AIE.24.548	02/09/2024	Others	Item 1. FI Determination over-ridden on Validation 1. A copy of any Appropriate Assessment Screening (all schemes) which have been screened out from an Appropriate Assessment based on a screening validation by an ecologist after the original screening decision by the Forestry Inspector (or other) screened-in the project where the Determination of either the Inspector or the Ecologist is dated during the month of August 2024. Information to include the name of the party carrying out the original screening and the ecologist who carried out the validation. This request does not require every file to be accessed and checked. FS-DAFM must operate a procedure by which a file is referred for Validation. Once this process is understood then identifying the relevant cases should be fairly straightforward. I would suggest that the start point for locating this information is through the ecology section. Additionally XXXXXXX XXXX carries out many validations so correspondence with XXXXX an and the Inspectorate / Ecology Section should identify records falling within the scope of my request. If the information is already publicly available can you please identify the relevant licence number/s so that I can locate them on the FLV. Item 2. CTS Database 1. A copy of the latest iteration of the Coillte Tracking System Database To clarify, this is for information held by DAFM to reconcile Coillte licence applications. A copy of the Microsoft Access Database file will meet this request. If the database contains protected or restricted information an extract can be made from the database excluding any categories of information which contain restricted data. My understanding is that the vast majority of the information is non sensitive, including that on Hen Harrier, Curlew, Fresh Water Pearl Mussel and Kerry Slug. I understand that such data is recorded as either True or False as to whether the species is relevant to the site. It does not disclose environmentally information to a degree of granularity that could impact adversely of the species.	Refused

AIE.24.549	02/09/2024	Others	Item 1.Alleged Illegal Afforestation, Roads & Felling 1. Information on all Alleged Illegal Afforestation, Alleged Illegal Roads & Alleged Illegal Felling Incidents reported during August 2024 2. Information on all Alleged Illegal Afforestation, Alleged Illegal Roads & Alleged Illegal Felling Incidents investigated during August 2024 – this includes ongoing investigations To be clear I am seeking the records relating to the incidents in 1 & 2 and not just a summary list of incidents. Records to include a status update. In order to reduce the workload I am happy to negotiate the release of what I consider the key records in terms of what I seek. Where significant redaction would be required of a particular record I am prepared to accept a refusal provided that the record is itemised on the Schedule of Records. Electronic copy via email is preferred. I cannot access information via the new Cloud system. If the volume of information is such that DAFM consider this mechanism for making the information available I request to receive the information either by post on an SDHC card or similar or by accessing the information in situ at the local DAFM office in Drumshanbo, Co. Leitrim.	Part grant
