PV & battery installation, biodiversity works and planting, water stations. [100%funded]	€44,000.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
11	Killarney Tech Innovation	This project strengthens the sustainability of its facilities, reducing emissions while supporting a modern, low-carbon workspace for community and economic development. Project: Solar PV & battery installation, solar powered ebike charger, waste stream separation, installation of bird boxes. [100% funded]	€25,910.91	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
12	Sneem Tidy Towns	Sneem Tidy Towns is an active community group committed to environmental enhancement and local pride. The project supports practical climate and biodiversity actions that improve the local environment while encouraging community participation and stewardship. Project: Solar PV and batter installation. [Part funded – 71% funded]	€31,167.10	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
13	Knocknagoshel GAA Club	Knocknagoshel GAA Club is a rural community hub providing social, sporting, and cultural benefits. This project focuses on improving the energy efficiency of club facilities, reducing emissions and ensuring the long-term viability of an important local asset. Project: Solar PV installation, upgrade to heating system and biodiversity measures, planting. [100% funded]	€48,900.00	Community Energy,Travel, Local Climate & Environmental Action
14	County Kerry Cricket Club	County Kerry Cricket Club supports a growing and diverse sporting community in Ballygarran. The proposed project will reduce the environmental footprint of club facilities while supporting inclusive participation and sustainable community sport while connecting not only to the Greenway but also to the waterway and supporting travel and biodiversity with regards to same. Project: Solar PV panel installation, water harvesting system, bird boxes, bin provision, wildflower planting. [100% funded]	€26,400.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
15	Inspired Tralee	The project involves the development of a 'Smart Pod' that will serve as a low-carbon, energy efficient community facility providing a hub for education, project development and community connection.	€100,000.00	Community Energy,Local Climate & Environmental Action, Shopping & Recycling
16	SPA GAA Club.	SPA GAA Club is a well-established community sports club serving the Killarney area. The proposed project will improve the energy performance of club facilities, reduce long-term energy costs and emissions while ensuring the club remains a sustainable, accessible community asset. This project involves upgrade works to improve energy efficiency of lighting on site, provision of solar PV and battery infrastructure, installation of a bike rack to promote active travel, planting and biodiversity works and a hydration station to reduce waste.	€89,132.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
17	Castleisland Desmonds.	This project involves the installation of a solar PV system, LED lighting and a bike shed to promote active travel.	€100,000.00	Community Energy,Travel, Local Climate & Environmental Action
18	Killorglin Rugby Football Club	Killorglin RFC is a community-led sports club with strong youth and volunteer engagement. The project supports climate-aligned upgrades to club facilities, reducing energy demand and demonstrating leadership in sustainability within the local sports community. This project involves the installation of a solar PV and energy storage system along with associated upgrade works. [Part funded – 72% funded]	€70,380.60	Community Energy,Travel, Local Climate & Environmental Action

19	Tralee Dynamos AFC.	Tralee Dynamos AFC is a large community football club supporting participation across age groups. This project will enhance the sustainability of club operations through energy-saving measures, helping to future-proof facilities while reducing carbon emissions and running costs. This project involves the installation of a solar PV system with integration into the hot water system, building fabric and insulation upgrades, installation of bike racks and active travel infrastructure and recycling/waste segregation.	€94,000.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling

Kildare County Council Applications Granted Funding under the Community Climate Action Programme				€991,941.63
	Project	**Brief Description of project**	**Funding Allocation**	**Theme(s)**
	Small Projects			
1	Nurney Gaa	Cavity Wall Insulation in Community Centre	€5,000.00	Community Energy
2	Maynooth Cycling Campaign	Wheelchair trailer and Gator Bars	€2,798.75	Travel, Shopping & Recycling
3	Derrybeg Farm	5 Manual composter machines & additional rainwater harvesting equipment	€12,609.05	Food & Waste, Local Climate & Environmental Action
4	Kildare Wildlife Rescue	Wildlife Rescue system (water recycling)	€18,508.05	Local Climate & Environmental Action, Shopping & Recycling
5	St. Mary's Brass and Reed Band	Outdoor LED lighting upgrade	€2,476.92	Community Energy, Local Climate & Environmental Action, Shopping & Recycling
6	Maynooth Community First Responders	Solar power defibilators	€10,798.33	Community Energy, Local Climate & Environmental Action
7	Rathangan Community Association Ltd	Roof Insulation	€15,628.95	Community Energy,Travel, Local Climate & Environmental Action
8	Robertstown GFC	Solar Battery	€18,356.36	Community Energy, Local Climate & Environmental Action
	Medium Projects			
9	Milltown GAA	Solar panel installation	€25,851.25	Community Energy
10	Kilteel Hall	Roof Insulation	€26,616.00	Community Energy
11	Carbury GAA	Solar panel installation	€41,200.00	Community Energy
12	Kyrie Farm	Installation of 3 polytunnels, establishment of new hedgerow and biodiversity enhancements, increasing habitat connectivity and climate resilience.	€22,648.00	Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
13	Maynooth Sustainable Energy Community (SEC)	Energy Toolkit	€23,225.00	Community Energy, Local Climate & Environmental Action
14	Ballymore Eustace GAA	Installation of solar PV system with battery & public hydration station	€25,381.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
15	Kildare Town AFC	Replacement of 6 traditional floodlights with high-efficiency LED units	€29,850.00	Community Energy,Travel, Local Climate & Environmental Action
16	Ardclough GAA	Solar Panels & hydration station.	€30,800.00	Community Energy,Local Climate & Environmental Action, Shopping & Recycling
17	Clogherinkoe GAA	Solar panels & roof insulation	€46,000.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
18	Cill Dara RFC	Doors & window upgrade to reduce energy costs	€50,000.00	Community Energy, Local Climate & Environmental Action

19	County Kildare Community Network Company CLG	Fitout of a bicycle repair, maintenance and upcycling workshop & fashion & textile repair and upcycling workshop.	€33,580.28	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
Large Projects				
20	Sarsfields GAA	Installation of solar panel energy retrofit system	€60,969.00	Community Energy, Local Climate &
21	Solas Bhride Centre & Hermitages CLG	Solar PV installation with battery	€68,801.72	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
22	Kildangan GAA	PV installation & battery, upgrade of pitch side lighting to LEDs & EV charger	€69,305.42	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
23	Prosperous Tennis	Court flood lights upgrade to LEDs, Bike Shelter, Solar Panels, Air to Water Heating Pump - EV Charging Point and Water Station.	€77,217.63	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
24	St Kevins GAA	Upgrade of halogen lighting powered by a diesel generator to led lighting using mains electricity.	€79,378.29	Community Energy, Local Climate & Environmental Action
25	Maynooth Tidy Town	Community garden with raised beds, pollinator-friendly planting, and composting facilities, rainwater harvesting infrastructure & pathways seating to ensure inclusivity.	€100,000.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
26	Blessington AFC.	LED Floodlights, solar panal installation, bike shelter & polytunnel	€94,941.63	Community & Energy, Travel, Food and Waste, Shopping& Recycling Local Climate & Environmental Action

Kilkenny Applications Granted Funding under the Community Climate Action Programme				€577,659.00
	Lead Partner **Small Projects**	**Project Overview**	**Funding Allocation**	**Theme(s)**
1	Castlecomer Enterprise Group	Build on success of work carried out under CCAP Phase 1. Building is T shape and Group looking to continue on conserving energy, use efficient heating methods, upgrade to energy efficient doors 3 No current doors warped and out of shape / not sealed, install an ecocool blow ceiling system removing an old Fireball Turbofann 900 - high energy consumption on a large room 20ft x 19ft ceiling height 11ft. Install attic insulation, replace window sealants and handles. They did one side of the building on phase 1 and looking to do the other side now.	€15,000.00	Community Energy
2	TCAT Westcourt	Westcourt Gardens, voluntary group to maintain gardens and managed Community Supported Agriculture scheme. To provide people with healthy, local, affordable produce. On a 5 acre walled garden and biodiversity site supports diverse activities to encourage people to grow, learn, work and celebrate in harmony with nature. In 2024, 1,045 people participated in cultural activities, courses, work opportunities, volunteering and gardening initiatives including allotments at Westcourt Living & Growing. A forest school activity for Traveller children was developed onsite and coordinated by Kilkenny LEADER Partnership/Kilkenny Traveller Community Movement. Existing polytunnel (2014) currently wrapping damaged and loose and patched but very vunerable to storm damage and loss. Unsecured polythene can do significant damage to bars etc if not addressed. Grant moneies would ensure this polytunnel would secure activities for another decade as just want to replace polythene	€800.00	Food & Waste, Local Climate & Environmental Action
3	Kilkenny Allottment & Community Gardens Assoc	27 plots, organic growing mandatory (no pesticides), Small Orchard also planted (Kilkenny Heritage Trees). Looking to install Roof between two onsite metal containers to create shelter and raiwater harvesting. Also looking for materials for raised beds and barrels (barrels from salvage yard) - community to plant.	€3,200.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
4	Marion Hall	Group want to revamp hall, retain heat and make environmentally friendly. Single pane windows at present in hall. Have upgraded heating system so looking to seal doors and replace windows. Will get school involved when doing leaf composting to do nature & biodiversity talks. Compost will be available to community or used on garden plot on hall grounds. Will do a swap shop at certain times of the year if hall is sealed better (new windows/doors resealed) Looking to bring use back into hall and encourge drama groups/arts to use as have stage there.	€7,000.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
5	The Acorn Project	This group works to restore habitats, enhance biodiversity, and strengthen climate resilience through practical, locally focused projects. Established a nursery in 2024, 2025 saw 330 volunteers to nursery. In partnership with the Kilkenny Fruit Tree Project, looking for an apple press, the mobile apple press will enable the expansion of community apple-pressing days across North Kilkenny, supporting local food systems, reducing waste, and strengthening community connections. Also looking to install MyGug anaerobic digestor they will do demonstrations of biogas cooking to introduce visitors to circular, low-carbon micro-energy solutions that can be replicated at household or community level. Also looking to install a rainwater harvesting system which will serve both as a functional response to climate-related drought—supporting irrigation and pond levels—and as a demonstration site for water resilience solutions.	€12,000.00	Community Energy, Food & Waste, Shopping & Recycling

6	Kells Sports Centre	140 members, one of biggest juvenile memberships in country with 100 active memberships playing. 2003 & 2024 held Worlds Handball Championships. Hosting Mens & ladies Open 40x20 Irish Nationals 2025 active. Already upgraded lights to LED and insulated attic. No natural light in building. Experience in Project Delivery referenced looking to put in Solar PV, a 6 bike, bike rack. Planting a good varierty of pollinator friendly. They mention no drinking water tap in building currently buying bottled waster for competitors, looking to instal water refill station and would prefer to intall outdoor water refill station so its available to wider community and also install a bird box	€14,000.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
7	SOS Kilkenny	Energy Upgrade at Deenview, day centre supporting adults with intellectual disabilities in Castlecomer. Had put forward proposal and application for full energy retrofit but only looked for % funding as were going to apply to SEAI CEG scheme. Due to this at Evaluation panel agreed to support just insulation upgrade in entiretly (cavity walls and attic) to ensure no risk to delivery and a stanalone project. Also project will install composter, plant bulbs and water butt to harvest rainwater for use in existing polytunnel. Application included energy audit and referenced emission reduction (45%) and SEAI's National Plan for Decarbonisation. Also referenced KK LACAP and SDG's 3 Health & wellbeing, 7 Affordable & Clean Energy, 9 Industry, Innovation & infrastructure, 13 Climate Action & 15 Life on Land	€16,000.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
	Medium Projects			
8	St. Canices Community Action	Very active community centre in city. In 2025 alone, they had over 21,000 visits from individuals across every social, economic, and cultural background through their hall. Mention on application they would participate in engagement initiatives, receive education on solar energy benefits, and contribute personal time or minor contributions. Looking to install 9.9kW of solar pv and a 20kw battery system to assist with energy operating costs	€23,000.00	Community Energy
9	Kilmacow Community Centre	Looking to improve energy efficiency through targeted building fabric upgrades, thereby reducing emissions, lowering operational costs and creating more comfortable resiliant and susatinable community. Replacement of external Doors in sports hall. Install suspended ceiling in old school building. References CAP objectives, reduce energy consumption and carbon emissions and fabric first approach and improving community resilience and sustainability. Also references KK LACAP and National Climate Objectives. Experience in project delivery	€29,000.00	Community Energy
10	Ferrybank AFC	Install lighting and solar pv, to reduce club energy spend and carbon footprint, estimate 50% saving in carbon if works complete and will encourage sustainable practices such as EV transport. Will install motion sensors in all rooms where lighting upgraded with one exception and rationale explained. Has referenced experience of delivering on other projects, e.g development of facilities, synthetic pitch, mini pitch, floodlights etc. Has someone who works from Eicia Energy (energy savings & carbon solutions company) be project manager to help with project. Estimated 60% savings in energy consumption through works, will review quotes to ensure green procurement policies and that contractor in line with their ESG goals Club have stated they will carry out baseline before works commence and monitor and measure outputs against solar and gas readings. Will partner with community and students from Abbey college - project manager from Ericia Energy (club member) will work with TY students Abbey college on project (He will interact with the students on all aspects of the project and explaining how the management tool plays an important role in designing cost effective and low carbon solutions)	€39,500.00	Community Energy

11	Stoneyford Development Association	Want to build on work carried out under Phase 1 which was fabric first, now want to install solar pv, looking to revamp their compost bays to ensure longetivity. Have walking track and playing pitch looking to install water refill station. and also want to create a pocket forest for biodiversity boost at local estate - have permissions from residents association. Secretary is a QS and will supervise all onsite works, have shown ability to deliver under CCAP Phase 1 where larger project was approved.	€23,500.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
12	Tullahought Community Centre	Improve energy efficiency Community Centre, dryling walls in centre. References & saving in GHG emissions and energy savings, spec for drylinging by community architect involved in project. Mentions Irelands energy and GHG targets. Bike Stand, Bike repair station and bottle water refill station proposed in public carpark again linking back to targets. Intend to provide a permanent free market stall for local people to leave in season surplus garden produce and small goods. Propose to contruct stand using recycled pastic materials. Looking for materials to increase their rainwater harvesting capacity using water on planting in community. Voluntary labour is stated in application to construct - VFM. Experience in Project Delivery.	€32,500.00	Community Energy,Travel, Food & Waste, Shopping & Recycling
13	Hugginstown District & Community Centre	Project aims to reduce the Community Centre's energy demand and carbon footprint, encourage low-carbon travel, and strengthen local climate resilience by retrofitting building fabric, enabling active travel, cutting single-use plastics through a water refill station, and strengthen local climate resilience and biodiversity through nature-based planting. Insulate walls and roof to modern standards insulating beads and high-performance roof insulation and upgrade draught-proofing to cut heat loss. Looking to install bike rack to encourage cycling to events and reduce short car trips, water refill station for bottle refills. Plant native hedging and associated native species around the site to stabilise soil, enhance biodiversity, provide a windbreak, and sequester carbon. Work will be delivered in partnership with the hall committee, local tradespeople, and volunteers. Estimated 30% emission reduction by doing insulation works, 400 plastic bottle avoidance with refil station install and mentions national decarbonisation targets. Local contractors and suppliers will install insulations, refill systems and bike rack and volunteer team and community groups will be enlisted for planting, launch events and perform maintenance. Have mentioned previous granted successfully delivered before.	€35,500.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
14	Thomastown GAA Club	Club proposes a community-led climate action project for emissions reductions, build climate resilience, and support long-term behaviour change. The club is positioned on a floodplain on the banks of the River Nore and its proximity to a Special Area of Conservation (SAC). Club part of GAA Healthy Club Programme and wants to progress and participate with GAA Green Clubs. Involved with Thomastown Community Network (TCN) and the local SEC. The club is included in TCN community energy masterplan. Looking to upgrade floodlighting to high efficiency 900W to reduce energy consumption and carbon emissions, Funding is also sought for native hawthorn tree planting to strengthen the hedgerow between the club grounds and the riverside walkway. This hedgerow to act as a natural buffer, supporting habitat connectivity, enhancing biodiversity and increasing resilience to flooding and install water reill station and bike rack	€37,000.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling

15	Ballyfoyle Development Group	Community will have active mgmt committee supported by a dedicated project lead for each theme. Demonstrated ability to manage and deliver, pulling together as a group on a large Phase 1 project, have called in various members of parish and used their professional skills to assist during project. Looking to advance on success of Phase 1, Phase 2 is looking to target remaining sources of energy loss and inefficiency within the hall, support low-impact travel associated with community use, reduce waste and water demand, and strengthen biodiversity. Further enhancing on works completed as part of Phase 1 to finalalise project vision and complement. Volunteers will once again be involved in planting, maintenance and take ownership over works. Application states The Parish has granted authorisation for works at the Community Hall and Memorial Gardens, enabling the project to proceed smoothly and with full local support. Looking to install Solar and battery system, replace windows, install smart controls and lighting, floor insulation at hall entrance, intsll bike socket, composter, hose reels and planters/planting	€42,500.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
16	The Rower Community Hall.	Retrofit Hall, make more sustainable, energy efficient and climate resilient. Current facility energy systems outdated, inefficient, high energy costs and unnecessary carbon emissions. Want to reduce energy consumption, lower opertaing costs, decrease environmental impact.Want to replace all lighting with LED (51 lights), install Solar PV	€24,667.00	Community & Energy
17	Piltown GAA Club.	4 kW Solar PV 2 x Bike Rack Water Stations 12 x LED Lighting (AstroTurf) Plants & Hedging Trees (Community Garden) 2 x Rainwater tank 10,000 ltr	€41,992.00	Community & Energy, Travel, Shopping & Recycling, Local Climate & Environmental Action
Large Projects				
18	Graiguenamanagh Canoe Club	Multi Club project - will help over 900 club members & greater community, canoe club will lead application. Have identified 107 lights for retrofitting over 5 locations (GAA, Canoe, Rowing, Scout & Regatta) Solar 9.9kW GAA Club with 10kW battery, 4kW on kayak club with 10kW battery and 4kW on athletic club with 10kW battery. GAA club recently removed fossil fuel boiler and replaced with heat pump Travel 3 bike racks, GAA club, rowing club and scouts den 1 x Composters for the Tidy Towns 3 x water refill stations; GAA Club, Scout Den & Rowing Club 4 x 3,000lts water butt (TT garden, GAA (pitch), Kayak and rowing club boat washdown) Chose local suppliers when pricing. Groups will all have person responsible for delivering who will all report to Chairperson of Canoe Club who will ultimately manage all ensure delivery incl budget mgmt, planning, stakeholder engagement & reporting. Names identified on application for key personnel at each club. Have highlighted successful projects previoulsy delivered. Project has huge scope as over the entire village. Had applied for polutunnel removed this as query over usage and location - have advised group need to do some planting instead	€55,000.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling

19	Urlingford Town Team	Urlingford town Team, were successful in Phase 1 looking to build on this and to install high efficiency heritage appropriate windows on a historical building. In their application they reference their strategy to make Urlingford sustainable and aligning with SDG's. They have also been selected as 'Pathfinder' for Kilkenny under Town Centre First Policy and have a Masterplan for the town created. The building is a protected old bank and under CCAP Phase 1 they installed Solar panels successfully. They are looking to reduce energy loss, improve thermal comfort and ensure electricity generated under Phase 1 is more efficiently used rather than lost through outdated glazing. They also have heat pump already installed from a previous project and are doing works on a phased basis. Nore Vision is an anchor tenant in Hub/Building and they are partnering with them for this project. They also reference National Carbon Targets & Emissions Reduction. This is a Theme 1, Energy project but they do mention Theme 2 Travel as it is remote working hub so creating a more comfortable facility encourges use of building therefore reduction of travel related emissions and making building more energy stable for occupants. High costs specialised nature of works means this would be impossible without grant support. Group very aware of specialist nature of works and have had discussions with conservation officer re planning. Group very successful in delivering on projects, part of CCAP Phase 1	€61,500.00	Community Energy,Travel
20	CRKC - Community Radio Kilkenny City	Volunteer Led community radio station, plays an active civic role by supporting community development, social inclusion, youth participation, and public education through radio and digital media. Describes project as Building Fabric First Retrofit & Community Climate Education Project. looking to do a deep fabric first retrofit to address heat loss, comfort and energy inefficiency. Works proposed - cavity wall insulation, replacement of windows and external doors installation of 16kW Solar PV system. They state these interventions are to: reduce energy demand, improve comfort and prepare the building for future heating upgrades. Roof replacement works including insulated panels have been applied for through alterniative grant and approved - funded separately throught Pobal. State PV will generate approx 14,000kWh per annum, current consumption approx 20,400kWh. They are looking to install flower boxes and do planting, looking to use rainwater harvested from downpipes to irrigate planters. Have also attacheed Executive Summary for project identifying works, risks, mgmt of project, governance etc. Had applied for EV charging but had not Did apply under CCAP Phase 1 but were not successful	€64,000.00	Community Energy, Local Climate & Environmental Action

Laois Applications Granted Funding under the Community Climate Action Programme				€519,164.27
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Mountmellick Mens Shed	Establish community garden, Polytunnel for Sustainable Food with solar powered irrigation system. Mens Shed will build raised beds and purchase organic compost and soil themselves.	€5,830.71	Food and Waste
2	Mountmellick Women's Shed	Set up upcycling project. Sewing machines, rolling trollies. Equiptment to turn clothing and fabric that is otherwise going to landfill into useful clothing, bags, blankets and other items for their own use and to donate.	€2,473.12	Shopping and Recycling
3	Mná le cheile - Womens Shed	Tools for furniture upcycling and tool library. Aim is to set up an upcycling group where members can get together to help each other upcycle furniture and clothes. The tools used to complete the project will also be used as a borrow toolbox for members and wider community to enable them to complete upcycling projects	€1,467.05	Shopping and Recycling
4	O'Moore Place Allotment Group	Ongoing development of the allotment with small scale composters which will allow easier composting for older tenants and those with additional needs. Garden carts will make it easier to move equipment around the site. The slow release watering bags will reduce water waste and will support mini-orchard during hotter months.	€1,003.37	Local Climate and Environmental Action
5	Laois Friends Special Needs	Efficient smart controlled heaters, Toy library, rainwater harvesting, biodiversity pond and herb planters	€19,701.50	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
6	Abbeyleix Tidy Towns	Supports for already established Community garden. Bike parking and fixing, sports equipment upcycling/ reuse	€4,934.48	Community Energy,Travel, Food & Waste, Shopping & Recycling
7	Abbeyleix Bog Project CLG	Improved protection of peat fringes at bog bridges and boardwalks using recycled sleepers. Showcase the interactive audio-visual trail on screen and allow people to learn more about our projects and wildlife without needing to access sensitive off-track areas. Reduce non-renewable resources by replacing generators and traditional batteries with solar-powered alternatives for moth traps and outback cameras. installation of bicycle racksto encourage cycling to bog project walk.	€5,966.90	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
8	Womens Shed Portlaoise	Tools for Upcycling and equipment for community garden. Aim is to set up an upcycling group where members can get together to help each other upcycle furniture and clothes. Garden will be inclusive and accessible to anyone who wants to join in on growing food and plants.	€1,341.84	Community Energy, Shopping & Recycling
9	Laois Beekeeping Association	Off Grid Solar Generating Kit to replace current diesel generators and bike parking	€3,741.75	Community Energy,Travel
10	Ballylinan Regeneration Team	Establishment of a community garden, plating of native trees and plants. Installation of insect hotel, swift boxes, seating rised planters. Purchase of compost and compost bin, pergola.	€6,140.19	Food & Waste, Local Climate & Environmental Action
11	Camross Community Association	Instllation of Solar PV system, recycled plastic raised flower planters	€11,648.72	Community Energy, Food & Waste, Local Climate & Environmental Action
12	Droimnin Retirement Village Residents Association	Creation of mini forest with planting of native trees and shrubs in area identified with high impact.	€5,105.00	Local Climate and Environmental Action
13	Ballyroan Community Development CLG	Installation of Solar Panels	€8,928.72	Community Energy
14	Portarlington Tidy Towns.	Deposit and Return Reusable Cup Scheme	€10,824.00	Shopping & Recycling

Medium Projects				
15	Portarlington GAA Club	Retro fit of windows and doors in gaa club house and community hall	€31,591.59	Community Energy
16	Portlaoise Rugby Club	Installation of rainwater harvesting system, excavaation and installataion of Bioswale for rainwater management, retrofit lighting, istallation of hot air curtainand smart controls for club house heaters. Intallation of segregated bins and bike shed. Informed by Green infrastructure report nad energy audit.	€45,903.53	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
17	Clonaslee Parochial Hall Redevelopment Committee	Installation of dry lining of walls, floor insulation. Installation of raised beds for community garden and bike repair stand.	€49,321.00	Community Energy,Travel, Food & Waste
18	Rathdowney Vision CLG	Retrofit windows, Community Garden raised beds, rainwater harvesting and Solar Irrigation system	€34,708.44	Community Energy, Food & Waste, Local Climate & Environmental Action
19	Mountrath Community Forum	Installation of Solar panels on and around Bloom HQ, garden around ground mounted panels at Bloom HQ and a Community Garden on Main St at Macra Hall.	€36,003.00	Community Energy, Food & Waste, Local Climate & Environmental Action
20	4th Laois Portarlington Scout Group	Energy Upgrade Work to Scout Den building and establishing a community garden. Installation of insulation to attic, retrofit of windows and doors. Installation of ventilation.	€25,488.03	Community Energy, Food & Waste
21	Community Hall Vicarstown	Retrofit – cavity wall and suspended ceiling insulation. Installation of New windows on ground floor, install stud wall and drop ceiling.	€24,000.00	Community Energy, Local Climate & Environmental Action, Shopping & Recycling
22	Portlaoise Tidy Towns.	Community Bike Library	€43,340.27	Shopping & Recycling
Large Projects				
23	Killenard Community Centre	Wall insulation, retro fit windows and doors. Biodiversity planting, bins, bike shelter and fixing and wool spinning equipment.	€55,873.63	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
24	St Canice's Hall Enhancement and Preservation Group	Building retrofit, attic insulation, LED lighting, dryline walls and slab ceiling, replace 1 window. Establishing a Community Garden, plants trees and conpost with Community Pantry(shipping container, fridge freezer,industrial shelving unit)	€83,827.43	Community Energy, Food & Waste, Local Climate & Environmental Action

	Leitrim Applications Granted Funding under the Community Climate Action Programme		€343,999.00	
	Group Name	**Project Overview**	**Funding Allocation**	Theme(s)
Small Projects				
1	Carrick on Shannon Tidy Towns	(i) Implement a coffee cup deposit/return system in Carrick on Shannon	€5,355.00	Shopping and Recycling
2	Carrigallen Tidy Towns	(i) Install polytunnel to meet our Tidy Towns needs in that we can grow flowers and cut costs. (ii) Plant fruit trees to restore and encourage Biodiversity.	€7,500.00	Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
3	Mayflower Community Centre CLG	(i) Replace existing lights in hall B with LED lights	€5,300.00	Community Energy,Travel
4	Keshcarrigan Development Association CLG (KDA)	(i) Installation of a rainwater harvesting system including collection, storage, and connection to toilets and garden use	€8,000.00	Community Energy, Food & Waste
5	Good Energies Alliance Ireland (GEAI)	(i) Installation of Solar panels with battery storage	€15,000.00	Community Energy,Travel, Local Climate & Environmental Action
6	Killenummery Men's Shed	(i) Purchase seed propagation table (ii) Develop four Biodiversity and Pollinator Plots surrounding polytunnel	€5,000.00	Community Energy,Local Climate & Environmental Action
7	Mohill Community Garden	(i) Install rain water harvesting system	€2,500.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
8	St. Mary's (Kiltoghert) GAA Club, Carrick-on-Shannon, Co. Leitrim	(i) Insulation retrofit of the clubhouse building	€11,283.00	Community Energy
Medium Projects				
9	Newtownmanor Community Development Company	(i) Install solar PV system with battery storage and two heat-pump air-conditioning units, reducing energy costs and replacing the existing oil-based heating system	€24,062.00	Community Energy
10	Glenfarne Community Development Trust	(i) Installation of Solar panels with battery storage (ii) Install Energy-efficient electric heating in the office. (iii) Purchase four electric bicycles purchased for community and tourist use	€35,000.00	Community Energy,Travel
11	Margaret of New Orleans Community Committee Clg	(i) Installation of solar panels battery for storage at Margaret's Corner Community Centre (ii) Install 2 x water Butts to conserve water for Flowers and washing paths / Concrete back area Etc. at Margaret's Corner Community Centre & at the cottage	€22,000.00	Community Energy, Local Climate & Environmental Action
12	Killargue Community Development Association	(i) Replacement of all exterior doors and windows, to include upgrade of external fire doors / emergency exits with modern day standards / regulations. (ii) Replacement and Installation of LED lighting throughout the building.	€35,000.00	Community Energy
13	Gortletteragh GAA Club.	(i) Installation of solar panels & smart energy management app, (ii) Install Dual public EV charge points, (iii) Implementation of a pollinator friendly planting plan	€43,999.00	Community Energy, Local Climate & Environmental Action
Large Projects				

14	Leitrim Arts Development Ltd	(i) Installation of solar panels with a battery storage system (ii) Introduction of energy-efficient infrared heating panels in two	€53,000.00	Community Energy
15	Mohill Community and Sports HUB	(i) Replace existing diesel air-blowing heating system with 6 electric air-conditioning units (ii) Replace external windows & doors	€71,000.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling

	Limerick Applications Granted Funding under the Community Climate Action Programme		€887,575.89	
	Group Name	**Project Overview**	**Funding Allocation**	Theme(s)
Small Projects				
1	Southill Hub (Southill Area Centre CLG)	This project involves upgrading attic insulation to make the building warmer	€15,837.79	Community Energy
2	Ferndale Residents Association	This project involves developing a biodiversity trail within their community to include trees and hedging	€13,506.50	Local Climate and Environmental Action
3	St Ita's afc	This project involves upgrade of Training Area Lighting to LEDs and the creation of a Pollinator Habitat	€4,000.00	Community Energy, Local Climate & Environmental Action
4	Meadowbrook Residents Assoc	This Project involves upgrading the community garden facilities to include storage, solar panels and water tank	€15,000.00	Community Energy, Local Climate & Environmental Action
5	Limerick Island Community Partners CLG	The project involves the development of a Community Bike Hub that will recycle/repurpose bikes and create a bikeshare scheme.	€19,999.00	Travel, Shopping & Recycling
6	Ballyhoura Rural Services CLG	This project aims to create a permaculture fruit and nut plantation in a social farm setting. This will help produce organic fruit and nuts to complement the range of organic produce already on the farm.	€18,077.00	Local Climate and Environmental Action
7	Kilfinane Tidy Towns	The project involves: - the planting of pocket forests of native trees and the planting of fruit trees and bushes beside a walking path in the local GAA grounds. - planting trees and a windbreak of woven willow (or similar plants) in a community orchard.	€18,727.50	Local Climate and Environmental Action
Medium Projects				
8	Rockhill Bruree Community Council CLG	This project involves: The delivery of a Community Garden Community Garden	€20,441.40	Local Climate and Environmental Action
9	Hospital Community Council CLG	This project involves: Installation of Solar	€30,000.00	Community Energy
10	Rathbane Golf Course	This project involves: Installation of Solar	€30,000.00	Community Energy
11	Newcastle West Mens Shed	This project involves: - Installation of Solar Panels - Building Upgrades (Roof) - Community Garden Upgrades	€28,395.00	Community Energy,Local Climate & Environmental Action
12	Ballingarry AFC	This project involves: - Solar Panels - Bike Parking	€29,400.00	Community Energy,Travel
13	St. Munchin's Community Centre	This project involves upgrades to a community allotment space to include a shed, bike stand and landscaping	€30,000.00	Travel, Local Climate & Environmental Action
14	Templeglantine Community Council	This project involves: Solar Project on Three separate buildings throughout the community	€43,247.50	Community Energy
15	Ballyhoura Development CLG 2	This project involves: Installing Food waste digester in 3 Community Kitchens (Small, Medium and Large)	€43,550.00	Food and Waste
16	Ash Management Group.	Supply and installation of PV solar panels and battery	€39,725.00	Community Energy
Large Projects				
17	Ballyneety Mens Shed	This project involves: Increase in community Garden spaces to include construction of new garden area, outdoor shelter and seating spaces, Dome	€67,000.00	Local Climate and Environmental Action

18	Cappamore Development Association	This project involves: - Solar Panels - Biodiversity Trail - Battery Powered Gardening tool	€50,361.30	Community Energy, Local Climate & Environmental Action
19	ADAPT	This project involves: - Installing Solar Panels - Biodiversity Garden - Geodome	€65,396.00	Community Energy, Local Climate & Environmental Action
20	Croom Community Development Association	This project involves: - The development of a community resilience hub that increases spaces for community groups and activities - This involves solar panels, battery and increasing Biodiversity	€70,532.94	Community Energy, Local Climate & Environmental Action
21	Tait House Community Enterprise	This project involves: The development of a Community Garden and all associated works	€77,742.96	Local Climate and Environmental Action
22	Kilmallock Tidy Towns	This project involves: The development of a Community Garden in a town centre space	€100,000.00	Local Climate and Environmental Action
23	CareBright CLG.	Supply and installation of PV solar panels and battery	€56,636.00	Community Energy

Longford County Council: Applications Recommended for Funding under the Community Climate Action Programme				€333,781.00
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Kenagh & District Development Association	Community garden space, purchase of polytunnel, nesting boxes and water harvesting/butts	€1,265.00	Local Climate and Environmental Action
2	Drumlish Tidy Towns	Planting edible native fruit trees etc. already planted over 50 trees and building on Phase 1 project.	€1,800.00	Food & Waste, Local Climate & Environmental Action
3	Lus na Greine FRC	Community garden space development, gardening equipment and associated materials and tools for diverse community, building on Phase 1 project.	€6,000.00	Food & Waste, Local Climate & Environmental Action
4	Ardagh Tidy Towns	Native heritage bush planting project. Cultural heritage element.	€7,000.00	Food & Waste, Local Climate & Environmental Action
5	Ballinamuck Cemetries Committee	Wildflower and native species planting, purchase of planters, solar power light installation	€6,946.00	Community Energy, Local Climate & Environmental Action
6	Kenagh Community Centre Association	External doors retrofit.	€8,915.00	Community Energy, Local Climate & Environmental Action
7	Rathcline GAA	Insulation retrofit and replacement with energy efficient heaters instead of using oil fired heating	€9,840.00	Community Energy, Local Climate & Environmental Action
8	Latin School Community Centre	Solar PV project and community orchard	€11,846.00	Community Energy, Local Climate & Environmental Action
9	Dromard GAA	Replacement of existing lights on astro turf pitch with lower powered LED for energy saving measures while also adhering to the Dark Skies strategy for wildlife. (biodiversity element).	€16,800.00	Community Energy, Local Climate & Environmental Action
10	County Longford Scuba Divers	Use of solar and battery for charging equipment in case of power outage 21,500. Replacing of existing lighting and heaters 3,500. Would allow the premises to become a resilience centre for the community.	€19,800.00	Community Energy, Local Climate & Environmental Action
11	Longford Tidy Towns	Native tree planting project	€9,988.00	Local Climate and Environmental Action
12	Ballymahon GAA.	Installation of a water station at GAA grounds	€5,781.00	Food and Waste, Shopping & Recycling Local Climate & Environmental Action
Medium Projects				
13	Kenagh GAA Club	Solar panels on clubhouse roof to reduce energy costs and carbon footprint.	€26,800.00	Community Energy
14	The Yard Hub	Solar PV and associated works and Biodiversity planting	€28,800.00	Community Energy, Local Climate & Environmental Action
15	Lough ReeSub Aqua Club	Solar PV & battery & fittings and associated fittings €28,482.83, Community Orchard €1784, lighting and heating upgrade and bike rack and repair station, (rack can be supplied by Active Travel)	€28,800.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action

16	Clonguish GAA & Newtownforbes TT	Solar PV + battery, €48,263, Rainwaterharvesting €12,755, Living Wall €68,603.25, first in Co Longford, Planters already insitu in clubs carpark, wish to continue same through the village, €3700. Replacement of christmas lights with LED €9400. Seeking new lights also for club, but not covered under fund. Received almost €63k in Phase 1.	€39,300.00	Community Energy, Local Climate & Environmental Action
17	County Longford Golf Club	Solar PV €53,345, Native tree and pollinator planting €3995, Water Butt €1016.	€42,800.00	Community Energy, Local Climate & Environmental Action
Large Projects				
18	EDI Centre	Solar PV, battery and associated equipment.	€61,300.00	Community Energy

Louth Applications Granted Funding under the Community Climate Action Programme				€651,374.78
	Group Name	**Project Overview**	**Funding Allocation**	Theme(s)
Small Projects				
1	Dundalk Young Irelands GFC	Install a water refill station at their clubs grounds	€4,052.85	Shopping and Recycling
2	St John of God North East Services	Purchase and install raised beds at their premises for the residents to plant pollinators.	€4,500.00	Local Climate and Environmental Action
3	Louth Beekeeper Association	Purchase an Apideas mating box, Apidea top feeder and breeding chamber, 3 beekeeper suits, hive complete premier 2 supers, Hornet trap, 2 Hornet suits and a solar wax melter.	€16,514.89	Local Climate and Environmental Action
4	Mattock Rangers CLG GAA Club	Installation of solar panels on their clubhouse, the CCAF will be used in conjunction with grant funding received from SEAI (€5,300) and SE Systems (€5,000) total project cost.	€13,650.00	Community Energy
5	Ardee St. Mary's GAA Club	Install solar panels on the community groups clubhouse to the value of €25,468.00, the community group are applying for an non domestic micro gen grant from SEAI (€8,400)	€17,068.00	Community Energy
Medium Projects				
6	Drogheda Homeless Aid CLG (DHA)	Replacement and upgrading of windows in their premises (currently awaiting confirmation from Pobal regarding Sate Aid query)	€27,700.00	Community Energy
7	Dundalk Tennis Club	Solar PV, Installation of polyurethane, replacing LED Lighting	€49,355.00	Community Energy
8	Dundalk Dog Rescue CLG	Install Solar Panels on the community groups premises, install a bike shelter and plant a variety of pollinators.	€23,074.00	Community Energy,Travel, Local Climate & Environmental Action
9	Oliver Plunketts GFC	LED Lighting upgrade and the purchase of two bikes stands	€26,414.90	Community Energy,Travel
10	Clan Na Gael GFC	Installation of Solar Panels and a bike shelter	€40,000.00	Community Energy,Travel
11	Naomh Mairtin CPG	Installing solar panels on their clubhouse, sensor lighting, an outdoor water refill station, outdoor segregated waste bins, native hedging, a gear swap shop station and bike shelter.	€44,116.48	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
12	Dromiskin Tidy Towns	SUDs Project	€49,644.90	Local Climate and Environmental Action
Large Projects				
13	Albion Rovers Football Club	LED Lighting Upgrade on their clubs grounds	€73,000.00	Community Energy
14	Muirhevnamor Community Gardens	Wildlife pond restoration, 2 compost toilets, biodiversity planting and wellbeing area, bike rack and bike repair pole.	€51,532.66	Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
15	Haggardstown & Blackrock Community Centre CLG	Install a rainwater harvesting system with included plumbing requirements, solar panel installation including batteries and a hot water diverter. A bike repair stand and pump, 2 EV charging stations, bike charging station with bollards and 2 second hand disability bikes.	€52,200.42	Community Energy,Travel, Shopping & Recycling

16	Stephenstown Pond Trust CLG	Community retrofit including LED lighting upgrade, energy efficient heaters, waters butts, bike shelter, water refill stations, planting of fruit bushes/apple trees/biodiversity planters, windows and door replacement and installation of Swift boxes.	€100,000.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
17	Kilkerley Emmets.	LED Lighting Upgrade	€58,550.68	Community & Energy

Mayo Applications Granted Funding under the Community Climate Action Programme				€678,568.33
	Group Name	**Project Overview**	**Funding Allocation**	
Small Projects				
1	Swift Conservation Mayo	Install Swift-specific nest boxes and attraction call systems at community and school sites to support breeding of this red-listed species.	€5,978.80	Local Climate and Environmental Action
2	Castlebar Tidy Towns	Build an artificial Sand Martin nesting wall (≈30 nest chambers) to provide secure breeding habitat for this amber-listed species within the town.	€7,000.00	Local Climate and Environmental Action
3	Ballina Karen community Green Garden	Install a polytunnel with steel foundation, four hydroponic propagation tables and three 1,000-litre rainwater tanks to expand climate-smart growing capacity.	€4,319.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
4	Westport Community Garden	Replace the damaged polytunnel cover and install recycled-plastic benches, picnic tables and materials to build an expanded composting facility.	€8,033.93	Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
5	Climate Action Louisburgh Locality	Equip local centres (Louisburgh, Killeen, Clare Island) with 1 home-power station each to strengthen local storm resilience and install one water-refill station at community hall to reduce single-use plastics.	€14,105.14	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
6	Killala Community Council (New Start) CLG	One public water-refill station, a polytunnel, a steel shed with concrete base, fruit trees and supports, site materials (hardcore/topsoil/gravel), garden tools, potting tables and raised beds, plus contingency.	€15,225.58	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
7	Parke & Crimlin Area Development Association	Create a biodiversity nature trail and community tree nursery using approved infrastructure: gates, locks, stone and hardcore, 4 polytunnels, irrigation systems, native trees, IBC tanks, pallets, boot baths, bins and a small electric chipper.	€16,523.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
8	Ballyhaunis Tidy Towns	Purchase an electric shredder and 36 V electric lawnmower for the community garden to support low-emission maintenance and on-site composting.	€770.00	Community Energy, Local Climate & Environmental Action
9	Straide Community Development Group CLG	Install 22 solar panels with inverter and a 10-kW battery storage system to cut energy use and provide storm-resilient backup power at the community centre.	€10,845.00	Community Energy, Food & Waste, Local Climate & Environmental Action
10	Aughagower Tidy Towns and Heritage Villages	Install a polytunnel, orchard planting, three rainwater-harvesting IBC tanks and a solar PV system for the community centre.	€11,942.30	Community Energy, Food & Waste, Local Climate & Environmental Action
11	Cliara Development Company DAC	Install one MyGug biodigester with associated electrical and plumbing works, plus minor contingency, to convert food waste into bio-fertiliser and biogas for community use.	€17,566.12	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
12	Kilmovee Shamrocks GAA Club	Fit 20 PV panels, a 6-kW inverter and 5 kW battery to power clubhouse lighting and equipment.	€11,300.00	Community Energy
Medium Projects				
13	Castlebar Rugby Club	Install 36 × 460 W PV panels, two batteries/inverters, and an automatic gateway changeover switch to power the clubhouse with clean energy and provide resilient backup.	€29,453.00	Community Energy
14	Westport United Community Soccer Club	Install solar e-bike charging, a solar-powered bike repair station, and a bike shelter to encourage active travel to the club.	€20,094.00	Community Energy,Travel

15	Comharchumann Forbartha cill tseadhna Teoranta	Install a roof-mounted solar PV array with battery, inverters/mounting/wiring, and energy monitoring, plus mini-generation connection works.	€28,562.98	Community Energy, Food & Waste, Local Climate & Environmental Action
16	Cong Tidy Towns	Install one public water-refill station in busy tourist spot, install a bike shelter & repair station, and solar compacting bins; set up the community garden (shed, timber/stone works, rainwater harvesting unit, planting materials and labour).	€28,689.02	Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
17	Breaffy GAA Club	De-commission gas and install electric heating, replace 40 internal/external lights with LED, fit a high-performance entrance door, and add a galvanised 6-bay bike rack.	€30,531.50	Community Energy,Travel, Shopping & Recycling
18	Aghamore Community Development CLG	Supply and erect a 50 kW PV system for the integrated community campus and plant c. 500 trees/shrubs to create habitat, shelter and local climate benefits.	€32,602.00	Community Energy,Local Climate & Environmental Action
19	Balla CRD	Install PV panels for Balla CRD and Balla GAA, with battery storage for CRD, LED lighting upgrade at the GAA clubhouse, and bicycle racks to support active travel.	€35,697.12	Community Energy,Travel, Local Climate & Environmental Action
Large Projects				
20	Castlebar Mitchels GAA Club	A focused active-travel intervention to encourage walking and cycling to the club: delivery of a cycle lane and pedestrian walkway.	€56,500.00	Travel
21	Accelerating Change Together	Public-realm greening and surface-water management to create a more climate-resilient, biodiversity-friendly space: a vertical garden, bespoke rainwater gardens, pollinator planter boxes, landscaping services, and the associated PSDP and PSCS services with contingency.	€52,603.82	Travel, Local Climate & Environmental Action
22	Tooreen Hurling Club	A multi-theme project combining clean energy, circular practices, biodiversity, water efficiency and active travel: solar panels for two community buildings, a polycarbonate greenhouse and garden shed, groundworks for a community garden with raised beds and ground beds and a composting area, 16 replacement shower heads, two bike racks, materials for a hurl-repair workshop, indoor and outdoor waste-segregation bins, materials to build a bug hotel, six Swift boxes with one Swift call system, and contingency.	€73,000.08	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
23	Moy Davitts GAA Club	An integrated upgrade to cut electricity use and embed circularity and active travel across the club: clubhouse and attic insulation, solar PV panels, full LED lighting upgrade, biodiversity garden/planting, efficiency-focused pitch maintenance equipment, gear-swap infrastructure, 16 planter barrels, a bike-repair stand with pump and five bicycle stands, and 250 reusable 600 ml branded club bottles.	€95,225.94	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
24	Crossmolina Deelrovers GAA.	The project seeks funding for the installation of a solar photovoltaic system comprising approximately 38–48 high-efficiency panels and for energy retrofit works to an adjoining building, including insulation upgrades to walls and ceilings, replacement of inefficient lighting with high-efficiency LED fixtures, and installation of new energy-efficient doors to support the extension of the existing gym facility.	€72,000.00	Community Energy

Meath Applications Granted Funding under the Community Climate Action Programme			€910,459.72	
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
	Small Projects			
1	Oldcastle Mens Shed	Wall and attic insulation for meeting room and workshop of the building	€5,000.00	Community Energy
2	Moynalty GFC	Fabric first retrofitting- Attic insulation, windows upgrade	€8,778.00	Community Energy
3	Coiste Halla Baile Ghibb	Suspended ceiling with poly enclosed insulation & new lights plus refitting fire sensors and assoc works and Cavity wall insualation	€13,196.43	Community Energy
4	Woodgrange Res Association	Community Garden, Tree Removal, Polytunnel, composters, garden shed and bee hotel.	€17,133.10	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
5	Athboy RFC	Solar & Battery, Bike Stand, Apple Trees and polinating plants, Compost Bins, Clothes rails.	€18,605.07	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
6	Sevitt Hall res Ass	Solar Lights, Replace trees (ash trees infected with ash dieback) for individual parkland specimen trees such as oak varities, beech, spanish chestnut and conifers such as wellintonia. Planting a mixed native hedge	€15,517.15	Community Energy, Local Climate & Environmental Action
7	Bohermeen Community Centre	Upgrade of Windows & Electric radiators, Water Refill station, Bike repair station,Solar battery backup units & gateway switch, Fruit Trees	€19,658.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
8	Meath Partnership	Rainwater harvesting system to support the community garden and green space for Mineview Housing estate.	€2,613.75	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
9	Ashbourne Tidy Towns	Bike Repair station at Ashbourne Community Centre, Colaiste De Lacy & Ashbourne United Football club	€6,720.00	Travel
10	Beachgrove Res Association	Planting fruit trees, Composter, Planting Native Tress	€2,791.16	Food and waste, local Climate & Environmental Action
11	Bettystown Tidy Towns	Buying electric vehicles instead of ICE vehicles, Buying a e-cargo bicycle in place of other haulage equipment	€12,569.30	Community & Energy, Travel
12	Silverlawns residents Association	Planting community garden, Composter, Planting tress and other plants	€2,158.00	Food and waste, local Climate & Environmental Action
Medium Projects				
13	Rathkenny Community Centre (Village Hall)	Solar panels on roof with grid gateway which can be used in power outages, LED external lighting upgrade and LED lights along walking track and base for bike rack, planting flower pots fed from rainwater harvested, replant native plants on scrubland, water refill station,	€43,000.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
14	CKCD Company (Deeprark Community hub)	Solar with battery storage, water refill, bike repair and stand	€41,500.00	Community Energy,Travel, Food & Waste
15	Torro United	Solar Panels, Outside Doors, Bike repair station, Water Fountain,	€24,908.50	Community Energy,Travel, Food & Waste
16	St. Vincents Ardcath	Pollinator Plants, Solar panels, bike pump	€38,725.00	Community Energy,Travel, Local Climate & Environmental Action
17	Senchalstown GFC	Solar, Bike repair, food composter	€23,583.00	Community Energy,Travel, Shopping & Recycling

18	Johnstown Tidy Towns	Transform the +10,000sqm Chestnut and Elm Estate Public Lawn, Johnstown Wood, into an affordable, climate-resilient, and biodiverse community space that supports national and local climate action goals.	€40,467.83	Food & Waste, Local Climate & Environmental Action
19	Dunderry GAA Club	Solar PV & Lighting , Water Refill	€30,857.00	Community Energy, Food & Waste, Shopping & Recycling
20	Drumree GAA	LED walkway lighting, Bike Repair station, Water Refill, mini forest- native trees and shrubs.	€48,600.94	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action
Large Projects				
21	Sonairte the National ecology Centre CLG	Bike Repair and Bike Parking, Water Refill Station, Heated Polytunnels and associated community garden works, attic insulation	€63,510.26	Community Energy,Travel, Food & Waste
22	Dunshaughlin & Royal Gaels GAA	Supply and installL LED floodlights on Pitch 2 to include removal of existing metal halide lights and disposal per WEEE Guidelines Supply native Irish shrubs for 100m hedgerow on club grounds, planting by club volunteers and Supply 6 no. water butts for clubhouse, installation by club volunteers	€67,000.00	Community Energy, Local Climate & Environmental Action, Shopping & Recycling
23	Kiltale Hurling & Camogie Club	Clubhouse retrofit with Solar,and replacement of external doors, attic & wall insulation. Composting bin, rainwater harvesting system and a Bike Maintenance system.	€65,809.65	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
24	Kilmainham GFC	Changing our current Floodlighting from antiquated and heavy usage bulbs to modern LED Floodlighting.To install Solar PV to our Clubhouse, Installation of Bike Racks,a bike repair centre.The introduction of a wild flower meadow and mini Orchard on our walkway.We want to create resilience hub. During the recent storms it became apparent that there was a need for a club in the community to become a resilience hub. We would like to purchase a electricity switch and battery packs. Clothing swap rails	€72,300.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
25	Ballinlough GFC & Community Centre	2 Thermo panels with 500IT Tank, 69 solar panels and inverter, 5 batteries and 1 EV charger, 5 large electrical smart radiators, ecofil water refill station, bike repair station and composter, rainwater harvesting tank.	€81,734.69	Community Energy,Travel, Food & Waste, Shopping & Recycling
26	Trim FRC	Retrofit of office and community drop in building., composting, clothes rail, shelving and storage boxes, Small orchard	€62,137.89	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
27	Moylagh GAA	Installing ground mounted solar and a storage battery, 2 EV charging points, Planting pollitating shrubs and flowers	€81,585.00	Community & Energy, Travel, Local Climate & Environmental Action

Monaghan Applications Granted Funding under the Community Climate Action Programme				€437,892.90
	Group Name	**Project Overview**	**Funding Allocation**	Theme(s)
Small Projects				
1	Knocknagrave Environmental Centre	The group is planning to install a solar photovoltaic (PV) system with battery storage unit.	€16,151.05	Community Energy
2	Inniskeen Community Centre	The group is planning to install a solar photovoltaic (PV) system with a battery storage unit.	€18,700.00	Community Energy
3	Ardaghey Community Centre Committee	The group is planning to install a solar photovoltaic (PV) system with battery storage unit.	€19,862.00	Community Energy
4	Monaghan Town Football Club	Monaghan Town Football Club proposes the installation of a dedicated bike rack at Belgium Park to promote active, safe, and sustainable travel for players, supporters, and all park users.	€201.01	Travel
5	ORAM GAA Club	The group is planning on installing push-button controls for the walking-track lighting and motion-sensor systems for indoor lighting. The group plan to install a public water refill station and plant Pollinator Friendly Planting perennials and shrubs.	€14,038.00	Community Energy, Local Climate & Environmental Action, Shopping & Recycling
6	Sean McDermotts GAA	The group is planning on installing push-button controls for the walking-track lighting and motion-sensor systems for indoor lighting. The group plan to install a public water refill station.	€15,182.50	Community Energy, Shopping & Recycling
7	Castleblayney Community Enterprise CLG	Castleblayney Community Enterprise CLG is leading an innovative, collaborative sustainability project in partnership with the local tidy towns group. The project combines two complementary elements: rainwater harvesting infrastructure in key locations in the town and a new solar PV system at the Community Hall.	€17,779.00	Community Energy, Local Climate & Environmental Action
8	Monaghan Tidy Towns	Group proposes to plant native monaghan apple trees and planting linear urban hedgerows.	€15,868.98	Food & Waste, Local Climate & Environmental Action
9	Drumhowan GFC	Drumhowan GFC proposes the installation of a public water refill station at the club's walking track.	€3,837.60	Shopping and Recycling
10	Carrickmacross Tidy Town	The group is planning to plant 2km of native whitethorn hedgerows across public areas in the Carrickmacross	€7,037.00	Local Climate and Environmental Action
11	Carrickmacross Emmets GFC	Carrickmacross Emmets GFC proposes the installation of two water bottle refill stations .	€11,070.00	Shopping and Recycling
12	Errigal Truagh Special Needs.	The group is planning to install a solar photovoltaic (PV) system	€15,950.00	Community & Energy, Local Climate & Environmental Action
Medium Projects				
13	Currin GFC	The group is planning to install a solar photovoltaic (PV) system with battery storage unit.	€24,402.50	Community Energy
14	Emyvale Leisure Centre Committee CLG	The group plan to install a solar panel system along with a storage battery. The group also plans to install bike racks.	€27,042.86	Community Energy,Travel
15	Magheracloone Mitchells GFC	The group plan to install a solar panel system along with a storage battery. The group also plans to install bike racks and a two water refill stations.	€41,320.50	Community Energy,Travel, Shopping & Recycling
16	Latton O'Rahilly GAA	The group is planning to install a solar photovoltaic (PV) system with battery storage unit.	€28,995.00	Community Energy
17	Killeevan Development Association	The group is planning to install a solar photovoltaic (PV) system with battery storage unit.	€29,964.00	Community Energy

18	Ballybay Pearse Brothers GAA	The group is planning to install a solar photovoltaic (PV) system with a battery storage unit and Stainless Steel Cylinder Water Tank.	€32,290.00	Community Energy
19	Corcaghan Community Centre.	Corcaghan Community Centre proposes the installation of solar panels on the roof of the centre and the replacement of existing poor quality wooden and unsealed	€29,942.90	
Large Projects				
20	St Marys Hall Commitee, Urbleshanny, Scotstown	The group is planning on installing a solar panel system and battery storage for the community centre. The group are also planning on refotitting the heating and lighting by installing Dimplex heaters and LED lighting.	€68,258.00	Community Energy

Offaly Applications Granted Funding under the Community Climate Action Programme				€501,831.35
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Rahan Hall Community Centre	Upgrading indoor lighting to LED.	€6,700.00	Community Energy
2	Pullough Residents' Development Association	Water Refill Station	€4,525.25	Shopping and Recycling
3	Tullamore Tidy Towns Association	2 Community Orchards/Wildflower garden & Tools.	€4,650.00	Local Climate and Environmental Action
4	Erin Rovers GAA	Water Refill Station	€5,879.40	Shopping and Recycling
5	Shinrone GAA Club	Water Refill Station	€7,500.00	Shopping and Recycling
6	Birr Tidy Towns CLG	Water Refill Station	€7,960.00	Shopping and Recycling
7	Lusmagh Development Association	Rainwater tank & solar pumping system for same.	€10,241.00	Local Climate and Environmental Action
8	Clonbullogue Development Association	Panels & Battery(s) & cargo bike	€14,316.00	Community Energy, Local Climate & Environmental Action
9	Kilclonfert GAA Club	Panels & Battery(s) & water refill station	€19,034.83	Community Energy, Shopping & Recycling
10	Geashill Tidy Towns Association (the figure now falls into the sml catagorie due the removal of elements of the project as they were deemed as ineligible. It has being left in this catagory as this is the catagory it came in under.)	Water Refill Station/ Bike Rack/ Bat Hats/ E-bike & Trailer	€16,598.85	Travel, Local Climate & Environmental Action, Shopping & Recycling
11	Edenderry Community Garden	Sheds,Compostors & Water tanks/butts	€13,200.00	Local Climate and Environmental Action
Medium Projects				
12	St. Ciaran's Development Clonfanlough CLG.	Solar & Battery(s)	€33,527.90	Community Energy
13	St Rynaghs Hurling Club	Solar & Battery(s)	€30,319.00	Community Energy
14	Shannonbridge GAA Club	Insulation, Solar Panels& Water Heater, Bike Rack, Pollinator Area	€22,109.22	Community Energy,Travel, Local Climate & Environmental Action
15	Daingean GAA Club.	Solar & Battery(s) & Water Refill Station	€58,141.80	Community Energy, Shopping & Recycling
16	Banagher United Soccer Club	Upgrade to LED, Solar & Battery(s), Insulation.	€41,850.50	Community Energy
17	Tullamore Harriers Athletic Club	Solar & Battery(s)	€45,623.60	Community Energy
18	Ballycumber GAA Club Community Centre.	Solar Panels & batteries	€31,796.00	Community Energy
Large Projects				
19	Ballinamere GAA Club	Flood Light upgrade.	€58,850.00	Community Energy
20	Rhode GAA Club	Flood Light upgrade.	€69,008.00	Community Energy

Roscommon County Council: Applications Recommended for Funding under the Community Climate Action Programme				€473,508.16
	Lead Partner	Project Overview	Funding Allocation	Theme(s)
Small Projects				
1	Roscommon Underwater Search and Recovery (RUSR) CLG (Roscommon Town)	Solar panels	€11,000.00	Community Energy
2	Castlerea Enterprise Hub	Solar panels and biodiversity actions	€11,931.85	Community Energy, Local Climate & Environmental Action
3	Tremane Hurling Club	Solars panels/bicycle rack/water refill station	€14,250.00	Community Energy,Travel, Shopping & Recycling
4	Ballagh Community Hub CLG	To provide a shared garden and polytunnel for growing local produce and supporting community composting.	€10,389.45	Food & Waste, Local Climate & Environmental Action
5	Ballyfarnon Tidy Towns	Native tree and shrubbery planting	€2,940.00	Local Climate and Environmental Action
lium Projects				
6	Boyle Celtic	Solar Panels	€21,000.00	Community Energy
7	County Roscommon Disability Group	Energy efficient heating system	€27,058.12	Community Energy
8	St Johns Community Centre	Solar Panels	€36,000.00	Community Energy
9	St Ronans Hall	Solar Panels	€42,657.96	Community Energy
10	Skyvalley Rovers Football Club	Installation of a heating system in the clubhouse, solar panels and insulation of the premises.	€43,672.96	Community Energy
rge Projects				
11	Roscommon Lions Community Youth Centre CLG (Roscommon Town)	Complete Energy Retrofit	€67,657.85	Community Energy
12	Boyle GAA	Solar panels/heaters/EV charger/biodiversity actions/cycle rack/water refill station/water butt	€53,100.88	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
13	St Faithleachs GAA	Solar panels/LED lighting/insulation/bicycle rack/heat pumps/biodiversity plants/	€60,340.84	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
14	Enterprise Kiltullagh CLG	Complete insulation/heating upgrade/windows & doors	€50,000.00	Community Energy
15	St. Joseph's GAA Club Kilteevan	Solar Panels Project	€21,508.25	Community Energy

Sligo County Council: Applications Recommended for Funding under the Community Climate Action Programme				€455,518.00
	Lead Partner	**Overview**	**Funding Recommendation**	**Theme(s)**

11	Sligo Folk Park	Planting Native Hedging	€8,730.00	Local Climate and Environmental
12	Sligo Tourist Development Association - Strandhill	Dunes Fencing	€13,250.00	Local Climate and Environmental
13	Calry St Joseph's Community Park	Windows & Doors Replacement, Heating Upgrade, Water Refill Stations	€14,642.00	Community Energy, Shopping & Recycling
14	Banada Abbey Hall	Drylining External Walls	€16,000.00	Community Energy,Local Climate & Environmental Action
15	Strandhill Community Park Limited (Strand Celtic)	Install Water Refill Station & Attic Insulation	€8,622.50	Community Energy, Shopping & Recycling
16	The Avalon Centre CLG	Attic Insulation, LED Lighting, Bike Stands & Window Upgrade	€15,390.00	Community Energy,Travel
17	Arrow Harps Football Club	Install Water Refill Station and Bike Shelter	€9,397.00	Travel, Shopping & Recycling
18	Nazareth Housing Association	Additional Works to Community Garden	€13,900.00	Local Climate and Environmental
19	Sligo Childrens Community Garden	Additional Works to Community Garden	€15,000.00	Local Climate and Environmental Action
20	Ballymote Gaa.	Waste Bins	€2,830.00	Community & Energy
21	Cliffoney Celtic.	Install solar PV	€13,188.00	Community & Energy
Medium Projects				
22	Sligo Rovers	Solar PV system	€25,111.00	Community Energy
23	Ballintogher Enterprise Centre	Cavity Wall Insulation & Replace 5 External Doors	€20,099.00	Community Energy
24	Sligo County Enterprise Fund CLG t/a SocoLab	Window & Door Replacement, Attic Insulation	€21,456.00	Community Energy
25	MCR Community Centre	Cavity Wall Insulation, Installation of 12 Triple Glazed Windows. LED Lighting Upgrades	€22,565.00	Community Energy
26	Geevagh Community Resources Ltd	Window & Door replacement, Insulation Ceiling/wall	€23,890.00	Community Energy

27	Sligo Rugby Footbal Club	Roof Insulation	€27,230.00	Community Energy
28	Dromore West Community Council CLG	Spray Foam Roof Insulation, Pumped Wall Insulation.	€37,000.00	Community Energy
29	Sligo Tidy Towns.	Foam Stream Unit - Weed Control	€34,500.00	Local Climate & Environmental Action

SDCC Applications Granted Funding under the Community Climate Action Programme				€1,202,599.87
	Group Name	**Project Overview**	**Funding Allocation**	**Theme(s)**
Small Projects				
1	Clondalkin Addiction Support Programme	Building Insulation	€9,040.50	Community Energy
2	Archways	LED Lights Retrofit	€15,719.00	Community Energy
3	Partas CLG	Solar PV	€16,476.00	Community Energy
4	Tallaght Community Arts	New Green Area (reclaiming from paved land)	€12,000.00	Local Climate and Environmental Action
Medium Projects				
5	The Bush Scout and Community Centre	Solar PV & Battery	€24,000.00	Community Energy
6	Esker Celtic Football Club	Solar PV & Battery	€24,164.00	Community Energy
7	Kilnamanagh AFC	Solar PV & Battery	€28,650.00	Community Energy
8	158th Castleview Scout Group	Solar PV & Battery Building Insulation & Glazing and Doors Retrofit	€38,435.65	Community Energy
9	The Grow Dome Project / Dome Grown CLG	Evaporative Water Cooling System & Vertical Hydroponic System for a Grow Dome, to support urban agriculture	€21,525.00	Community Energy, Food & Waste, Local Climate & Environmental Action
10	112th Knocklyon Scouts	Windows & Doors Retrofit Electric Radiators Native Planting to surrounds of Scout Den	€23,719.00	Community Energy, Local Climate & Environmental Action
11	Belgard Community Centre	Solar PV Bicycle Parking LED Lights Retrofit	€28,034.88	Community Energy,Travel
12	St Patricks Palmerstown Gaa, LGFA and Camogie	Solar PV & Battery Water Fountain	€31,807.00	Community Energy, Shopping & Recycling
13	FoodCloud	Kitchen Equipment to increase capacity to turn surplus food into meals	€36,132.57	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
14	Ballyfermot Sports Complex	Solar PV Bicycle Parking	€39,270.00	Community Energy,Travel
15	Greenhills Community Centre	Solar PV & Battery Rainwater Harvesting	€40,000.00	Community Energy, Shopping & Recycling
16	Round Towers GAA Club	Scooter Parking Dimmer Controls for LED Pitch Floodlighting Water Fountain Rainwater Harvesting Pond Compost Bin LED Sensor Lighting for a Walkway	€40,386.32	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
17	Ronanstown WCI	Solar PV & Battery Building Insulation	€44,999.60	Community Energy
18	Leinster Branch, Badminton Union of Ireland	Solar PV & Battery	€47,578.00	Community Energy
Large Projects				
19	St Annes GAA	LED Lights Retrofit	€33,027.18	Community Energy
20	168th St.Aengus Tymon North Scouts	Building Insulation	€80,392.05	Community Energy
21	Peamount United Football Club	LED Floodlight Retrofit	€88,990.50	Community Energy

22	Iona Community Centre	Solar PV & Battery Building Insulation Compost Bin Planting Bicycle Parking Water Butt	€67,633.07	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
23	ACE Enterprise Park	BioDigestor Motion Sensors on external lighting to reduce usage Solar PV for Community Hub & Training Hub Windows & Doors Retrofit	€91,984.93	Community Energy, Food & Waste
24	Ballyboden St Endas GAA	LED Floodlight Retrofit Water Fountain Bicycle Parking	€92,634.75	Community Energy,Travel, Shopping & Recycling
25	Thomas Davis GAA	Solar PV & Battery LED Floodlight Retrofit Tree Planting Project	€96,400.00	Community Energy,Local Climate & Environmental Action
26	Three Rock Rovers Hockey Club.	Windows & Doors. Recycling Centres	€70,791.54	Community & Energy, Shopping & Recycling
27	Rathcoole Community Council CLG.	Heat Pump, LED Lights	€58,808.33	Community & Energy

Tipperary Applications Granted Funding under the Community Climate Action Programme			€806,151.45	
	Group Name	**Project Overview**	**Funding Allocation**	Theme(s)
Small Projects				
1	Age Friendly Roscrea Clg	Installation of Solar panels and battery at Age Friendly Roscrea which offers daycare and meals on wheels (via EV) to older people in the Roscrea area.	€14,580.00	Community Energy
2	Portroe Community Hall	Installation of ceiling insulation and upgrade of lights including stage lights to LEDS and sensor lights where relevant in community centre in rural area.	€18,253.56	Community Energy
3	Kilcommon Community Council	Develop a community garden with polytunnel, raised beds and rainwater harvesting.	€5,026.36	Food & Waste, Local Climate & Environmental Action,
4	Drom and Inch GAA	Installation of Solar panels (9.8kw) battery 5.5kw, lighting upgrade, bicycle stand, planting native hedgerow at rural GAA Club	€17,425.00	Community Energy,Travel, Local Climate & Environmental Action
5	Ballina GAA Club	LED lighting upgrade in clubhouse, bike repair station, Bike rack, Water filler, Pollinator Planting area	€18,365.80	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
6	Aiseiri Cahir Clg	Waste Less, Cook More" project to reduce food waste and promote local food growing in addiction treatment centre and extending to wider community Specifically, this will involve equipment to reduce food waste in the kitchen and the development of a small community garden for the use of clients and the wider community.	€11,500.00	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
7	South Tipperary Arts Centre	Installation of LED and sensor lights and energy efficient heaters at STAC Chapel, Clonmel,	€7,523.60	Community Energy
8	Monsea Muintir na Tire.	Replacement of old lights with LEDs in Badminton and community Hall.	€3,802.25	Community & Energy
Medium Projects				
9	Citeaux Hall Committee	Installation of Solar panels 10kw, EV car charger, lighting upgrade in community centre which also offers remote working	€21,820.28	Community Energy
10	Lattin Cullen GAA Club	Replacement of windows and installation of LED lighting in clubhouse and pitch lighting	€22,087.95	Community Energy
11	Cashel Rugby Club	Installation of solar panels 25kw battery 20kw and EV charger	€22,385.60	Community Energy
12	Sean Treacy Pipe Band	Solar panel installation (10kw, + 10kw battery), Heating and lighting upgrades in band hall which is also open for other community activities	€23,920.12	Community Energy
13	Old Bridge Community Association	Installation of new windows and doors, solar panels and battery storage, LED Lighting and energy efficient electric heaters in house which is being upgraded to act as a community centre on the South bank of the River Suir	€24,009.03	Community Energy
14	Ballinderry SportsField	Comprehensive energy upgrade works involving air to water unit for hot water, battery pack for existing solar, external LED lighting for carpark and building, Insulation within clubhouse.	€33,500.00	Community Energy
15	Thurles Tennis Club	Creation of a high value biodiversity area and nature trail around new tennis and padel courts on leased lands at the TUS campus in Thurles	€37,500.00	Local Climate and Environmental Action
16	Clogheen Mens Shed	Window and Door replacement at Mens Shed building. Installation of water refill station for hikers and visitors to the village (in partnership with Rhododendron Walking Festival)	€22,380.75	Community Energy, Shopping & Recycling
17	Upperchurch Drombane GAA	Installation of Solar Panels, Bike Rack. Creating a Mini Forest along an existing buffer zone beside Owenbeg river by the GAA Pitch.	€22,450.00	Community Energy,Travel, Local Climate & Environmental Action

18	Clonmel Community Resource Centre Clg	Solar panels installation (17.6 kw, 10kw battery) and bike rack in multifunctional community resource centre offering a range of social services.	€25,120.00	Community Energy,Travel
19	Araglen Carnival	Install Solar panels 6.5kw, replacement of uninsulated door, install water refill station and bike rack at community field	€27,042.80	Community Energy,Travel, Shopping & Recycling
20	Knockavilla Donaskeigh Kickhams GAA	Installation of 10kw solar array and 5kw battery , LED lighting for astroturf and bike rack to reduce carbon emissions and promote active travel.	€28,354.30	Community Energy,Travel
21	Clonmel Town FC	Install energy efficient LED pitch lights, water dispenser to reduce single use plastic, plant biodiversity area (150m x 30m) on current waste ground embankment.	€33,000.00	Community Energy, Local Climate & Environmental Action, Shopping & Recycling
22	Cahir GAA Club	Multifacted climate action project involving windows, doors and insulation upgrade to clubhouse, installation of water dispenser, bike stands and biodiversity area	€35,003.15	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
23	Cloughjordan FC	Rainwater harvesting system including pump for pitch irrigation, Native Tree Planting.	€38,233.13	Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
24	St Michaels Community Network /	Installation of solar panels (40kw) and batteries (30kw), Rainwater circular system for separate toilet block serving community walkway.	€41,768.57	Community Energy,Food & Waste
25	Brewery Lane Theatre and Arts Centre Clg	The works will involve replacement of an existing minimally insulated roof in poor repair, with a well insulated replacement to reduce heat loss in a > 200 year old building housing a community theatre and arts centre.	€48,750.00	Community Energy
26	Toomevara GAA Club.	Solar panels (16kw + 10kw battery), native tree planting, water refilling station, bike rack, rainwater harvesting in rural village	€26,195.00	Community & Energy, Travel, Shopping & Recycling, Local Climate & Environmental Action
27	Puckane Tennis Club.	Solar 10kw, 18kw battery Outdoor water station, bike rack in rural tennis club.	€21,062.00	Community & Energy, Travel, Shopping & Recycling
28	Rosanna Lawn Tennis Club.	Solar (15Kw 16kw battery) Hedgrows planting, bike rack, rain water harvesting equipment.	€29,892.20	Community & Energy, Travel, Local Climate & Environmental Action
29	Newport Community Centre.	Solar panels 18kw Battery 30kw in multifunctional community centre in disadvantaged area.	€25,200.00	Community & Energy
Large Projects				
30	Silvermines Community Centre Clg	The works will include wall and ceiling insulation, replacement of outdated doors, and installation of modern windows in old community centre. These measures will enhance the building's energy efficiency, improve comfort	€100,000.00	Community Energy

	Waterford Applications Granted Funding under the Community Climate Action Programme			€631,218.95
	Community Group	**Project Overview**	**Funding Allocation**	**Theme(s)**
	Small Projects			
1	Celtic Squash Club	Celtic Squash Club is a small sporting organisation with a building in the heart of the City. Through the CCAP the group will upgrade their court lighting with 60 high-efficiency LEDs. Cost will cover materials and labour. Without the CCAP funding the cost associated with this energy saving measure would be beyond the financial capacity of the group. PPN member. The group estimate the project will be complete within 1 month.	€6,800.00	Community Energy
2	The Grange Residents Association	The Grange Residents Association was set up to manage the affairs of the three adjacent estates in the City (The Grange, Bramble Court and Rustic Road) which combined is made up of 97 houses. Since 2023, the Residents Association has been aiming to boost the biodiversity, climate resilience and reduce its carbon footprint through a number of initiatives. Their CCAP project will remove the non-native species (grislenia) in the open spaces and replant with hawthorn and other natives species. Costs will include the works to remove the old trees, purchase and replant new ones. They will also install a number of leaf mould systems to collect and compost the fallen leaves around the estate. The CCAP will cover the cost of the materials required to make the leaf mould systems and WCCC will offer free training for the residents on this measure. PPN member. Groups estimate the project will take 8 months to complete, tree planting will be time specific.	€2,415.00	Local Climate and Enviornmental Action
3	Little Nellie's Baby Bank via the Waterford Lismore Dioceses	Little Nellie's Baby Bank is a Waterford city charitable initiative providing essential baby and children's items free of charge to families experiencing financial hardship. The organisation operates as a reuse and redistribution hub for baby items, collecting donated baby goods, clothing, furniture and equipment, sorting and cleaning them, and placing them back into use. A high proportion of service users come from marginalised and economically disadvantaged communities, including members of the Traveller community, immigrant families, single mothers and households experiencing acute financial stress. The group is limited with space, therefore under the CCAP they will install a shed beside their main building as a separate space to process donations and support their growing circular economy initiative. The cost will cover the purchase of a shed.	€5,014.00	Shopping and Recycling
4	Passage East Hurling Club	Passage Hurling Club is situated in a rural village but serves a number of surrounding areas with over 600 members and the facilities are shared by Gailltir Football and Camogie. It also serves as a social hub with gym and the group are in the process of developing a walking track. Through the CCAP, the group will upgrade the lighting in the ball alley to LEDs. The alley is used daily by users and currently costs €3000 to operate ever year. Costs covered will include materials and labour. The group will also convert a 20x15 feet sloped space (currently stoney and uneven) into a biodiversity area which will be covered with wild primrose, foxglove, and heather. The CCAP will cover the landscaping costs – including materials and labour where necessary. PPN member. The group estimate this project will take 3 months.	€9,022.00	Community Energy, Local Climate & Environmental Action
5	Bonmahon GAA Club	Bonmahon GAA Club serves as a community hub in the rural coastal village of Bonmahon. Their soon to be fully redeveloped facilities (dressing room, meeting rooms, gym, astroturf and grass pitch) offer the wider community an enhanced space for social interaction and health and well being. License agreements in place with different groups for the use of the facilities. This project will see the installation of approximately 5kW of solar PV with a 3kW battery*. The CCAP will cover the solar costs (materials and installation). Bike parking will be installed to encourage active travel - materials and installation costs will be covered by the CCAP. The CCAP will also cover the costs of the biodiversity planting and wildlife boxes around the perimeter and entrance of the site. The group will also setup a pre-loved sports kit programme, whereby families can donate no longer needed sport equipment such as hurleys, helmets, sliotars, footballs, boots etc. and allow others in the community to use them. This will require purchase of storage equipment, covered under the CCAP. PPN member. The group estimate the project will take 5-6 months to completed.	€12,910.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling

6	Dunmore East F.C.	Dunmore East FC is a community football club in the seaside village of Dunmore East, promoting participation, teamwork and inclusion for all ages. Their grounds also host the Dunmore East Men's Shed, where men share skills, work on projects and socialise to support physical, mental and social wellbeing. This is a joint project between both groups. As part of the project for the CCAP, the group will install approximately 4.5kW solar pv system and 2kW battery*. All costs (material and installation) for the solar PV will be covered by the CCAP. Bike parking will be installed to encourage active travel - materials and installation costs will be covered by the CCAP. Biodiversity planting will be carried around the perimeter of the site. CCAP will cover the planting which includes native trees, shrubs, other pollinator planting, nesting boxes, bee and bug hotels, and signage to highlight these measures to their users. PPN members. Groups estimate the project will take 8 months to complete, tree planting will be time specific.	€13,675.00	Community Energy,Travel, Local Climate & Environmental Action
7	Johnville FC	Johnville FC is grassroots football club with 160 members of all ages within an economically disadvantaged part of the City. Outside of scheduled training times, the astroturf pith is available for community use, casual football games, group activities and is used by more than 150 people per week. The group also collaborates with the Waterford Sports Partnership on mental and physical wellbeing programmes. A major component of their project is to upgrade the inefficient and high energy consumption halide pitch lighting with new LED lights on their astroturf pitch - costs include materials and labour. Bike parking will be installed to promote active travel amongst its members and make use of the extensive cycle paths coming to the Club - costs include material with the group providing labour. The site has considerable grass areas around the pitches and parking. These underutilised spaces will be developed with 40m of native hedge planting (hawthorn and other natives species). Taking a recommendation from the All-Ireland Pollinator guide for sport clubs, they will plant "Goldstrum" around their parking spaces as it matches their club colours. Bug hotels will also be installed. All planting and biodiversity costs including signage will be covered by the CCAP. PPN member. The groups estimate the project will take 8 months, tree planting time dependent.	€14,824.00	Community Energy,Travel, Local Climate & Environmental Action
8	Tourin Community Company Ltd	Tourin Community Company Ltd is a voluntary non-for-profit community group. This group are aiming to develop and maintain the existing facilities (large hall with meeting space and sports ground) in the small rural village of Tourin. Their CCAP project will upgrade the internal florescent tube lighting with LEDs. Cost will cover the new bulbs and installation costs. Bike parking will be installed to encourage active travel - materials and installation costs will be covered by the CCAP. Biodiversity planting will be carried around their car park and other green spaces. CCAP will cover the planting which includes native trees, shrub, planters and other pollinator planting. PPN member. Groups estimate the project will take 8 months to complete, tree planting will be time specific.	€14,832.00	Community Energy,Travel, Local Climate & Environmental Action
9	Portlaw GAA, Camogie & Ladies Football Club	Portlaw GAA, Camogie and Ladies Football Club is a not-for-profit, volunteer-led community sports organisation providing Gaelic games for people of all ages in Portlaw and the surrounding area. The Club manages shared community facilities including a community walking track, gym and meeting spaces that are used daily by local residents and community groups. As part of this project the group plan to install approximately 9kW of solar PV and a 9kW battery*, which will cover 61% of the Club's energy needs annually. The solar material and installation costs covered by the CCAP. Cost will also cover the installation of a bicycle parking dock by the walking track to encourage members to cycle, not drive. A biodiversity corner will be created on their grounds with native tree planted such as hawthorn, holly, rowan, and other pollinator plants. They will also construct bug hotels from donated old hurleys and other suitable materials. The CCAP will cover the planting, signage and material costs of the biodiversity corner. PPN member. Group estimate the project will take 8 months, tree planting time dependent.	€16,074.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
10	Tournore Court Residents Association	Tornore Court Residents Association is an award winning group based in Dungarvan with extensive experience delivering on local community climate action projects (including biodiversity planting, book libraries, party reuse kit hire and more). This small scale project will see the group create a Dispersed Urban (Fruits / Nuts) Orchard - in Abbeyside / Dungarvan area. The CCAP will cover the planting costs, including stakes etc. PPN member. Group estimate the project will take 7 months, planting time dependent.	€2,514.00	Food & Waste, Local Climate & Environmental Action

11	Tramore Tidy Towns	Tramore Tidy Towns is a voluntary group who focus on cleanliness, environmental stewardship, and sustainability. Through the CCAP, this group will install six planters with pollinator plants in a thoroughfare which leads to a sensory garden, the beach and local swimming pool. Their chosen planting is recommended by the All-Ireland Pollinator guide. CCAP will cover the cost of the planters and planting. They require water to maintain their planted spaces throughout Tramore, which can be an issue during dry spells in the summer. They will install three 500L-1300L water butts with filters and diverters for rainwater harvesting in separate locations around Tramore. They will also purchase a garden water trolley which will allow them transport water from the fixed water butts to each planting location. The CCAP will cover the costs of the water butts and trolley. This project will also install bike parking at the Tramore picnic area. This location is adjacent to Tramore AFC and a busy Apple Green. The group maintain this green space which has a number of picnic benches, some car parking and the area is used by locals and tourists throughout the year. This large costal suburb which is 15 minutes from the City, is a focus of WCCC's Active Travel Team, so this group's additional bike parking is inline with WCCC's low carbon transport aims for the area. The CCAP will cover the purchase of the frame and installation costs for the bike parking. PPN member. Group estimate this project will take 12 months.	€16,950.00	Travel, Local Climate & Environmental Action
12	Carriglea Community Project.	Removal of heliotrope (invasive species) from the woodland replanting, Erection of Bird Boxes, Owl Boxes, and Bee hotels, Wildflower section and Replanting of area which has been cleared of dead Ash trees	€7,690.00	Local Climate & Environmental Action
Medium Projects				
13	Order of Malta	This is a joint project between three adjoining groups in the large coastal town of Tramore, namely the Order of Malta, Meals on Wheels and Lafcadio Hearn Japanese Gardens. Two of the buildings will address their energy use. Order of Malta will install cavity wall and attic insulation and dry lining of two internal walls between the garage and internal section. Order of Malta will upgrade their windows and doors, and Meals and Wheels will upgrade their external door. The CCAP will cover all material and labour costs for these energy measures in both buildings. The CCAP will cover the cost of purchasing a bike stand for outside the Order of Malta building, with the group covering the installation cost. Lafcadio Hearn Japanese Gardens already has water butts installed so through the CCAP they will purchase a rainwater irrigation pump to better utilise this collected water around their garden. PPN members. Group estimate the project will take 18 months.	€49,981.00	Community Energy,Travel, Local Climate & Environmental Action
14	County Waterford Beekeepers Association	County Waterford Beekeepers Association seeks to improve the sustainability, climate resilience, and functionality of their off-grid beekeeping and community education site. This project will see the group replace their current container which stores their beekeeping suits and equipment. Their current unit is no longer weatherproof and is allowing water ingress, resulting in damp conditions and mildew damage to essential protective clothing. Without proper hygiene the hives and honey are liable to disease and therefore wastage. The new container will extend the lifespan of equipment and reduce waste (food and materials). The CCAP will cover the cost of the container, which will be second-hand. The group currently use a diesel generator for power onsite. To move away from fossil fuels they will install a 5kW off-grid solar pv system and 3kW battery*. The CCAP will cover all solar costs, including materials and insulation. To address their transport emissions, they are looking to reduce/ eliminate the reasons members must regularly travel. The purchase of automatic hive monitoring equipment through the CCAP on at least one beehive will reduce the number of physical site visits required to the Apiary, which is an rural location. By remotely monitoring the hives, they will not need to drive to the Apiary, thereby reducing at least three to four trips every week during their busiest time. Improved monitoring will also help prevent swarming, reducing honey loss and the need for professional call-outs to recover swarms from nearby properties. There are currently no toilet facilities on site. Users must drive into Dungarvan to access facilities, resulting in an unnecessary round trip of approximately 8km per visit. The CCAP will cover the cost to purchase and install a basic composting toilet, thereby eliminating these journeys and providing a low-impact, water-free sanitation solution suitable for a remote location. CCAP costs will also include a rainwater harvester. PPN member. Group estimate the project will take 12 months	€23,667.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
15	Brill Family Resource Centre	Brill FRC is a Family Resource Centre for the Ballybeg/Kilbarry/Lacken, Larchville, Lisduggan and Manor St John in the City. It provides a wide range of services and supports to children, adults and family in the communities it serves. Brill FRC's Bia Food Club project will have two components - a Social Supermarket and Food Education programme. The combination of the training programme and supermarket is so that families will have access to food that may have been unnecessarily discarded, but will also have the skills to utilise these ingredients fully, minimising food waste. The CCAP will cover the capital costs associated with the Social Supermarket, specifically the storage container including the electrical works, two fridges, one freezer, tables and shelving. The Food Education Programme is being funded via Brill FRC. The capital costs necessary to undertake this are front loaded but are a long-term investment and a very practical way to reduce waste with a highly visible project. PPN member. Group estimate the project will take 12 months.	€25,468.00	Food & Waste, Shopping & Recycling

16	Modeligo Community Centre & Sportsfield	Modeligo Community Centre & Sportfield provides a range of services in West Waterford, with their facilities including a community centre for events and fitness classes, grass pitch, astroturf pitch, a ball wall, and a 120-seater spectator stand. This project will see the installation of approximately 10kW of solar PV and a 10kW battery*. The CCAP will cover the solar costs (materials and installation). CCAP will also cover the costs of the planting of native hedging and installation of bike parking. PPN member. The group estimate the project will take 6 months, dependent on planting times.	€25,717.00	Community Energy,Travel, Local Climate & Environmental Action,
17	KGK (Knockanore Glendine Kilwatermoy) Community Development Group	KGK (Knockanore Glendine Kilwatermoy) Community Development Group represent the subgroup members and residents in the areas of Knockanore, Glendine and Kilwatermoy, in rural West Waterford. The company is a CLG and is representative body for seven local groups. In 2023, an old unused HSE centre was sold to WCCC and then offered to KGK on a long-term lease. Following a community survey, the group are now in the process of repurposing this long-idle building into a functional asset, contributing to a low-carbon, sustainable community as a versatile Community Social Centre. By serving as a local Social Centre, it will actively combat rural isolation and help attract new residents. The Social Centre is designed to be a central hub, hosting a community cafe, space for group gatherings, children's birthday parties, and crucial support services like a breakfast club and after-school club for school children. Through the CCAP, the group will address the building's energy efficiency upgrades. This will include upgrading the three external and three internal doors and upgrading three windows. The walls and attic will be insulated and the heating system upgraded. The costs will cover all materials and labour of the energy works. Bike parking will be installed to encourage active travel - materials and installation costs will be covered by the CCAP. A significant biodiversity project will be carried out around the building, which currently just comprises of cut grass. This will include native tree planting, a rain garden, pollinator planting, fruit trees, raised beds, bird/ bug habitats and minimal signage. The CCAP will cover the costs of this work. Its location adjacent to the school and sports centre is ideal for a book and toy library and sports gear and uniform swapping station, a feature that will eliminate the need for 28km round trips to the nearest facilities. The CCAP will cover the costs of the shelving and display racks for this component. PPN member. The group estimate the project will take 18 months.	€30,596.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
18	Ballyduff Comunity Centre Development Clg	This project will see the upgrade of Ballyduff Community Centre, which is a space used by a number of community groups throughout the day and evenings. There are no other community buildings in the area. The original hall dates back to 1856 with a further extension put on in the late 1990s. Through the advice of an energy audit the group will fit "wraparound" insulation on the walls and roof of the toilet block. The CCAP will cover all costs of this fabric upgrade. All internal lighting will be upgraded to LEDs, materials and labour covered by the CCAP. This project will see the installation of approximately 4.5kW of solar PV and a 4kW battery*. The CCAP will cover the solar costs (materials and installation). The space around the building is fully concreted so to "green" the space the group will install pollinator planters and rainwater harvesters. The CCAP will cover these material costs. PPN member. The group estimate the project will take 3 months.	€38,914.00	Community Energy, Local Climate & Environmental Action
19	Ballymacarbry TidyTowns	This is a joint project in the rural village of Ballymacarbry between the Tidy Towns Group and the Fourmilewater Hurling Club. This project will see the installation of a living bus shelter at one of the bus stops in the village which currently only has a pole. The bus route which operates through the village (356 bus route from Ballinroad to Clonmel) was used by ~38,000 passengers in the period May 2024 to May 2025. In 2025 Ballymacarbry Tidy Towns completed a Place Standard Survey in conjunction with WCCC and Waterford PPN. One of the main items raised by that survey was the need for bus shelters along that route - particularly as the bus stops in the village are adjacent to Cluain Cairbre and many of the bus service users live there. The CCAP will cover the costs of the shelter. Bike parking will be installed at the Hurling Club – material and installation costs will be covered by the CCAP. The Hurling Club also need to address a right of way (250metres long x 5metres wide) along their pitch. The adjacent field is owned by a farmer (silage / cattle) who uses the route regularly to access his herd. Currently the right of way is grass, which is regularly compacted and water pooled because of the heavy agricultural machinery throughout all seasons. As part of the CCAP, a grass-grid access route will be installed. The group have chosen this sustainable design over concrete, so they can enable rain infiltration, reduce heat effects, and preserve green space which is critical due to the rural location of the facility. The Club will also plant 90m of native Irish hedging along its perimeter with a mix of whitethorn, holly, hazel, guelder rose, blackthorn, and Rosa rugosa. PPN members. Groups estimate the project will take 18 months to complete.	€49,979.00	Travel, Local Climate & Environmental Action
Large Projects				

20	Clashmore Kinsalebeg GAA	Clashmore Kinsalebeg GAA acts as a community hub for many activities in their rural village with their grounds open 24/7, community gym, clubhouse used by Homework Club each afternoon and meetings rooms used weekly by Mens Shed, Mother & Toddler Group, Pilates, table tennis and ad hoc classes. Following an energy audit, the group will undertake a number of energy efficiency measures as part of their project. They will upgrade their windows and external doors. They will insulate the knee walls and attic space. Storage heaters will be replaced with electric heaters, and complimentarily they will install 6.3kW solar pv and 15kW battery*. The CCAP will cover all material and labour costs of these four energy measures. To address their issue of run off from fields higher up, the group will create a rain garden and swale to absorb flowing water along the roadway leading to their site. The rain garden will be planted with native plants and shrubs suitable to the project. Any excess water will be diverted to a swale which will be positioned behind the goals and the rain garden will be planted with native plants and shrubs suitable for water control. The two elements combined will substantially reduce the amount of rainwater flowing onto their grounds and importantly the amount entering the public drainage system. The CCAP will cover the material and labour cost of raingarden/ swale. PPN member. The group estimate the project will take 13 months.	€57,625.00	Community Energy, Local Climate & Environmental Action
21	Brickey Rangers GAA CLUB	Brickey Rangers GAA Club is a sports club and community hub with a gym and meeting space. Other community groups use the space but unfortunately many can now only use the space in summer as the building is too damp and cold during the other seasons. To ensure their building is fit for community use, the project will upgrade the fabric of the building. The CCAP will cover the material and labour costs to upgrade the external windows and doors and the drylining and metal stud insulation. The group will also upgrade all internal lighting to LEDs and the heating system will be updated with new radiators and a heat pump. All material and labour costs covered by the CCAP, including any necessary electrical upgrades. CCAP will also cover the costs of planting a mini-orchard on the site and installing bird and bat boxes. Bike parking will be installed to encourage active travel - materials and installation costs will be covered by the CCAP. The group will also setup a pre-loved sports kit programme, whereby families can donate GAA equipment such as hurleys, helmets, used football shoes etc. and allow others to use them. This will require purchase of storage equipment, covered under the CCAP. PPN member. The group estimate the project will take 12 months.	€71,564.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
22	Sliabh gCua - St. Mary's GAA Club	This is a joint project between Sliabh gCua St. Mary's GAA Club and Touraneena Community Centre. Both groups are addressing their buildings' energy and biodiversity through the CCAP. The GAA Club will install roof and wall insulation and both the GAA Club and Community Centre will upgrade their old windows and doors. The Community Centre will install 10kW solar pv and a 10kW solar battery*. The CCAP will cover all material and labour costs of these three energy measures. CCAP will also cover the installation of bike parking at the GAA Club. Both groups will plant native tress and pollinator plants on their grounds. All planting costs covered by the CCAP. PPN members. Group estimate the project will take 17 months.	€75,459.00	Community Energy,Travel, Local Climate & Environmental Action
	Waterford GAA - Fraher Field.	Upgrade lights to LEDs, Insulation / draft-proofing at entrances and 20kW solar pv and 10kW battery, Bike parking, Composter, Colour coded bins, Reusable catering materials, Native planting and rainwater harvester	€59,528.95	Community Energy, Local Climate & Environmental

Westmeath Applications Granted Funding under the Community Climate Action Programme				€542,378.89
	Group Name	**Project Overview**	**Funding Allocation**	Theme(s)
Small Projects				
1	Moate Railway Group	Bat Boxes and Inset Houses	€1,000.00	Local Climate and Enviornmental Action
2	Streamstown Tidy Village	Bat Boxes and Inset Houses	€1,199.70	Local Climate and Enviornmental Action
3	Mullingar Sub Aqua Group	PV Panels	€15,000.00	Community Energy, Local Climate & Environmental Action
4	Heartlands Pride Athlone	Textile Repair Workshop and Upcycling Workshop	€2,900.00	Food & Waste, Shopping & Recycling
Medium Projects				
5	Caulry GAA Club	Installling PV panels and Water Refill stations on existing community used building and grounds	€26,744.30	Community Energy, Local Climate & Environmental Action
6	Mullingar Rugby Football Club	Installation of PV Panels	€30,000.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
7	Lough Ree Yacht Club	Installling PV panels and Water Refill stations on existing community used building and grounds	€33,752.44	Community Energy, Local Climate & Environmental Action
8	Kinnegad Juniors AFC	Installling PV panels and Water Refill stations on existing community used building and grounds	€36,988.08	Community Energy, Local Climate & Environmental Action
9	Mullingar Shamrocks GAA	Install Solar PV Panels. Installation of Bicycle Stand and Shelter as well as Bicycle Repair Station. Rainwater Harvester	€27,918.54	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
10	St. Loman's GAA Club	LED replacements , Solar PV, Retrofit of Windows and Doors and Insulation. Bike Racks	€44,451.24	Community Energy,Travel, Local Climate & Environmental Action
Large Projects				
11	Athlone GAA	LED replacements at multi purpose area (old Tennis Court) doing away with need for diesel generator, Water fountain and refill station, Bicycle rack and shelter to help reduce traffic congestsion in Athlone Town.	€52,580.13	Community Energy,Travel, Local Climate & Environmental Action,
12	Ballinahown Community Development	Install Solar PV Panels. Installation of bike repair station, Clothes Swap Shop, composter tumbler, mulcher, community wetlands	€55,283.03	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
13	Streete Parish Park Community Centre	PV installation , LED floodlight replacements, Biodiversity measures - inlcuding polytunnel and Rainwater Harvesting, Repair Café, Water Refill Stations.	€57,500.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
14	Milltownpass GAA & LGFA	Retrofitting Windows and Doors, insulation, Install Bicycle Stands, Install a biodiversity Corridor/Trail and install Bat and bird boxes as well as bences from recycled materials, establish a shared tool library in a solar panelled shed, install water refill stations.	€92,000.00	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling

15	Garrycastle GAA Club.	Solar PV and battery, Water refill station, Additional Bike Rack, Commercial Composter, expansion of community rememberance garden with managed beehives and native wildflower mixes.	€65,061.43	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling

Wexford County Council: Applications Recommended for Funding under the Community Climate Action Programme				€746,066.50
	Lead Partner	Overview	Funding Allocated	Theme(s)
Small Projects				
1	Rathnure St. Annes GAA Club	Theme 1: Building Retrofit: • upgrade 9 x windows and 1 x door to uPVC	€9,875.00	Community Energy
2	Terrerath Community Centre	Theme 2: Encourage Active Travel to Community Centre & Local Pitch: • install bike racks and bike repair station on grounds of the community centre. Theme 5: Increase the Biodiversity at the Community Centre Grounds: • install planters and native pollinator plants	€13,330.00	Travel, Local Climate & Environmental Action,
3	May Byrne Community House	Theme 1: Improve Energy Efficiency in Cabin: • upgrade electrics in cabin & install LED lighting and energy efficient heaters Theme 2: Encourage Active Travel to Community House: • install bike racks Theme 5: Increase Biodiversity at Community House: • purchase tiered planters and plant with pollinator friendly flowers	€6,315.00	Community Energy,Travel, Local Climate & Environmental Action
4	Rathgarogue-Cushinstown GAA Club	Theme 1: Solar Energy: • install solar PV panels Theme 2: Encourage Active Travel to Club: • install bike racks Theme 5: Increase Biodiversity on Club Grounds: • plant native trees	€8,550.00	Community Energy,Travel, Local Climate & Environmental Action
5	Horeswood GAA	Theme 1: Upgrade Lighting in Dressing Rooms: • upgrade the remaining lighting to LED Theme 4: Encourage the Reduction of Single Use Plastics: • install water filling station	€9,695.00	Community Energy, Shopping & Recycling
6	Kilrush Camogie Club	Theme 1: Upgrade Dressing Room & Training Pitch Lighting: • upgrade lighting in dressing rooms to LED • purchase portable LED spot lights for use on the front training pitch Theme 4: Encourage Reduction in Single Use Plastics: • install water fill station	€11,405.00	Community Energy, Shopping & Recycling
7	Duncannon Seaview FC	Theme 1: Solar Energy: • intall solar PV panels & battery Theme 2: Ecourage Active Travel to Club: • install bike racks	€12,600.00	Community Energy,Travel
8	St. Aidan's Community Hall & Parc na Gabhar	A Joint project. Theme 1: Solar Energy in the Community Hall: • install solar PV panels & battery Theme 3: Begin a Community Garden: • install raised beds for planting of fruit & vegetables	€13,450.00	Community Energy, Food & Waste
9	St. Mary's Day Care	Theme 1: Retrofit of Building to Reduce Heat Loss: • close in the overhang area over the front doors to create a draft lobby and reduce heat loss when eldery visitors are being assisted into the building. Theme 5: Increase the biodiveristy on the grounds: • planting of native trees.	€16,660.00	Community Energy, Local Climate & Environmental Action
10	St. Mogues GAA	Theme 1: Solar Energy: • install solar PV panels & battery Theme 4: Encourage Reduction in Single Use Plastics and Reuse of Gear & Equipment: • install a water filling station and storage for a club swap shop	€17,650.00	Community Energy, Shopping & Recycling
11	St. Brigids Blackwater GAA Club	Theme 1: Solar Energy: • install solar PV panels & battery Theme 2: Encourage Active Travel to the Club: • install bike racks using reclaimed bicycle wheels Theme 4: Encourage Reuse of Gear & Equipment: • install swap shop storage Theme 5: Increase Biodiversity on Club Grounds: • planting of native irish apple trees	€19,395.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
Medium Projects				
12	Killanne Church Select Vestry	Theme 1: Retrofit Community Hall: • Upgrade the hall's windows and doors, install energy efficient electric heaters, upgrade lighting to LED Theme 2: Provide a Park 'n Ride: • install park 'n ride signage and bus timetable for 2 dedicated parking spaces in carpark of community hall for local bus stop servicing main	€22,330.00	Community Energy,Travel, Local Climate & Environmental Action
13	Castletown Liam Mellows GAA	Theme 1: Decommission Diesel Generator: • upgrade the internal lighting to LEDs & associated ESB connection which will enable the decommissioning of the diesel generator. Theme 2: Encourage Active Travel to the Club: • install bike racks Theme 4: Reduse use of Single Use Items: • purchase of crockery & utensils for use at meetings / events at the clubhouse	€24,500.00	Community Energy,Travel, Shopping & Recycling
14	Wexford Harbour Boat & Tennis Club	Theme 1: Energy Upgrades: • install solar PV panels & a battery Theme 2: Encourage Active Travel to the Club: • intall bike rack Theme 4: Encourage a Circular Economy Amongst Members: Purchase of swap shop racks	€30,000.00	Community Energy,Travel, Shopping & Recycling

15	Reachability Bellefield	Theme 1: Energy Upgrades: • upgrade lighting in preschool to LED with motion sensors. Install efficient electric heaters to replace gas heating system and upgrade the lighting to LED with motion sensors in the café. Theme 3: Reduce wase of rainwater: Install 250ltr water butt and associated connections to harvest rainwater.	€31,200.00	Community Energy, Food & Waste
16	Curracloe United AFC	Theme 1: Solar Energy: • install solar PV panels & battery, install 500ltr immersion system to work off the solar. Theme 2: Increase the # of EV Charging Points in the Community & Encourage Active Travel to the Club: • install 2 x EV chargers and bike racks.	€31,480.00	Community Energy,Travel, Local Climate & Environmental Action
17	The Rock Community Social Club	Theme 1: Solar Energy & Retrofit: • install solar PV panels, replace 8 x windows with double glazing, install external wall insulation Theme 2: Encourage Active Travel: • install bike racks at the centre Theme 5: Pollinator Project: • install raised beds and associated plants & tools	€37,260.00	Community Energy,Travel, Local Climate & Environmental Action
18	Monageer / Boolavogue GAA Club	Theme 1: Energy Upgrades: install solar PV panels and battery • upgrade lighting to LED Theme 2: Encourage Active Travel to the Club: • install bike rack Theme 4: Encourage a Circular Economy & Reduce Use of Single Use Plastics: • install swap shop shelving • install water filling station	€48,785.00	Community Energy,Travel, Shopping & Recycling
Large Projects				
19	Kilrane Rosslare Harbour Community Centre	Theme 1: Retrofit community centre: • attic insulation • windows & doors upgrades • air to air heat pump • solar PV panels • LED lighting upgrades Theme 2: Introduce Community Bicycle Parking: • bike rack Theme	€65,275.00	Community Energy,Travel, Local Climate & Environmental Action, Shopping & Recycling
20	Murrintown Community Centre CLG & Friends of Rathaspeck Church	Theme 1: Retrofit community centre: • cavity wall insulation • LED lighting upgrades • air to air heat pump • air to water heat pump • solar PV panels Theme 3: Introduce a Community Juice Facility: • apple press & apple crusher Theme 4: Introduce a Community Swap Shop: • storage containers. Encourage Reduction in Single Use Plastics: • water filling station Theme 5: Planting of Apple Trees and Plants in Planter Boxes	€72,105.00	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
21	Clongeen Community Development Group & Foulksmills Tidy Towns	Joint Project with Foulksmills Tidy Towns: Theme 1: Create a Community Climate Resilient Hub at Clongeen Community Centre: • installation of solar PV panels, battery & changeover switch. • install EV charger • installation of solar PV panels & battery in the Foulksmills Tidy Towns cabin. Upgrade the Lighting on GAA Pitch: • upgrade to LED lighting Theme 2: Encourage Active Travel in the Village: • install bike racks at the National Scool, GAA grounds & Foulksmills Park. Theme 3: Commence a Berry & Veg Garden: • purchase of raised bed materials & plants. Theme 4: Introduce a Community Repair Hub: • sewing machines & embroidery machines & associated materials. Introduce a Community Swap Shop: • purchase of storage boxes.	€76,460.00	Community Energy,Travel, Food & Waste, Shopping & Recycling
22	HWH Bunclody GAA Club	Theme 1: Decommission Diesel Generator: • upgrade electricity supply to 3 phase, upgrade pitch lighting to LED which will enable the decommissioning of the diesel generator and associated ground works. Theme 2: Encourage Active Travel to the Club: • install bike racks Theme 4: Encourage the Reduction of Single-Use Plastic Bottles: • install 3 drinking water taps throughout the club grounds. Introducde a Club Swap Shop: • install storage containers for club gear & equipment	€80,465.00	Community Energy,Travel,Shopping & Recycling
23	Enniscorthy Rugby Club.	Theme 1: Pitch Lighting Upgrade: • LED Upgrade of Pitch Lighting Theme 3: Reduce Amount of Rainwater Entering Waste Water System: • implement a 20m3 rainwater harvesting system and associated storage and treatment system to be used in the club's toilets and showers	€87,281.50	Community & Energy

Wicklow Applications Granted Funding under the Community Climate Action Programme				€766,469.36
	Group Name	**Project Overview**	**Funding Allocation**	Theme(s)
Small Projects				
1	Blessington Men's Shed	LED retrofit internal and external; retrofit doors; water refill	€1,200.00	Community Energy
2	Coolboy Handball Club	Window replacement	€2,200.00	Community Energy
3	Donard Community Enterprises	Insulation of community café	€3,972.50	Community Energy
4	Open Door Day Centre	Solar PV	€15,500.00	Community Energy
5	Blessington GAA	LED retrofit to community Astro	€19,113.00	Community Energy
6	Coolboy Development Group	Water refill station; timer switch	€7,826.14	Community Energy, Food & Waste
7	Valleymount GAA	LED retrofit and sensors; hawthorn hedge on boundary; water refill external; bike stand	€10,301.05	Community Energy, Food & Waste, Local Climate & Environmental Action
8	Stratford Grangecon GAA	LED retrofit internal and external; retrofit doors; water refill	€16,866.89	Community Energy, Food & Waste
9	Powerscourt Church Enniskerry	Pond installation; compost bins.	€3,868.58	Food & Waste, Local Climate & Environmental Action
10	Whale Theatre Company	Mixer taps in bathrooms; blending valves water saving; waterless urinal; recyling bins	€5,755.00	Food & Waste, Shopping & Recycling
11	Rewild Wicklow	Tree nursery upgrades and equipment	€14,100.00	Local Climate and Environmental Action
Medium Projects				
12	Tiglin Challenge	Solar PV; LED retrofit	€21,494.00	Community Energy
13	St. Patrick's GAA Kilcoole	Solar PV and battery storage	€22,093.00	Community Energy
14	Ashford Development Association	Solar PV; LED retrofit	€25,857.70	Community Energy
15	Carnew Emmets GAA	Solar PV; LED retrofit to community Astro	€30,936.86	Community Energy
16	Greystones Lawn Tennis Club	Solar PV	€32,192.00	Community Energy
17	Greystones United AFC	LED retrofit community Astro	€32,413.00	Community Energy
18	Arus Lorcan Arklow Parish	Solar PV; insulation of walls and roof	€40,549.00	Community Energy
19	Aughrim Tidy Towns CLG	Retrofit room for textile upcycling	€20,062.00	Community Energy, Shopping & Recycling
20	Rathdrum Rugby Club	Upgrade CW system with rainwater harvesting; EDDI systems powered by existing solar; removal of existing oil boiler and kerosene tank	€24,473.00	Community Energy, Shopping & Recycling
21	1st Wicklow 2nd Dublin St. Kilian's Greystones Scout Group	Solar PV and turbine; rainwater recyling; planting and food garden.	€26,745.73	Community Energy, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
22	Grangecon Tidy Towns	Roof and wall insulation; bike parking; clothing swap shop; food/plant storage; native hedgerow	€36,916.10	Community Energy,Travel, Food & Waste, Local Climate & Environmental Action, Shopping & Recycling
23	Shillelagh People's Property	Smart heating controls; solar PV; wall and attic insulation; community garden; LED replacement; water refill; bike stand	€46,108.00	Community Energy,Travel, Food & Waste, Shopping & Recycling
24	Imaal Hall Dunlavin	Timber windows and doors replacement	€41,112.55	Community Energy
25	Arklow Town FC	Retrofit club room with insulation; LED retrofit Astro	€46,895.04	Community Energy
Large Projects				
26	Arklow Geraldine's Ballymoney GAA	Sustainable water management; active travel; sustainable energy; water refill.	€66,403.22	Community Energy,Travel, Shopping & Recycling
27	Annacurra Community Development / Tidy Towns	Community biodiversity garden; community centre wall insulation / new windows and doors.	€69,400.00	Community Energy,Food & Waste, Local Climate & Environmental Action,

28	An Tochar GAA Roundwood.	Wall and roof insulation; external insulation; replace windows and doors	€82,115.00	Community & Energy
