Ireland needs to halve its carbon emissions by 2030

Transport causes 18% of our carbon emissions

The road forward

500,000
additional daily walking, cycling and public transport journeys

A **10%** reduction in car journeys fuelled by petrol or diesel

Get **945,000** Electric Vehicles on the road

What is the Government doing?

€360m
annual investment in walking and cycling infrastructure

Up to **€10k** in supports to buy an Electric Vehicle

Investing in accessible and reliable public transport - **Bus Connects, Cork Commuter Rail, Dart +, Metrolink**

Rail and bus electrification to reduce reliance on fossil fuels

Connecting Ireland's rural mobility plan - improving public transport outside major cities and towns

Young Adult Travel Card **reducing cost of public transport by 50%**

What can you do?

Make your journey an active one - walk or cycle

Take **ONE** less car journey per week

Use public transport

Consider **switching to an Electric Vehicle**
