Dear Mr. Mahon,

I would like to inform you that we are submitting our application for a dredging permit to both the Foreshore Department and the E.P.A. in three weeks.

We last carried out maintenance dredging in 2007, and the area close to the sea wall has silted up badly since then. The main walkway and quite a lot of the berths are aground at low water. Apart from rendering the berths unusable, it is very unsightly and poses a serious health and safety risk to users of the marina.

We will use Water Injection Dredging as we did in 2007.

Should you have any queries, please do not hesitate to contact me.

Yours sincerely,
