Honey Export Health Certification Process

1

Exporter ensures that the product complies with the requirements of the GB certificate.

2

FBO submits Part I application of the Export Health Certification (EHCs) on TRACES.

3

The exporter must alert the Department's Honey Inspectorate at beekeeping@agriculture.gov.ie of the upcoming export. Applications for EHCs should be made three working days before the export date.

4

Inspectors carry out the necessary technical and regulatory checks

5

If the checks are passed EHC is approved.
Certifying Officer eSigns the EHC and the EHC is eSealed.

6

Digitally signed document is then available to be transmitted to IPAFFS.
