I oppose the amendment on the River Easkey. This river along with the River Moy are being targeted, due to the decline of salmon. The main problem for the decline of the salmon stocks are the hoovers out at sea and the seals at the mouth of the Rivers. But brown envelopes always win over the nature of the River. 1 man and a rod, if he lived to be a 1000 could not do any damage that would be noticeable. But as usual its the angler thats to blame not the trawlers or the seals.
